**Florida**

(State or other jurisdiction of  
incorporation or organization)

**98-0222013**

(I.R.S. Employer  
Identification Number)

**16F, China Development Bank Tower,  
No. 2, Gaoxin 1st Road, Xi'an, PRC**

(Address of principal executive offices)

**710075**

(Zip Code)

Registrant's Telephone Number: **86-29-88377161**

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Common Stock, \$0.001 par value

Name of each exchange on which registered

Nasdaq Global Market

Securities registered pursuant to Section 12(g) of the Act:

None

(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in rule 405 of the Securities Act.

Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy statement or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of “large accelerated filer” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer

Accelerated Filer

Non-Accelerated Filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in rule 12b-2 of the Exchange Act). Yes  No

The aggregate market value of voting and nonvoting stock held by non-affiliates of the registrant, based upon the closing price of \$2.02 per share for shares of the registrant’s Common Stock on June 28, 2013, the last business day of the registrant’s most recently completed second fiscal quarter as reported by the NASDAQ Global Market, was approximately \$26.9 million. In calculating such aggregate market value, shares of Common Stock held by each officer, director and holder of 5% or more of the outstanding Common Stock (including outstanding shares with respect to which a holder has the right to acquire beneficial ownership within 60 days) were excluded because such persons may be deemed to be affiliates. This determination of affiliate status is not necessarily a conclusive determination for other purposes.

The number of shares of Common Stock outstanding as of March 28, 2014 was 26,661,499.

## NOTE CONCERNING FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K for the fiscal year ended December 31, 2013 (“Annual Report”) of SkyPeople Fruit Juice, Inc. (together with our direct or indirect subsidiaries, “we,” “us,” “our” or “the Company”) includes forward-looking statements that involve risks and uncertainties within the meaning of the Private Securities Litigation Reform Act of 1995. Other than statements of historical fact, all statements made in this Annual Report are forward-looking, including, but not limited to (a) our projected sales, profitability, and cash flows, (b) our growth strategies, (c) anticipated trends in our industry, (d) our future financing plans and (e) our anticipated needs for working capital. They are generally identifiable by use of the words “may,” “will,” “should,” “anticipate,” “estimate,” “plans,” “potential,” “projects,” “continuing,” “ongoing,” “expects,” “management believes,” “we believe,” “we intend” or the negative of these words or other variations on these words or comparable terminology. Forward-looking statements involve risks and uncertainties that are inherently difficult to predict, which could cause actual outcomes and results to differ materially from our expectations, forecasts and assumptions. The following important factors, among others, could affect our future results and could cause those results to differ materially from those expressed in such forward-looking statements:

- fluctuations in the supply of raw material;
- general economic conditions and conditions which affect the market for our products;
- changes in U.S. and global financial and equity markets, including market disruptions and significant interest rate fluctuations, which may impede our access to, or increase the cost of, external financing for our operations and investments;
- our success in implementing our business strategy or introducing new products;
- our ability to attract and retain customers;
- changes in tastes and preferences for, or the consumption of, our products;
- impact of competitive activities on our business;
- risks associated with conducting business internationally and especially in the People’s Republic of China (“PRC”, or “China”), including currency fluctuations and devaluation, currency restrictions, local laws and restrictions and possible social, political and economic instability; and
- other economic, financial and regulatory factors beyond the Company’s control

Any or all of our forward-looking statements in this report may turn out to be inaccurate. They can be affected by inaccurate assumptions we might make or by known or unknown risks or uncertainties. Consequently, no forward-looking statement can be guaranteed. Actual future results may vary materially as a result of various factors, including, without limitation, the risks outlined under “Item 1A. Risk Factors” in this Form 10-K. In light of these risks and uncertainties, there can be no assurance that the forward-looking statements contained in this filing will in fact occur. You should not place undue reliance on these forward-looking statements.

We undertake no obligation to update forward-looking statements to reflect subsequent events, changed circumstances or the occurrence of unanticipated events.

## PART I

### ITEM 1 – BUSINESS

#### Overview

We are a holding company incorporated under the laws of Florida. We have two direct wholly owned subsidiaries: Pacific Industry Holding Group Co., Ltd., (“Pacific”), a company incorporated under the laws of the Republic of Vanuatu, and Harmony MN Inc., (“Harmony”), a company organized under the laws of Delaware. Pacific holds 100% equity interest of SkyPeople Juice International Holding (HK) Ltd. (“SkyPeople International”), a company organized under the laws of Hong Kong Special Administrative Region of the People’s Republic of China (“Hong Kong”). SkyPeople International holds 99.78% of the equity interest of SkyPeople Juice Group Co., Ltd., (“SkyPeople (China)”), a company incorporated under the laws of the PRC. SkyPeople (China) has six direct subsidiaries, all limited liability companies organized under the laws of the PRC: (i) Shaanxi Qiyiwangguo Modern Organic Agriculture Co., Ltd., (“Shaanxi Qiyiwangguo”), (ii) Huludao Wonder Fruit Co., Ltd., (“Huludao Wonder”), (iii) Yingkou Trusty Fruits Co., Ltd., (“Yingkou”), (iv) SkyPeople Juice Group Yidu Orange Products Co. Ltd., (“Orange Products”), (v) “Hedetang Fruit Juice Beverage (Yidu) Co., Ltd., (“Hedetang Juice Beverages”), (vi) SkyPeople (Suizhong) Fruit and Vegetable Products Co., Ltd., (“SkyPeople Suizhong”), (vii) SkyPeople Juice Group (Mei County) Kiwi Fruit and Farm Products Trading Market Co., Ltd. (“Kiwi Fruit & Farm Products”) and Shaanxi Guo Wei Mei Kiwi Deep Processing Co., Ltd. (“Guo Wei Mei”)

#### Products and Market

Through our indirect subsidiaries in the PRC, we are engaged in the production and sale of (1) fruit juice concentrates (including fruit purees, concentrated fruit purees and concentrated fruit juices); (2) fruit beverages (including fruit juice beverages and fruit cider beverages), and (3) other fruit-related products (including primarily organic and non-organic fresh fruits, dried fruit, preserved fruit, fructose) in and from the PRC.

