- QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the quarterly period ended **March 31, 2007**

OR

- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT**
For the transition period from _____ to _____

ENTECH ENVIRONMENTAL TECHNOLOGIES, INC.

(Name of small business issuer in its charter)

Florida
(State or other jurisdiction
of incorporation)

77-0616120
(IRS Employer
Identification No.)

3233 Grand Avenue, Suite N-353
Chino Hills, California 91709-1489
(Address of principal executive offices)

Registrant's telephone number, including area code: **(909) 623-2502**

Check whether the issuer (1) filed all reports required to be filed by section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

State the number of shares outstanding of each of the issuer's classes of common equity, as of the latest practicable date: As of May 8, 2007, the issuer had 32,530,840 shares of its common stock issued and outstanding.

Transitional small business disclosure format (check one): Yes No

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

**ENTECH ENVIRONMENTAL TECHNOLOGIES, INC.
NOTES TO CONSOLIDATED FINANCIAL INFORMATION
MARCH 31, 2007 (UNAUDITED)**

NOTE 1 - BUSINESS, BASIS OF PRESENTATION and GOING CONCERN ISSUESGeneral

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Accordingly, the results from operations for the three month period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the year ended September 30, 2007. The unaudited consolidated financial statements should be read in conjunction with the consolidated September 30, 2006 financial statements and footnotes thereto included in the Company's SEC filing on Form 10-KSB.

Business and Basis of Presentation

Entech Environmental Technologies, Inc. ("Entech" or the "Company"), formerly Cyber Public Relations, Inc., was formed in June, 1998 under the laws of the State of Florida. The Company, through its H.B. Covey subsidiary, provides Construction and maintenance services to petroleum service stations in the southwestern part of the United States of America, and provides installation services for consumer home products in Southern California.

The accompanying financial statements include the accounts of the Company and its wholly-owned subsidiary, H.B. Covey, Inc., a California corporation ("H.B. Covey"). All significant intercompany transactions and balances have been eliminated in the consolidated financial statements.

Going Concern Issues

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. During the six months ended March 31, 2007 and 2006, the Company incurred losses from continuing operations of \$1,237,000 and \$658,000, respectively. As of March 31, 2007, the Company has negative working capital of \$1.97 million, an accumulated deficit of \$19.904 million, current portion of notes payable of \$1.1 million after full amortization of the note discount.

Other than cash received from the collection of accounts receivable for construction and maintenance services, the Company's cash resources are generally limited to borrowings under the Note Purchase Agreements as discussed in Note 3. To date, the Company has borrowed \$1.1 million under the original agreement which provides for total aggregate borrowings of \$1.5 million. The Note Purchase Agreement provides certain restrictions on the Company's ability to raise funds from other resources. As a result, payments to vendors, lenders and employees may be delayed.

[Table of Contents](#)

These factors raise substantial doubt about the Company's ability to continue as a going concern. The accompanying financial statements do not include any adjustments that might result from the outcome of this uncertainty. The Company's existence is dependent upon management's ability to develop profitable operations and to resolve its liquidity problems. Management anticipates the Company will attain profitable status and improve its liquidity through the continued development, marketing and selling of its services, and through additional debt or equity investment in the Company.

Basic and diluted net loss per share

Net loss per share is calculated in accordance with the Statement of Financial Accounting Standards No. 128 (SFAS No. 128), Basic net loss per share is based upon the weighted average number of common shares outstanding. Diluted net loss per share is based on the assumption that all potential dilutive convertible shares and stock options or warrants were converted or exercised. The calculation of diluted net loss per share excludes potential common stock equivalents if the effect is anti-dilutive. The Company's weighted common shares outstanding for basic and dilutive were the same since the effect of common stock equivalents was anti-dilutive.

NOTE 2 - ACQUISITION OF ASSETS and GOODWILL IMPAIRMENT

Acquisition of Assets

On December 9, 2005, the Company entered into an Asset Purchase and Sale Agreement with Pacific Coast Testing to acquire the assets of this fuel system testing company for \$125,000. No liabilities were assumed as part of the transaction. The Company paid \$75,000 of the purchase price at closing, and the remaining \$50,000 was payable in May 2006. The final payment is subject to downward adjustment for issues that may arise subsequent to the transaction.