We were recognized and certified as the Hi-Tech Enterprise jointly by Shaanxi Department of Science and Technology, Department of Finance, Bureau of National Taxation and Bureau of Local Taxation in August 2009. The valid period of this certificate is for three years and was renewed for a valid period from October 22, 2012 to October 22, 2015. The Leading Enterprise of the China Food Industry by the China National Food Industry Association from 2005 to 2008, the Leading Agricultural Commercialization Enterprise of Shaanxi Province by Shaanxi Agricultural Bureau in 2012, the Enterprise with Essential Technology Innovation by the Department of Science and Technology of Shaanxi Province in 2010. Our Company was granted an AA level Certificate of the Standard and Good Conduct Enterprise by the Standardization Administration of China (“SAC”) in February 2012, and a Best Small and Middle Enterprises by Forbes China in 2011. Our concentrated pear juice and concentrated kiwi juice were awarded the Most Famous Products in Shaanxi Province by the People’s Government of Shaanxi in February 2012. The certificate was renewed in 2011; the period of validity of new certificate is from December 2011 to December 2014. Our fruit juice concentrates, which primarily include apple, pear and kiwi are sold to domestic customers and exported directly or via distributors to Asia, North America, Europe, Russia and the Middle East. We sell our Hedetang branded bottled fruit beverages domestically, primarily to supermarkets in the PRC. Our brand name “Hedetang” was awarded the Most Famous Brand in Shaanxi Province by the Shaanxi Administration Bureau for Industry and Commerce, this award will expire in December 2015. In March 2013, SkyPeople (China) was awarded Creative Enterprise of the Year on the 88<sup>th</sup> China Food & Drinks Fair (CFDF).

In 2013, sales of our fruit concentrates, fruit beverages, fresh fruits and other fruit related products represented approximately 48%, 50%, 1% and 1% of our revenue, respectively, compared to 60%, 27%, 7% and 6%, respectively, in 2012.

Specialty fruit juices, or “small breed” fruit juices, are juices squeezed from fruits that are grown in relatively small quantities such as kiwi juice, mulberry juice, turnjube juice and pomegranate juice. Currently, our specialty juice beverage offering includes pear juice, kiwi juice and mulberry juice. By the end of 2013, we possess 19 patents and proprietary technologies in the processing technology of specialty fruit juice and gained a number of honors and qualifications in the fruit juice industry. We believe that we are currently one of the few companies able to produce specialty fruit juices on a large scale in the PRC, and we believe that we are a leading specialty fruit juice producer in the PRC.

Our revenue has increased significantly from 2006 to 2010 with revenue of approximately \$17.4 million in 2006, approximately \$29.4 million in 2007, approximately \$41.7 million in 2008, approximately \$59.2 million in 2009 and approximately \$93.2 million in 2010. In 2011, our revenue decreased by 9.9% to \$84.0 million as compared to the prior year. In 2012, our revenue increased by 22% to \$102 million. In 2013, our revenue decreased 23% to \$79.0 million.

We intend to expand our current production facilities, expand our distribution channel of fruit juice beverages and consider acquisition opportunities in the fruit product industry, to increase our fruit processing capacity and our annual yield to meet increasing customer demand.

## Organizational Structure

Our current organizational structure is set forth in the diagram below:

- (1) Xi'an Qinmei Food Co., Ltd., an entity not affiliated with the Company, owns the other 8.85% of the equity interest in Shaanxi Qiyiwangguo.
- (2) Formerly known as Shaanxi Tianren Organic Food Co. Ltd.
- (3) SkyPeople Juice Group Yidu Orange Products Co., Ltd. was established on March 13, 2012. Its scope of business includes deep processing and sales of oranges.
- (4) Hedetang Fruit Juice Beverages (Yidu) Co., Ltd. was established on March 13, 2012. Its scope of business includes production and sales of fruit juice beverages.
- (5) SkyPeople (Suizhong) Fruit and Vegetable Products Co., Ltd. was established on April 26, 2012. Its scope of business includes initial processing, quick-frozen and sales of agricultural products and related by-products.
- (6) SkyPeople Juice Group (Mei County) Kiwi Fruit and Farm Products Trading Market Co., Ltd. ("Kiwi Fruit & Farm Products") was established on April 19, 2013. Its scope of business includes preliminary processing of agricultural and subsidiary products; establishment of trading market, etc.

- (7) Shaanxi Guo Wei Mei Kiwi Deep Processing Co., Ltd. was established on April 19, 2013. Its scope of business includes producing kiwi fruit juice, kiwi puree and cider beverages, etc.

## Competitive Advantages

We believe our competitive advantages include the modern equipment and technology employed at our production factories in Shaanxi and Liaoning Provinces and the strategic locations of our manufacturing facilities. Our equipment and technology help us ensure product quality, control costs and allow us to meet international fruit juice production standards such as ISO9001, HACCP, FDA and Kosher. In addition, our manufacturing facilities are strategically located near regional fruit production centers. For example, Shaanxi Province, where two of our manufacturing facilities are located, is known for pear and kiwi production. Our proximity to regional fruit production centers enables us to purchase fresh fruits directly from farmers, avoid the need of transport fresh fruit over long distances to processing facilities, reduce our transportation expenses and damage to fresh fruit during transportation and helps us maintain high quality of finished products by preserving freshness.

We own and operate four manufacturing facilities in the PRC. To take advantage of economies of scale and to enhance our production efficiency, each of our manufacturing facilities has a focus on juice products centering around one particular fruit based on the proximity of each facility to the supply center of that fruit. All concentrated juice products are manufactured using the same type of production line with slight variations in processing methods. We operated our pear juice products business out of our Jingyang Branch Office of SkyPeople (China). Our business involving apple juice products is operated out of Huludao Wonder and Yingkou, and our business involving kiwi products is operated out of Shaanxi Qiyiwanguo, in which we have held a 91.15% ownership interest since June 2006.