The assets acquired were valued at their fair market value, resulting in the recording of goodwill totaling approximately \$22,000. Following is a breakdown of the purchase price allocation:

	<u>Amount</u>
Vehicles	\$ 57,455
Equipment	37,590
Inventory	8,423
Goodwill	21,532
Purchase price	<u>\$ 125,000</u>

Burr Northrop, the Company's President, advanced the funds to make the initial \$75,000 purchase price payment, and the Company recorded this as an advance from related party. As noted below, the Company entered into a Note Purchase Agreement to finance the repayment of the advance, and the advance was repaid in January 2006. The advance and \$500 of interest were paid to Mr. Northrop in January 2006.

During the quarter ended June 30, 2006, the Company recorded a goodwill impairment charge of \$21,532, which was the amount of goodwill recorded at acquisition.

[Table of Contents](#)**NOTE 3 - NOTE PURCHASE AGREEMENTS AND LIQUIDATED DAMAGES**

In September 2004, the Company entered into a Note Purchase Agreement ("NPA #1") whereby the Company would borrow a minimum of \$100,000 and a maximum of \$1,500,000 pursuant to a secured convertible note or convertible notes. Through March 31, 2006, the Company has borrowed \$1.1 million under NPA #1, and this amount is due on demand. The notes are convertible into 42.5 million common shares, and the Company issued warrants to purchase 15.9 million common shares to the note holder pursuant to NPA #1. The shares underlying the convertible notes and warrants have registration rights. The registration rights agreement for NPA #1 provides for liquidated damages equal to 36% per annum of the note principal in the event that a registration statement to register the underlying shares is not filed timely or declared effective timely. The Company filed a registration statement to register the shares underlying the convertible note payable and warrants on June 8, 2006. The registration statement has not been declared effective by the Securities and Exchange Commission, and the Company will incur liquidated damages until the registration statement is declared effective. The Company recorded liquidated damages of \$190,638 for the year six months ended March 31, 2007.

In December 2005, the Company executed a Note Purchase Agreement ("NPA #2") to provide for repayment of the advance by Burr Northrop that was used to pay the initial purchase price in the acquisition of Pacific Coast Testing. NPA #2 provides for funding of \$100,000 pursuant to a convertible note payable, and the funding did not occur until January 2006. Accordingly, the transaction was recorded in January 2006. The note bears interest at 8% per year, is due on demand, and is convertible into 4.0 million shares of common stock. The Company issued warrants to purchase 4.0 million common shares to the note holder in December 2005. The value of the note proceeds were allocated to the beneficial conversion feature and the warrants, resulting in a discount equal to the face value of the note. The note discount is being amortized to interest expense beginning on the funding date. The shares underlying the convertible note and warrants have registration rights. The registration rights agreement for NPA #2 provides for liquidated damages equal to 36% of the note principal in the event that a registration statement to register the underlying shares is not declared effective. The Company filed a registration statement to register the shares underlying the convertible note payable and warrants on June 8, 2006. The registration statement has not been declared effective by the Securities and Exchange Commission, and the Company will incur liquidated damages until the registration statement is declared effective. The Company recorded liquidated damages of \$17,951 for the six months ended March 31, 2007.

In January 2006, the Company executed a Note Purchase Agreement ("NPA #3") to convert \$236,680 of accrued liquidated damages on NPA #1 into a note payable. The note bears interest at 8%, is due January 26, 2008, and is convertible into approximately 9.5 million shares of common stock based on a conversion rate of one common share for every \$.025 of note principal. The value of the note proceeds were allocated to the beneficial conversion feature, resulting in a discount equal to the face value of the note. The note discount is being amortized to interest expense beginning on the funding date. The shares underlying the convertible note have registration rights. The registration rights agreement for NPA #3 provides for liquidated damages equal to 36% of the note principal in the event that a registration statement to register the underlying shares is not declared effective. The Company filed a registration statement to register the shares underlying the convertible note payable on June 8, 2006. The registration statement has not been declared effective by the Securities and Exchange Commission, and the Company will incur liquidated damages until the registration statement is declared effective. The Company recorded liquidated damages of \$42,486 for the six months ended March 31, 2007.

[Table of Contents](#)

In April 2006, the Company executed a Note Purchase Agreement ("NPA #4) to convert \$167,843 of accrued liquidated damages on NPA #1, NPA #2 and NPA #3 into a note payable. The note bears interest at 8%, is due April 20, 2008, and is convertible into approximately 6.7 million shares of common stock based on a conversion rate of one common share for every \$.025 of note principal. The value of the note proceeds were allocated to the beneficial conversion feature, resulting in a discount equal to the face value of the note. The note discount is being amortized to interest expense beginning on the funding date. The shares underlying the convertible note have registration rights. The registration rights agreement for NPA #4 provides for liquidated damages equal to 36% of the note principal in the event that a registration statement to register the underlying shares is not declared effective. The Company filed a registration statement to register the shares underlying the convertible note payable on June 8, 2006. The registration statement has not been declared effective by the Securities and Exchange Commission, and the Company will incur liquidated damages until the registration statement is declared effective. The Company recorded liquidated damages of \$30,129 for the six months ended March 31, 2007.

In October, 2006 the Company executed a Note purchase Agreement to convert \$848,313 of accrued liquidated damages into a note payable. The note bears interest at 8%, is due on October 17, 2008, and is convertible into approximately 34 million shares of common stock based on a conversion rate of one common share for every \$.025 of note payable. The shares underlying the convertible note have registration rights. The registration rights agreement provides for liquidated damages equal to 36% of the note principal in the event that a registration statement to register the underlying shares is not declared effective. The Company filed a registration statement to register the shares underlying the convertible note payable on June 8, 2006. The registration statement has not been declared effective by the Securities and Exchange Commission, and the Company will incur liquidated damages until the registration statement is declared effective. The Company recorded liquidated damages of \$101,240 for the six months ended March 31, 2007.

In December 2006, the Company executed a Note purchase Agreement to borrow \$15,000 pursuant to a secured convertible note or convertible note. The note bears interest at 8%, is due on December 11, 2008, and is convertible into approximately 600,000 shares of common stock based on a conversion rate of one common share for every \$.025 of note payable and the Company issued warrants to purchase 225,000 common shares to the note holder. The shares underlying the convertible note have registration rights. . The registration rights agreement provides for liquidated damages equal to 36% of the note principal in the event that a registration statement to register the underlying shares is not declared effective. The Company filed a registration statement to register the shares underlying the convertible note payable on June 8, 2006. The registration statement has not been declared effective by the Securities and Exchange Commission, and the Company will incur liquidated damages until the registration statement is declared effective. The Company recorded liquidated damages of \$1,627 for the for the six months ended March 31, 2007.

The notes referenced above are secured by the Company's assets, and the Company would lose all of its assets in the event of a default under the terms on the note agreements.

NOTE 4 - SETTLEMENT AGREEMENT

In June 2004, the Company's board of directors authorized management to proceed with the disposal of two subsidiaries, CPI and Advanced Fuel. On September 30, 2004, the Company formally filed for Chapter 7 bankruptcy protection for CPI and Advanced Fuel in Los Angeles County, California.

In October 2006, the Company entered into a settlement agreement with a CPI to satisfy accounts payable totaling \$54,000 included as part of due to affiliated entities. Terms of the agreement provided for a cash payment of \$27,000 in complete satisfaction of the liability. The resulting gain on settlement totaling \$27,000 was recorded as an increase to additional paid-in capital during the six months ended March 31, 2007.

[Table of Contents](#)**NOTE 5 - COMMON STOCK**

In December 2005, the Company entered into a settlement agreement with a vendor to satisfy accounts payable totaling \$163,000. Terms of the agreement provided for payment in cash of \$35,000, and the issuance of 1,000,000 shares of common stock. The common shares issued were valued at \$90,000, or \$0.09 per share, which was the fair market value of the common stock on the agreement date. The resulting gain on settlement totaling \$38,000 was recorded as other income during the six months ended March 31, 2006.