## Corporate History

We were initially incorporated in 1998 in Florida as Cyber Public Relations, Inc. for the purpose of providing internet electronic commerce consulting services to small and medium sized businesses and did not have any material operations or revenue. On January 21, 2004, we purchased all of the outstanding share capital of Environmental Technologies, Inc., (“Environmental Technologies”), a Nevada corporation, in exchange for approximately 29,051 shares of the Company’s common stock (“Common Stock”). As a result, Environmental Technologies became our wholly-owned subsidiary and the Environmental Technologies shareholders acquired approximately 97% of our issued and outstanding Common Stock. We changed our name to Entech Environmental Technologies, Inc.

After our acquisition of Environmental Technologies, we operated through our wholly-owned subsidiary, H.B. Covey, Inc., (“H.B. Covey”), a business providing construction and maintenance services to petroleum service stations in the southwestern part of the United States and installation services for consumer home products in Southern California. In July 2007, we entered into and consummated a Stock Sale and Purchase Agreement pursuant to which we sold H.B. Covey.

We were a shell company with no significant business operations after we sold H.B. Covey. As a result of the consummation of a reverse merger transaction, on February 26, 2008 we ceased of being a shell company and became an indirect holding company for SkyPeople (China) through Pacific.

On June 10, 2008, we acquired Huludao Wonder from Shaanxi Hede Investment Management Co., Ltd., (“Hede”), for a total purchase price of RMB 48,250,000, approximately \$6,308,591 based on the exchange rate on June 1, 2007. The payment was made through the offset of related party receivables. Prior to that, we operated our apple concentrate business out of the facilities of Huludao Wonder under a one-year lease agreement with Hede.

On June 17, 2009, we incorporated a new Delaware corporation called Harmony MN Inc., (“HMN”), to be a wholly owned subsidiary of the Company with offices initially in California to act as a sales company for the Company. The total number of shares of capital stock that HMN has authority to issue is 3,000 shares, all of which are Common Stock with a par value of \$1.00 per share. On June 20, 2009, HMN was registered in the State of California to transact business in such state. HMN has not yet commenced operations.

On November 25, 2009, we acquired Yingkou for a purchase price of RMB 22,700,000 (or \$3,325,569 based on the exchange rate of December 31, 2009), pursuant to the Stock Purchase Agreement that SkyPeople (China) entered into with Shaanxi Boai Pharmaceutical & Scientific Development Co., Ltd. (“Shaanxi Boai”, formerly known as “Xi’an Dehao Investment & Consultation Co., Ltd.”), on November 18, 2009. Yingkou commenced operating activities in the fourth quarter of 2010.

On March 13, 2012, we established SkyPeople Juice Group Yidu Orange Products Co., Ltd. (“Orange Products”) to engage in the business of deep processing and sales of oranges.

On March 13, 2012, we established Hedetang Fruit Juice Beverages (Yidu) Co., Ltd. (“Hedetang Juice Beverages”) to engage the business of production and sales of fruit juice beverages.

On April 26, 2012 we established SkyPeople (Suizhong) Fruit and Vegetable Products Co., Ltd. (“SkyPeople Suizhong”) to engage in the business of initial processing, quick-frozen and sales of agricultural products and related by-products.

On April 19, 2013, we established SkyPeople Juice Group (Mei County) Kiwi Fruit and Farm Products Trading Market Co., Ltd. (“Kiwi Fruit & Farm Products”) to engage in preliminary processing of agricultural and subsidiary products; establishment of trading market, etc.

On April 19, 2013, we established Shaanxi Guo Wei Mei Kiwi Deep Processing Co., Ltd. (“Guo Wei Mei”) to engage in the business of producing kiwi fruit juice, kiwi puree and cider beverages, etc.

### **Principal Products**

There are two general categories of fruit and vegetable juices available in the market. One is fresh juice that is canned directly upon filtering and sterilization after being squeezed out of fresh fruits or vegetables. The other general category is juice drinks made out of concentrated fruit and vegetable juices. Concentrated fruit and vegetable juices are produced through the pressing, filtering, sterilization and evaporation of fresh fruits or vegetables. Concentrated juices are not drinkable. Instead, they are used as a basic ingredient for manufacturing juice drinks and as an additive to fruit wine and fruit jam, cosmetics and medicines.

Our core products are (1) fruit juice concentrates, mainly including concentrated apple, pear, and kiwi juices; (2) fruit beverages, including pure fruit beverages and fruit cider beverages; and (3) other fruit-related products, including fresh fruits and vegetables and fructose, etc.

#### **Fruit Juice Concentrate**

Our family of fruit juice concentrate products mainly includes concentrated apple, pear, and kiwi juices. Fruit juice concentrates can only be produced during the “squeezing season” of a year, where fresh fruits are available in the market. Generally, the squeezing season for apples is from August of a year through January or February of the following year, the squeezing season for pears is from July or August of a year through April of the following year, and the squeezing season for kiwifruits is from September through December of a year or January of the following year.

Fruit juice concentrates are manufactured through a multi-stage process, which includes pressing, filtering, sterilizing and evaporating fresh fruits and fruit juices.

Fruit juice concentrates are used as the base ingredient in fruit juice beverages and are also used in other products such as ice cream, fruit wine and, to a lesser extent, cosmetics and medicine.

We currently sell apple, pear, and kiwifruit concentrates. Our fruit juice concentrate products include concentrated apple and pear juice. Our concentrated kiwifruits are made of three different categories: kiwifruit puree, concentrated kiwifruit puree and concentrated kiwifruit juice.

Kiwifruit puree is prepared from clean, sound kiwifruits that have been washed and sorted prior to processing. The kiwifruits are crushed and pressed and the pulp of the kiwifruit is kept. All of the water and some of the pulp are then removed from the kiwifruit puree and the sugar level is increased in order to produce concentrated kiwifruit puree. We use advanced technologies to maintain the natural flavors and nutrients of the kiwifruit puree. Kiwifruit puree and concentrated kiwifruit puree are ideal raw materials used in the production of concentrated kiwifruit juices, kiwifruit beverages, kiwifruit flavored ice creams, smoothies and health care products. Concentrated kiwifruit juice is made from concentrated kiwifruit puree by removing all of the remaining pulp.