As part of a settlement with former chairman and chief executive officer, Steven Rosenthal, the Company subscribed 1,200,000 of unrestricted common shares of Company stock. See Note 8. The Company had no additional capital transactions for the six months ended March 31, 2007.

The Company did not grant any stock options during the six months ended March 31, 2007 or 2006.

NOTE 6 - DISCONTINUED OPERATIONS

In June 2006, the Company discontinued the operations of the Consumer Services division, which consisted primarily of installation of home consumer products for a major retailer. The Company had completely disposed of the Consumer Division as of September 30, 2006. Results from operations for the six months ended March 31, 2006 have been restated to present the operations of the Consumer Division in discontinued operations.

NOTE 7 - SEGMENT INFORMATION

Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information" ("SFAS 131") establishes standards for reporting information regarding operating segments in annual financial statements and requires selected information for those segments to be presented in interim financial reports issued to stockholders. SFAS 131 also establishes standards for related disclosures about products and services and geographic areas. Operating segments are identified as components of an enterprise about which separate discrete financial information is available for evaluation by the chief operating decision maker, or decision-making group, in making decisions how to allocate resources and assess performance. Beginning in October 2004, the Company operated in three segments: Construction Services; Maintenance Services, and Consumer Services. Beginning in December 2005, the Company added a new division called Testing Services. Beginning June 2006, the Company closed its Consumer Services division and merged the Testing Services division into the Maintenance Services division. The Company's Other segment includes primarily general and administrative expenses.

In June 2006, The Company discontinued its Consumer Services division and the results of these operations were included in discontinued operations and are not included in the segment information below.

During the three months ended March 31, 2007 and 2006, we recognized approximately 58.9% and 74.1%, respectively, of our consolidated revenue from five and three significant customers, respectively. During the six months ended March 31, 2007 and 2006, we recognized approximately 49.1% and 57.7%, respectively, of our consolidated revenue from four and three significant customers, respectively. During the six months ended March 31, 2007 and 2006 we recognized revenue of \$399,000 and \$1,194,000 from three customers in the Construction Services division, and \$506,000 and 414,000 and from one different customer in the Maintenance Services division. During the three months ended March 31, 2007 we recognized revenue of \$335,000 and \$818,000 from two and four customers, respectively in the Construction Services division, and \$331,000 and \$277,000 from three different customers in the Maintenance Services division.

While we consider our relationships with the customers to be satisfactory, given the concentration of our sales to a few key customers, our continued relationships may be subject to the policies and practices of the customers. We continue to concentrate our efforts on expanding our customer base in order to reduce our reliance on our current customers. Intersegment revenues are not material and are not shown in the following tables.

[Table of Contents](#)**NOTE 8 - LEGAL PROCEEDINGS**

The proceedings described below are in various stages. While the ultimate effect of the legal actions described below cannot be predicted with certainty, the Company expects that the proceedings against its subsidiaries will not result in liability to the Company due to the ongoing bankruptcy of CPI and AFFS. The Company does not expect the outcome of these matters to have a material effect on its financial condition or the results of its operations. The following lawsuits have been filed against the Company:

As of March 21, 2007, The Company settled all disputes with former chairman and chief executive officer, Steven Rosenthal, who had filed a complaint against the Company in San Bernardino County Superior Court. The Company paid \$13,000 during April of 2007 and 1,200,000 shares of subscribed common stock valued at \$18,000 in repayment of costs paid to third party creditors by Mr. Rosenthal.

During April, 2007, the Company agreed to issue 500,000 shares of Company common stock in settlement of all claims with former officer Robert Christie.

The Company was named as a defendant in several legal proceedings in the State of California alleging breach of contract and various fees in connection with the activities of our subsidiaries, Christie-Peterson Development, Advanced Fuel Filtration Systems, Inc., and H.B. Covey, Inc. The plaintiffs seek monetary damages. CPI and AFFS commenced Chapter 7 bankruptcy proceedings on September 30, 2004.