Our production line at the Shaanxi Qiyiwangguo factory can only produce puree and concentrated puree. We use the production line which produces concentrated apple and pear juice in facility of Jingyang branch of SkyPeople (China) to produce concentrated clear kiwifruit juice.

Concentrated apple juice and concentrated pear juice are prepared from fresh fruits. Fruit juice concentrates can also be combined with other fruit juices for the production of blended fruit juices, canned foods, confectionaries, fruit cider beverages and other beverage products.

#### Fruit Juice Beverages

As compared to our fruit juice concentrate products, which experience seasonality, fruit juice beverages can be produced and sold year round. We plan to focus on developing new beverages with higher margins.

The manufacturing process for fruit juice beverages involves further processing of fruit juice concentrates.

Our fruit juice beverages are divided into two categories: pure fruit juice and fruit cider beverages.

The gross margins for our fruit beverages were 37% and 34% in fiscal years 2013 and 2012, respectively.

Currently we produce six flavors of fruit beverages in 280 ml glass bottles, 418 ml glass bottles and 500 ml glass bottles as well as BIB (“Bag in Box”) package, including apple juice, pear juice, kiwifruit juice, mulberry juice, peach juice and pomegranate juice. We currently sell our fruit beverages to over 100 distributors and more than 20,000 retail stores in approximately 29 provinces. Our products are sold through distributors in stores such as Yonghui Supermarket in Beijing, RT-Mart in Shenyang, Carrefour in Chongqing and Shenyang and GMS Supermarket in Shanghai, etc.

#### Other Fruit-Related Products

We also sell fresh fruits and vegetables, fructose and other products.

The fruit processing capacity of our fructose production line is 10 tons of fresh apples or pears per hour. Fructose is often used as an ingredient to make beverages and other food products. Although we currently plan to use the new fructose production line to produce pear fructose, this production may also be used to produce apple fructose from apple juice concentrates.

The gross margins for our other fruit-related products were 33% and 43% in fiscal years 2013 and 2012, respectively.

## Production Capacity

The following table sets forth our current production capacity.

Subsidiary/branch	Location	Products	Production capacity	Notes
Shaanxi Qiyiwangguo	Zhouzhi county, Shaanxi province	Kiwi puree, concentrated kiwi puree and fruit beverages	(1) Sorting fresh fruits: 10 tons fresh fruits per hour;	Approximately 1.5 tons of fresh fruits are used to produce 1 ton of puree; 4 to 4.5 tons of fresh fruits are used to produce 1 ton of concentrated puree
			(2) Puree/concentrated puree: processing 20 tons of fresh fruits per hour;	
			(3) Fruit beverages: producing 6,000 bottles per hour	
Jingyang branch of SkyPeople (China)	Jingyang County, Xianyang City, Shaanxi Province	Concentrated apple and pear juice, concentrated kiwifruit juice and fruit-related products	(1) Concentrated apple/kiwi/pear juice: processing 40 tons of fresh fruits per hour;	All concentrated juice products are manufactured using the same type of production line with slight variations in processing methods
			(2) Fructose: processing 10 tons of fresh fruits per hour	
Huludao Wonder	Suizhong County, Huludao, Liaoning Province	Concentrated apple/pear juice Fruit juice beverages	(1) Concentrated fruit juice: processing 30 tons of fresh fruits per hour	All concentrated juice products are manufactured using the same type of production line with slight variations in processing methods On April 25, 2012, "China Food Production License" for production of Beverage (including fruit juice and vegetable juice) has been granted to Huludao Wonder by Liaoning Bureau of Quality and Technical Supervision. Huludao Wonder commenced operation of fruit juice beverages production line on April 28, 2012.
			(2) Fruit juice beverages: producing 6,000 bottles/hour	
Yingkou	Gaotai Town, Gaizhou, Liaoning Province	Concentrated apple juice	(1) Processing 20 tons of fresh fruits per hour	All concentrated juice products are manufactured using the same type of production line with slight variations in processing methods.

## Research and Development

We believe that continuous investment in research and development is a key component to being a leader in fruit juice concentrate and fruit beverages. Our Research and Development Center of SkyPeople (China) was certified as the Provincial Industrial Research & Development Center jointly by six provincial institutions of Shaanxi Provincial People's Government, including the Department of Communications, the Department of Science and Technology, the Department of Finance, the Bureau of National Taxation, the Bureau of Local Taxation and Xi'an Customs in December 2009. Our research and development effort emphasizes the design and development of our processing technology with the goal of decreasing processing costs, optimizing our production capabilities and maintaining product quality. We intend to continue to invest in research and development to respond to and anticipate customer needs. Our research and development costs were \$20,183 in fiscal 2013, as compared to \$570,278 in fiscal year 2012. In 2013, the Company suspended four research and development agreements with research institutions and currently intends to concentrate on building up an internal research and development team of approximately 30 employees.

## Industry and Principal Markets

### Global Market

The fruit juice processing industry is an emerging industry. Consumption of fruit juice beverages has grown and sales have increased rapidly in recent years due to the increasing health consciousness of consumers and the natural and healthy quality of fruit juice beverages. The demand and the price of concentrated fruit juice decreased in the international market in the second half of 2008 because of the negative effects from the worldwide economic crisis. However, according to Gary Hemphill, Senior Vice President of the Beverage Marketing Corporation, a leading industry consultancy, the U.S. liquid refreshment beverage category is starting to improve after two successive years of decline. Global Industry Analysts, Inc. reported in the "Fruit & Vegetable Juices Market: A Global Strategic Business Report" that the global market for fruit and vegetable juice beverages is forecasted to reach 64.46 billion liters by 2015. It is reported that the juice drinks segment is expected to witness increased demand in both value and volume as the market returns back to pre-crisis levels of growth.

According to the Fruit Juice Section of the PRC Food and Agriculture Export Association, [www.Chinajuce.org](http://www.Chinajuce.org), the PRC exported approximately \$1 billion in concentrated fruit juice to foreign countries every year in the past few years, which accounted for around 60% of the global output of concentrated fruit juice. It is reasonable to expect that such trend will continue.

### The PRC Market

The PRC has the world's largest population, but the consumption of fruit juice beverages is relatively low. According to the report "China Fruit Juice Beverages Business and Market Analysis" published by the PRC Food and Agriculture Export Association, [www.Chinajuce.org](http://www.Chinajuce.org), the annual per capita consumption of fruit beverages in the PRC in 2009 was approximately 1 kilogram, which only accounted for 13% of the average world per capita consumption and 4% of the average per capita consumption in the industrialized countries. The Chinese fruit juice and fruit juice drink industry is developing rapidly and total production has more than doubled to 14.48 million tons in 2009, compared to 6.35 million tons in 2005. The growth rate of the revenue from fruit juice and fruit juice drink has ranked first compared with other food related industries. We believe that the increasing health consciousness of consumers and the quality of living powered by the PRC's economic growth will continue to fuel the demand for our fruit juice products.

## Marketing, Sales and Distribution

We market our products through three primary methods: direct contact with foreign businesses, attendance at international exhibitions and sales made through trade websites. Our marketing and sales teams work closely together to maintain a consistent message to our customers.

The sales team is divided into three subdivisions, focusing on the sales of fruit juice concentrates, fruit beverage products and derivative products, respectively.

We sell our fruit juice concentrates both domestically and internationally, while we have only sold our fruit beverages domestically. We sell our products either indirectly through distributors with good credit history or directly to end-users.

Our export business is primarily comprised of fruit juice concentrates. The export of our fruit juice concentrates is handled internally by our international trade department, which has 20 employees.

The North American and European markets represent a large portion of apple and pear concentrate consumption. The U.S. market is a highly mature market with stable growth for apple concentrate. Although we sell to distributors in the PRC, and therefore are not certain exactly where our exported fruit juice concentrate products are ultimately sold, we believe that the volume of exports to the United States of our fruit juice concentrate products has increased annually since 2004. The European market, which we believe has a generally stable consumer base, has been a target market since our inception. Apple concentrate is used to produce many beverages and wines consumed by Europeans. The Middle East is also a target market for our apple juice concentrate.

The Chinese market drives our fruit beverage sales most beverages are sold through provincial, city and county-level agents. We also sell directly to hotels, supermarkets and similar outlets in smaller quantities. The fruit beverage sales are carried out by a team of 45 employees. Historically, we have only sold our fruit beverages regionally in Shaanxi Province and some neighboring cities in the PRC. One of our strategies is to broaden the geographic presence of our brand-named fruit beverages and expand production and sales of higher margin fruit beverages in the PRC.

Our kiwifruit products are targeted at the European, Southeast Asian, South Korean, Japanese, Middle Eastern, Mainland Chinese and Taiwanese markets. The growth of our kiwifruit concentrate and kiwifruit beverages has exceeded the growth rate of any other product we

## Competition

The markets in which we operate are competitive, rapidly evolving and subject to shifting customer demands and expectations. We believe that a number of companies are producing products that compete directly with our product offerings and some of our competitors have significantly more financial resources than we possess.

Our apple juice concentrate competitors include Sdic Zhonglu Fruit Juice Co., Ltd., Yantai North Andre (Group) Juice Co., Ltd., Shaanxi Hengxing Fruit Juice and Shaanxi Haisheng Juice Holdings Co., Ltd. We also compete with fruit juice companies such as Wahaha, Huiyuan, Nongfu Guoyuan, Tongyi and Meizhiyuan.

We believe our competitive advantages include our modern equipment and our proprietary processes for the production of specialty fruit juices or small breed fruit juices. We currently possess thirteen patents technologies in fruit juice production. Among these thirteen proprietary technologies, we have obtained nine patents and are in the process of applying for another six patents for other technologies. Our current specialty fruit juice offering includes kiwifruit and mulberry related juice products. We also have technologies to produce concentrated persimmon, turnjube, apricot, cherry, cherry tomato, sea-buckthorn, strawberry and wolfberry juices. Our technology allows us to develop and produce beverages, such as our new mulberry and kiwifruit cider beverages, which we introduced in the Chinese market in the first quarter of 2009. We believe these new beverages have higher gross margins than that of the industry average.

We believe the proximity of our manufacturing facilities to fruit farms is also one of our competitive advantages. It allows us to purchase fruit directly from fruit farmers, avoid the need for long distance transportation, minimize damages to the fruits and maximize the freshness of the fruits. We believe our storage costs are also lower than that of our competitors without adversely affecting our product quality.

We produce fruit beverages from our fruit juice concentrates, which allows us to better control the quality of our beverages.

## Raw Materials and Other Supplies

Fresh fruits, including apples, pears and kiwifruits are the primary raw materials for our products. The continuous supply of high quality fresh fruit is necessary for our current operations and our future business growth.

The PRC has the largest planting area of kiwifruit and apples in the world. Shaanxi Province, the location of two of our factories, has the largest planting area of kiwifruit and apples in the PRC. According to “Statistical Bulletin of Development of Fruit Industry in Shaanxi Province 2010,” in 2010, the kiwifruit planting area in Shaanxi Province was over 114,226 acres. The output of kiwifruit in Shaanxi Province was 630,000 tons. The Shaanxi government planned to increase the kiwifruit planting area in Shaanxi Province to 164,609 acres, and to increase the output of kiwifruit to 800,000 tons by 2015. The pear planting area in Shaanxi Province was 120,000 acres, and the output was 800,000 tons in 2010. Pomegranate, strawberry, peach and cherry yields are also high in Shaanxi Province. Liaoning Province in the PRC, the location of our Huludao Wonder and Yingkou factories, abounds with high acidity apples. Other raw materials used in our business include pectic enzyme, amylase, auxiliary power fuels and other power sources such as coal, electricity and water.

We purchase raw materials from local markets and fruit growers that deliver directly to our plants. We have implemented a fruit purchasing-program in areas surrounding our factories. In addition, we organize purchasing centers in rich fruit production areas, helping farmers deliver fruit to our purchasing agents easily and in a timely manner. We are then able to deliver the fruit directly to our factory for production. We have assisted local farmers in their development of kiwifruit fields to help ensure a high quality product throughout the production channel. Our raw material supply chain is highly fragmented and raw fruit prices are highly volatile.