NK Heating & Air Conditioning filed complaint against the Company and its formerly owned subsidiary , CPI Development, Inc. in Los Angeles County Superior Court. The complaint alleges a breach of contract, and ask for damages of \$98,000. The Company believes that it has meritorious defenses to the plaintiff's claims and intends to vigorously defend itself against the Plaintiff's claims.

Corona Service Park, et al filed complaint against the Company in the Central District of California of the United States District Court. The complaint alleges a breach of contract. The Company believes that it has meritorious defenses to the plaintiff's claims and intends to vigorously defend itself against the Plaintiff's claims.

The Company is also subject to other legal proceedings and claims which arise in the ordinary course of its business. Although occasional adverse decisions or settlements may occur, the Company believes that the final disposition of such matters will not have material adverse effect on its financial position, results of operations or liquidity .

Other than described above, the Company is not engaged in any other litigation, and is unaware of any claims or complaints that could result in future litigation. The Company will seek to minimize disputes with its customers but recognize the inevitability of legal action in today's business environment as an unfortunate price of conducting business.

NOTE 9 - RELATED PARTY TRANSACTIONS

Burr Northrop, the Company's President, advanced \$30,000 during the quarter ended March 31, 2007. These advances are unsecured, non-interest bearing with no fixed terms of repayment.

Item 2. Management's Discussion and Analysis or Plan of Operations

FORWARD-LOOKING INFORMATION

Much of the discussion in this Item is "forward looking" as that term is used in Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934. Actual operations and results may materially differ from present plans and projections due to changes in economic conditions, new business opportunities, changed business conditions, and other developments. Other factors that could cause results to differ materially are described in our filings with the Securities and Exchange Commission.

There are several factors that could cause actual results or events to differ materially from those anticipated, and include, but are not limited to general economic, financial and business conditions, changes in and compliance with governmental laws and regulations, including various state and federal environmental regulations, our ability to obtain additional financing from outside investors and/or bank and mezzanine lenders and our ability to generate sufficient revenues to cover operating losses and position us to achieve positive cash flow.

Readers are cautioned not to place undue reliance on the forward-looking statements contained herein, which speak only as of the date hereof. We believe the information contained in this Form 10-QSB to be accurate as of the date hereof. Changes may occur after that date. We will not update that information except as required by law in the normal course of its public disclosure practices.

Additionally, the following discussion regarding our financial condition and results of operations should be read in conjunction with the financial statements and related notes contained in Item 1 of Part I of this Form 10-QSB, as well as the financial statements in Item 6 of Part II of our Form 10-KSB for the fiscal year ended September 30, 2006.

[Table of Contents](#)**RESULTS OF OPERATIONS****THREE MONTHS ENDED MARCH 31, 2007 COMPARED TO THE THREE MONTHS ENDED MARCH 31, 2006****CONTINUING OPERATIONS**

Beginning in October 2004, the Company operated in three segments: Construction Services; Maintenance Services, and Consumer Services. Beginning in December 2005, the Company added a new division called Testing Services. Beginning June 2006, the Company closed its Consumer Services division and merged the Testing Services division into the Maintenance Services division. The Company's Other segment includes primarily general and administrative expenses.

Construction Services

Construction Services revenues decreased \$411,000 or 93% due to management's inability to secure and complete larger projects. The failures can be attributed to change in key personnel, inadequate operating capital to support large upfront costs, cyclical softening of the market, inadequate sales and marketing effort, and lack of bonding capacity. Gross margin percentage increased to 56% from 17% because of our efforts to reduce costs and focus on more profitable projects.

Operating expenses as a percentage of revenue increased from 12% to 21% because of our lower revenue base in the current year quarter. On a gross dollar basis, operating expenses decreased \$11,000, or 11% because of efforts to reduce overhead costs. Employee related expenses decreased \$14,000 or 32% during the current year quarter because we reduced our labor force. Insurance and vehicle related expenses remained consistent because of efforts to reduce fleet size during 2006 and 2007.

Overall, Construction Services had income from operations of \$151,000 compared to income from operations of \$41,000 during the prior period, an increase of \$110,000, based on the factors discussed above.