Shaanxi Province is a large agricultural and fruit producing province with sufficient resources to satisfy our raw material needs. Shaanxi Province is also the main pear-producing province in the PRC and its pear supply can generally meet our production requirements. Liaoning Province, the PRC’s center for high acidity apples, can generally supply enough apples to meet our Liaoning Province factory’s production needs.

In addition to raw materials, we purchase various ingredients and packaging materials such as sweeteners, glass and plastic bottles, cans and packing barrels. We generally purchase our materials or supplies from multiple suppliers. We are not dependent on any one supplier or group of suppliers.

## Seasonality

We can only produce fruit juice concentrates during the squeezing season generally from July or August through April of the following year, while our fruit juice beverages can be produced year round. Annual capacity of our production lines varies based on the availability of the fresh fruit and is ultimately contingent on weather and other climatic conditions leading up to and through the harvest seasons. As a result, our business is highly seasonal as sales of our products are generally higher during the squeezing season. Sales of our products during the months from March through July, or the non-squeezing season, generally tend to be lower due to a shortage of fresh fruit and a lower level of production activity. As a result, our results of operations for the first and fourth quarters are generally stronger than those for our second and third quarters. We can produce fruit juice beverages year round.

We plan to broaden our fruit product offerings to expand into fruits with harvesting seasons complementary to our current fruits. This will enable us to lengthen our squeezing season, thus increasing our annual production of fruit concentrate and fruit juice beverages. In the first quarter of 2009, we introduced mulberry and kiwifruit cider beverages in the Chinese market. In addition, we intend to enhance our research and development activities in order to develop and produce innovative high margin products like polyphenol, an antioxidant compound with health benefits, from concentrated fruit juice to further diversify our product mix and increase our revenues.

## Government Regulation

Our products are subject to central government regulation as well as provincial government regulation in Shaanxi and Liaoning Provinces. Business and product licenses must be obtained through application to the central, provincial and local governments. We have obtained our business licenses to operate domestically and export products under the laws and regulations of the PRC. We obtained business licenses to conduct businesses, including an operating license to sell packaged foods such as concentrated fruit and vegetable juices, fruit sugar, fruit pectin, frozen and freeze dried fruits and vegetables, dehydrated fruits and vegetables, fruit and vegetable juice drinks, fruit cider and organic food. Business, company and product registrations are certified on a regular basis and we must comply with the laws and regulations of the PRC, provincial and local governments and industry agencies.

In accordance with PRC laws and regulations, we are required to comply with applicable hygiene and food safety standards in relation to our production processes. Failure to pass these inspections, or the loss of or failure to renew our licenses and permits, could require us to temporarily or permanently suspend some or all of our production activities, which could disrupt our operations and adversely affect our business.

## Intellectual Property

SkyPeople (China) currently possesses six proprietary technologies, including the technologies to:

- Produce concentrated clear kiwifruit juice;
- Produce a mulberry cider beverage;
- Produce apricot juice concentrates;
- Produce cherry tomato juice concentrates;
- Produce sea-buckthorn juice concentrates; and
- Produce wolfberry juice concentrates

We hold nine active patents granted by the State Intellectual Property Office of the PRC, (“SIPO”).

A crushing and peeling device (Patent No. ZL 2011204456246)

A peeling and dirt removal device (Patent No. ZL 2011204456212)

A kiwifruit cider beverage and its production method (Patent No. ZL 2009 1 0022739.1)

A production technology for strawberry juice concentrates (Patent No. ZL 2010 1 0209900.9)

A production technology for turnjube juice concentrates (Patent No. ZL 2010 1 0108318.3)

A production technology for cherry juice concentrates (Patent No. ZL 2010 1 0209899.X)

A production technology for persimmon juice concentrates (Patent No. ZL 2010 1 0013613.0) (granted to SkyPeople (China) on January 16, 2013)

500 ml Hedetang-branded fruit juice beverages in glass bottle label (Patent No. ZL 2012302099757) (granted to SkyPeople (China) on May 30, 2012)

418 ml Hedetang-branded fruit juice beverages in glass bottle label (Patent No. ZL 2012302099935) (granted to SkyPeople (China) on May 30, 2012)

We are in the process of applying for patents with SIPO for the six remaining technologies. We believe that these technologies are leading technologies in our industry.

In addition, using our proprietary technologies, we have developed flow-through capacitor membrane, reverse osmosis concentration and composite biological enzymolysis technology to clarify and remove murkiness from fruit juice. We believe that such are leading technologies in our industry.

We believe that our continued success and competitive status depend largely on our proprietary technology and ability to innovate. We have taken the required measures to protect the confidentiality of our proprietary technologies and processes. We rely on a combination of know-how, patent and trade secret laws, as well as confidentiality agreements to protect our proprietary rights. We will take the necessary action to seek remuneration if we believe our intellectual property rights have been infringed upon. As of December 31, 2013, we held nine active patents granted by SIPO related to breaking up and separating fruit peel; removing fruit peel and fruit hair; production of various concentrated fruit juice; and bottle tags, respectively. These patents have duration of 10 years, and will expire.

In addition to these nine active patents, we are applying for another six scientific patents. However, we do not have patents on certain other items of intellectual property that we possess.

We also registered trademarks for our “Hedetang” brand with the Trademark Bureau of the State Administration for Industry and Commerce (“SAIC”) on September 14, 2008 in Category 29, Category 30, Category 31 and Category 32, and on April 21, 2009 in Category 5. The trademarks expire on September 13, 2018 and April 20, 2019, respectively, and can be extended upon expiration.

We registered trademarks for our “SkyPeople” brand with the Trademark Bureau of the SAIC in Category 30 and Category 32 with period of validity from May 14, 2011 to May 13, 2021 and in Category 31 with period of validity from September 7, 2011 to September 6, 2021. The registration of such trademarks can be extended upon expiration.

## **Employees**

As of December 31, 2013, we had approximately 720 full-time employees and approximately 110 part-time employees, all of whom are located in the PRC. None of our employees are covered by a collective bargaining agreement. We believe that we have a good relationship with our employees.