Maintenance Services

Maintenance Services revenues decreased \$65,000, or 11%. Revenues decreased because of slower than expected demand for services during December of 2006 and a discontinuation of testing services during the three months ended December 31, 2006. Gross margin percentage increased to 42% from 33% primarily because of decreased reliance on subcontractor costs. Labor related charges remained consistent between periods.

Operating expenses as a percentage of revenue increased to 32% from 29%, or \$36,000 in total. Insurance expense decreased \$3,000, or 22%, during the current year quarter because of reasons stated above.. Employee related expenses increased \$19,000 or 21% with the prior period because of increased employee benefit related costs and a reduction in the overhead rate application for labor. The portion of vehicle related expenses allocated to Maintenance Services decreased \$15,000 or 50% because of the reduction in fleet size and related cost as stated above.

Overall, Maintenance Services income from operations increased \$40,000, based on the factors discussed above.

[Table of Contents](#)Other

Corporate overhead increased from \$195,000 to \$285,000 or 32%. The increase in costs is the result of additional legal and related costs in efforts to resolve outstanding legal matters.

Interest expense, including liquidated damages increased to \$391,000 from \$254,000, or 25%. We have a higher debt base this quarter compared to the prior year quarter which attributes to the increase in interest expense. Interest expense also includes amortization of the note discounts discussed in Note 3.

We recorded liquidated damages of \$216,000 during the current period related to our failure to timely file a registration statement to register the shares underlying the convertible notes and warrants discussed in Note 3. No such charge was recorded in the prior year quarter.

Consolidated

On a consolidated basis, our revenues from continuing operations decreased \$346,000, or 33%, our gross margin increased \$176,000, or 36%, our operating expenses increased \$116,000, or 20%; our liquidated damages and interest expense increased \$53,000. We recorded a net loss from continuing operations of \$431,000 in the current period, compared to a net loss of \$426,000 in the prior year quarter.

DISCONTINUED OPERATIONS

In June 2006, we discontinued the operations of the Consumer Services division, which consisted primarily of installation of home consumer products for a major retailer. The employees of the Consumer Services division were laid-off in and the fixed assets used in the Consumer Services Division were transferred to the Company's other divisions. The net loss from discontinued operations for the three months ended March 31, 2007 and 2006 was \$0 and \$37,000 respectively.

RESULTS OF OPERATIONS**SIX MONTHS ENDED MARCH 31, 2007 COMPARED TO THE SIX MONTHS ENDED MARCH 31, 2006**Construction Services

Construction Services revenues decreased \$804,000 or 106% due to management's inability to secure and complete larger projects and to control cost. The failures can be attributed to change in key personnel, inadequate operating capital to support large upfront costs, cyclical softening of the market, inadequate sales and marketing effort, and lack of bonding capacity. Gross margin percentage increased to 48% from 30% because our efforts during the quarter focused primarily on more profitable contracts.

Operating expenses as a percentage of revenue increased from 15% to 26% because of our lower revenue base in the current year quarter. On a gross dollar basis, operating expenses decreased \$11,000, or 11% because of efforts to reduce overhead costs. Employee related expenses decreased \$42,000 or 43% during the current year quarter because we reduced our labor force. Insurance expense decreased \$7,000, or 53%, during the current year quarter because of decreased personnel and reductions in insurance coverage and a decrease in the number of vehicles to be covered under the policy. Accordingly, vehicle related expenses decreased \$3,000 or 10%, despite an increase in fuel costs.

Overall, Construction Services had income from operations of \$151,000 compared to income from operations of \$148,000 during the prior period, a decrease of \$72,000, based on the factors discussed above.

[Table of Contents](#)Maintenance Services

Maintenance Services revenues increased \$10,000, or 1%. Gross margin percentage increased to 42% from 41%. Labor related charges remained consistent between periods. Maintenance services revenues and job profitability remained consistent between periods. Operating expenses as a percentage of revenue increased to 34% from 31%, or \$36,000 in total. Insurance expense decreased \$2,000, or 8%, during the current year quarter because of reasons stated above.. Employee related expenses increased \$31,000 or 16% with the prior period because of increased employee benefit related costs and a reduction in the overhead rate application for labor. The portion of vehicle related expenses allocated to Maintenance Services decreased \$31,000 or 16% because of the reduction in fleet size as stated above.