## **ITEM 1A – RISK FACTORS**

An investment in the Company’s common stock involves a high degree of risk. In addition to the following risk factors, you should carefully consider the risks, uncertainties and assumptions discussed herein, and in other documents that the Company subsequently files with the Securities and Exchange Commission, (the “Commission” or the “SEC”), that update, supplement or supersede such information for which documents are incorporated by reference into this Report. Additional risks not presently known to the Company, or which the Company considers immaterial based on information currently available, may also materially adversely affect the Company’s business. If any of the events anticipated by the risks described herein occur, the Company’s business, cash flow, results of operations and financial condition could be adversely affected, which could result in a decline in the market price of the Company’s common stock, causing you to lose all or part of your investment.

### **Risks Related to Our Business**

We may not be able to effectively control and manage our growth, and a failure to do so could adversely affect our operations and financial condition.

Our revenue increased significantly from 2006 to 2010 with revenue of approximately \$17.4 million in 2006, approximately \$29.4 million in 2007, approximately \$41.7 million in 2008, approximately \$59.2 million in 2009, approximately \$93.2 million in 2010. In 2011, our revenue decreased by 9.9% to \$84.0 million as compared to the prior year. In 2012, our revenue increased by 22% to \$102 million. In 2013, our revenue decreased 23% to \$79.0 million. If our business and markets continue to experience significant growth, we will need to expand our business to maintain our competitive position. We may face challenges in managing and financing expansion of our business, facilities and product offerings, including challenges relating to integration of acquired businesses and increased demands on our management team, employees and facilities. Failure to effectively deal with increased demands on us could interrupt or adversely affect our operations and cause production backlogs, longer product development time frames and administrative inefficiencies. Other challenges involved with expansion, acquisitions and operation include:

- unanticipated costs;

- the diversion of management's attention from other business concerns;

- potential adverse effects on existing business relationships with suppliers and customers;
- obtaining sufficient working capital to support expansion;
- expanding our product offerings and maintaining the high quality of our products;
- continuing to fill customers' orders on time;
- maintaining adequate control of our expenses and accounting systems;
- successfully integrating any future acquisitions; and
- anticipating and adapting to changing conditions in the fruit juice and beverage industry, whether from changes in government regulations, mergers and acquisitions involving our competitors, technological developments or other economic, competitive or market dynamics.

Even if we obtain benefits of expansion in the form of increased sales, there may be delay between the time when the expenses associated with an expansion or acquisition are incurred and the time when we recognize such benefits, which could affect our earnings.

Our revenue and profitability are heavily dependent on prevailing prices for our products and raw materials, and if we are unable to effectively offset cost increases by adjusting the pricing of our products, our margins and operating income may decrease.

As a producer of commodities, our revenue, gross margins and cash flows from operations are substantially dependent on the prevailing prices we receive for our products and the cost of our raw materials, neither of which we control. The factors influencing the sales price of concentrated fruit juice include the supply price of fresh fruit, supply and demand of our products in international and domestic markets and competition in the fruit juice industry.

The price of our principal raw materials, fresh fruit, is subject to market volatility as a result of numerous factors including, but not limited to, general economic conditions, governmental regulations, weather, transportation delays and other uncertainties that are beyond our control. Due to such market volatility, we generally do not, nor do we expect to, have long-term contracts with our fresh fruit suppliers. Other significant raw materials used in our business include packing barrels, pectic enzyme, amylase and auxiliary materials such as coal, electricity and water. Prices for these items may be volatile as well and we may experience shortages in these items from time to time. As a result, we cannot guarantee that the necessary raw materials to produce our products will continue to be available to us at prices currently in effect or acceptable to us. In the event raw material prices increase materially, we may not be able to adjust our product prices, especially in the short term, to recover such cost increases. If we are not able to effectively offset these cost increases by adjusting the price of our products, our margins will decrease and earnings will suffer accordingly.

Weather and other environmental factors affect our raw material supply and a reduction in the quality or quantity of our fresh fruit supplies may have material adverse consequences on our financial results.

Our business may be adversely affected by weather and environmental factors beyond our control, such as adverse weather conditions during the growing or squeezing seasons. A significant reduction in the quantity or quality of fresh fruit harvested resulting from adverse weather conditions, disease or other factors could result in increased per unit processing costs and decreased production, with adverse financial consequences to us. During 2013, due to unexpected weather conditions, the amount of apple output in Northeast China was lower than usual, which in turn resulted in higher raw material costs for apple. As a consequence, our Yingkou factory did not produce concentrated apple juice during the year, which is one of the reasons for the decreased amount of revenue.

We sell our products primarily through distributors and delays in delivery or poor handling by distributors may affect our sales and damage our reputation.

We primarily sell our products through our distributors and rely on these distributors for the distribution of our products. These distributors are not obligated to continue to sell our products. Any disruptions in our relationships with our distributors could cause interruption to the supply of our products to retailers, which would harm our revenue and results of operations. In addition, delivery disruptions may occur for various reasons beyond our control, including poor handling by distributors or third party transport operators, transportation bottlenecks, natural disasters and labor strikes, and could lead to delayed or lost deliveries. Some of our products are perishable and poor handling by distributors and third party transport operators could also result in damage to our products that would make them unfit for sale. If our products are not delivered to retailers on time, or are delivered damaged, we may have to pay compensation, we could lose business and our reputation could be harmed.

Because we experience seasonal fluctuations in our sales, our quarterly results will fluctuate and our annual performance will depend largely on results from our first and fourth quarters.

Our business is highly seasonal, reflecting the harvest season of our primary source fruits from July or August of a year to April the following year. Typically, a substantial portion of our revenue is earned during our first and fourth quarters. We generally experience lower revenue during our second and third quarters. Generally, sales in the first and fourth quarters accounted for approximately 65% to 72% of our revenue of the whole year. If sales in our first and fourth quarters are lower than expected, our operating results would be adversely affected and it would have a disproportionately large impact on our annual operating results.

If we are unable to gain market acceptance or significant market share for the new products we introduce, our results of operations and profitability could be adversely impacted.