Overall, Maintenance Services income from operations decreased \$79,000, based on the factors discussed above.

Other

Corporate overhead increased from \$394,000 to \$429,000 or 8%. The increase in costs is the result of additional legal and related costs in efforts to resolve outstanding legal matters.

Interest expense, including liquidated damages increased to \$1,064,000 from \$553,000, or 48%. We have a higher debt base this quarter compared to the prior year quarter which attributes to the increase in interest expense. Interest expense also includes amortization of the note discounts discussed in Note 3.

We recorded liquidated damages of \$384,000 during the current period related to our failure to timely file a registration statement to register the shares underlying the convertible notes and warrants discussed in Note 3. No such charge was recorded in the prior year quarter.

Consolidated

On a consolidated basis, our revenues from continuing operations decreased \$794,000, or 42%, our gross margin decreased \$102,000, or 13%, our operating expenses increased \$22,000, or 2%; our liquidated damages and interest expense increased \$511,000. We recorded a net loss of \$1,237,000 in the current period, compared to a net loss from continuing operations of \$658,000 in the prior year quarter.

DISCONTINUED OPERATIONS

In June 2006, we discontinued the operations of the Consumer Services division, which consisted primarily of installation of home consumer products for a major retailer. The employees of the Consumer Services division were laid-off in and the fixed assets used in the Consumer Services Division were transferred to the Company's other divisions. The net loss from discontinued operations for the six months ended March 31, 2007 and 2006 was \$0 and \$81,000 respectively.

[Table of Contents](#)**LIQUIDITY AND CAPITAL RESOURCES**

During the six months ended March 31, 2007 and 2006 we incurred net losses from Continuing operations of \$1,236,000 and \$577,000, respectively. During the six months ended March 31, 2007 our continuing operations used \$109,000 of cash; sold property and equipment for \$47,000; and received net proceeds from financing activities of \$31,000, which consisted of \$15,000 of proceeds from notes and an advance of \$30,000 from the Company president, Burr Northrup.

At March 31, 2007, we have negative working capital of \$1.974 million, and we have outstanding obligations to Barron Partners of an aggregate of \$1.1 million that is due on demand and another \$1.3 million that comes due at various dates during 2008. We filed a registration statement to register the shares underlying the convertible notes payable on June 2, 2006, and will continue to incur liquidated damages at the rate of 36% per year on the outstanding balance of the notes payable until such registration statement is effective. We requested for withdrawal of the registration statement on May 2, 2007.

In order to execute our business plan, we will need to acquire additional debt or equity financing. Our independent certified public accountants have stated in their report, included in our Form 10-KSB for the year ended September 30, 2006, and in Note 1 of this Form 10-QSB that due to our net loss and negative cash flows from operations, in addition to a lack of operational history, there is a substantial doubt about our ability to continue as a going concern. In the absence of significant revenue and profits, we will be completely dependent on additional debt and equity financing arrangements. There is no assurance that any financing will be sufficient to fund our capital expenditures, working capital and other cash requirements for the fiscal year ending September 30, 2006. No assurance can be given that any such additional funding will be available or that, if available, can be obtained on terms favorable to us. If we are unable to raise needed funds on acceptable terms, we will not be able to execute our business plan, develop or enhance existing services, take advantage of future opportunities or respond to competitive pressures or unanticipated requirements. A material shortage of capital will require us to take drastic steps such as further reducing our level of operations, disposing of selected assets or seeking an acquisition partner. If cash is insufficient, we will not be able to continue operations.

ACCOUNTING POLICIES INVOLVING MANAGEMENT ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions in certain circumstances that affect amounts reported in the accompanying financial statements and related footnotes. In preparing these financial statements, management has made its best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. We do not believe there is a great likelihood that materially different amounts would be reported related to the accounting policies described below. However, application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. Our senior management has discussed the development and selection of the critical accounting estimates, and related disclosures, with the Audit Committee of our Board of Directors.

Financial Reporting Release No. 60, which was released by the Securities and Exchange Commission, or SEC, in December 2001, requires all companies to include a discussion of critical accounting policies or methods used in the preparation of financial statements. The Notes to Consolidated Financial Statements included in our Annual Report on Form 10-KSB for the year ended September 30, 2006 includes a summary of our significant accounting policies and methods used in the preparation of our financial statements. In preparing these financial statements, we have made our best estimates and judgments of certain amounts included in the financial statements, giving due consideration to materiality. The application of these accounting policies involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. Our critical accounting policies are as follows:

[Table of Contents](#)**REVENUE RECOGNITION**

The Company recognizes revenues from fixed-price and modified fixed-price construction contracts on the percentage-of-completion method, measured by the percentage of cost incurred to date to estimated total cost for each contract. Provisions for estimated losses on uncompleted contracts are made in the period in which such losses are determined. Changes in job performance, job conditions, and estimated profitability may result in revisions to costs and income, which are recognized in the period in which the revisions are determined. Changes in estimated job profitability resulting from job performance, job conditions, contract penalty provisions, claims, change orders, and settlements, are accounted for as changes in estimates in the current period.

The Company recognizes revenue from repair and installation services in accordance with Staff Accounting Bulletin (“SAB”) 101, “Revenue Recognition”, updated by SAB’s 103 and 104, “Update of Codification of Staff Accounting Bulletins.” Under SAB 104, revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the seller’s price to the buyer is fixed or determinable, and collectibility is reasonably assured.

ALLOWANCE FOR DOUBTFUL ACCOUNTS

We also maintain an allowance for doubtful accounts for potential uncollectible accounts receivable arising from our customers' inability to make required payments. Our estimate is determined by analyzing historical bad debts, customer payment history and patterns, customer creditworthiness, and economic, political or regulatory factors affecting the customer's ability to make the required payments.

Item 3. Controls and Procedures

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, including our principal executive and financial officers, as appropriate to allow timely decisions regarding required disclosure.

Evaluation of Disclosure and Controls and Procedures. As of the end of the period covered by this Quarterly Report, we conducted an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer, of our disclosure controls and procedures (as defined in Rules 13a-15(e) of the Exchange Act). Based on this evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Changes in Internal Controls Over Financial Reporting. There have not been any changes in the our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The proceedings described below are in various stages. While the ultimate effect of the legal actions described below cannot be predicted with certainty, the Company expects that the proceedings against its subsidiaries will not result in liability to the Company due to the ongoing bankruptcy of CPI and AFFS. The Company does not expect the outcome of these matters to have a material effect on its financial condition or the results of its operations. The following lawsuits have been filed against the Company:

The Company was named as a defendant in several legal proceedings in the State of California alleging breach of contract and various fees in connection with the activities of our subsidiaries, Christie-Peterson Development, Advanced Fuel Filtration Systems, Inc., and H.B. Covey, Inc. The plaintiffs seek monetary damages. CPI and AFFS commenced Chapter 7 bankruptcy proceedings on September 30, 2004.

NK Heating & Air Conditioning filed complaint against the Company and its formerly owned subsidiary , CPI Development, Inc. in Los Angeles County Superior Court. The complaint alleges a breach of contract, and ask for damages of \$98,000. The Company believes that it has meritorious defenses to the plaintiff's claims and intends to vigorously defend itself against the Plaintiff's claims.

Corona Service Park, et al filed complaint against the Company in the Central District of California of the United States District Court. The complaint alleges a breach of contract. The Company believes that it has meritorious defenses to the plaintiff's claims and intends to vigorously defend itself against the Plaintiff's claims.

The Company is also subject to other legal proceedings and claims which arise in the ordinary course of its business. Although occasional adverse decisions or settlements may occur, the Company believes that the final disposition of such matters will not have material adverse effect on its financial position, results of operations or liquidity

Other than described above, we are not engaged in any other litigation, and are unaware of any claims or complaints that could result in future litigation. We will seek to minimize disputes with our customers but recognize the inevitability of legal action in today's business environment as an unfortunate price of conducting business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

None.

Item 5. Other Information