Our future business and financial performance depends, in part, on our ability to successfully respond to consumer preferences by introducing new products and improving existing products. For example, in the first quarter of 2009, we developed and introduced a fruit cider beverage that tested well in the Chinese market. We cannot guarantee that we will be able to gain market acceptance or significant market share for our new products. Consumer preferences change, and any new products that we introduce may fail to meet the particular tastes or requirements of consumers, or may be unable to replace their existing preferences. Our failure to anticipate, identify or react to these particular tastes or changes could result in reduced demand for our products, which could in turn cause us to be unable to recover our development, production and marketing costs, thereby leading to a decline in our profitability.

The development and introduction of new products is key to our expansion strategy. We incur significant development and marketing costs in connection with the introduction of new products. Successfully launching and selling new products puts pressure on our sales and marketing resources, and we may fail to invest sufficient funds in order to market and sell a new product effectively. If we are not successful in marketing and selling new products, our results of operations could be materially adversely affected.

Economic conditions have had and may continue to have an adverse effect on consumer spending on our products.

The worldwide economy has not yet fully recovered from a recession, which has reduced discretionary income of consumers. The adverse effect of a sustained international economic downturn, including sustained periods of decreased consumer spending, high unemployment levels, declining consumer or business confidence and continued volatility and disruption in the credit and capital markets, will likely result in reduced demand for our products as consumers turn to less expensive substitute goods or forego certain purchases altogether. To the extent the international economic downturn continues or worsens, we could experience a reduction in sales volume. If we are unable to reduce our operating costs and expenses proportionately, many of which are fixed, our results of operations would be adversely affected.

Concerns over food safety and public health may affect our operations by increasing our costs and negatively impacting demand for our products.

We could be adversely affected by diminishing confidence in the safety and quality of certain food products or ingredients. As a result, we may elect or be required to incur additional costs aimed at increasing consumer confidence in the safety of our products. For example, a crisis in the PRC over melamine contaminated milk in 2008 has adversely impacted Chinese food exports since October 2008, as reported by the Chinese General Administration of Customs, although most foods exported from the PRC were not significantly affected by the melamine contamination. In addition, our concentrated fruit juices exported to foreign countries must comply with quality standards in those countries. Our success depends on our ability to maintain the quality of our existing and new products. Product quality issues, real or imagined, or allegations of product contamination, even if false or unfounded, could tarnish the image of our brands and may cause consumers to choose other products.

We face increasing competition from both domestic and foreign companies, and any failure by us to compete effectively could adversely affect our results of operations.

The juice beverage industry is highly competitive, and we expect it to continue to become even more competitive. Our ability to compete in the industry depends, to a significant extent, on our ability to distinguish our products from those of our competitors by providing high quality products at reasonable prices that appeal to consumers' tastes and preferences. There are currently a number of well-established companies producing products that compete directly with ours. Some of our competitors may have been in business longer than we have, may have substantially greater financial and other resources than we have and may be better established in their markets. We anticipate that our competitors will continue to improve their products and introduce new products with competitive price and performance characteristics.

We cannot guarantee that our current or potential competitors will not provide products comparable or superior to those we provide or adapt more quickly than we do to evolving industry trends or changing market requirements. It is also possible that there will be significant consolidation in the juice beverage industry among our competitors, and alliances may develop among competitors. These alliances may rapidly acquire significant market share, and some of our distributors may commence production of products similar to those we sell to them. Increased competition may result in price reductions, reduced margins and loss of market share, any of which could materially adversely affect our profit margins. We cannot guarantee that we will be able to compete effectively against current and future competitors. Aggressive marketing or pricing by our competitors or the entrance of new competitors into our markets could have a material adverse effect on our business, results of operations and financial condition.

We may engage in future acquisitions involving significant expenditures of cash, the incurrence of debt or the issuance of stock, all of which could have a materially adverse effect on our operating results.

As part of our business strategy, we review acquisition and strategic investment prospects that we believe would complement our current product offerings, augment our market coverage, enhance our technological capabilities or otherwise offer growth opportunities. From time to time, we review investments in new businesses and we expect to make investments in, and to acquire, businesses, products or technologies in the future. In the event of any future acquisitions, we may expend significant cash, incur substantial debt and/or issue equity securities and dilute the percentage ownership of current shareholders, all of which could have a material adverse effect on our operating results and the price of our Common Stock. We cannot guarantee that we will be able to successfully integrate any businesses, products, technologies or personnel that we may acquire in the future, and our failure to do so could have a material adverse effect on our business, operating results and financial condition.

We require various licenses and permits to operate our business, and the loss of or failure to renew any or all of these licenses and permits could materially adversely affect our business.

In accordance with PRC laws and regulations, we have been required to maintain various licenses and permits in order to operate our business at the relevant manufacturing facilities including, without limitation, industrial product production permits. We are required to comply with applicable hygiene and food safety standards in relation to our production processes. Our premises and transportation vehicles are subject to regular inspections by the regulatory authorities for compliance with the Detailed Rules for Administration and Supervision of Quality and Safety in Food Producing and Processing Enterprises. Failure to pass these inspections, or the loss of or failure to renew our licenses and permits, could require us to temporarily or permanently suspend some or all of our production activities, which could disrupt our operations and adversely affect our business.

Governmental regulations affecting the import or export of products could negatively affect our revenue.

The United States and various other governments have imposed controls, export license requirements and restrictions on the export of some of our products. Governmental regulation of exports, or our failure to obtain required export approval for our products, could harm our international sales and adversely affect our revenue and profits. In addition, failure to comply with such regulations could result in penalties, costs and restrictions on export privileges.

We do not presently maintain product liability insurance, and our property and equipment insurance does not cover the full value of our property and equipment, which leaves us with exposure in the event of loss or damage to our properties or claims filed against us.

We currently do not carry any product liability or other similar insurance. Product liability claims and lawsuits in the PRC generally are still rare, unlike in some other countries. Product liability exposures and litigation, however, could become more commonplace in the PRC. Moreover, we have product liability exposure in countries in which we sell our products, such as the United States, where product liability claims are more prevalent. As we expand our international sales, our liability exposure will increase.

We may be required from time to time to recall products entirely or from specific copackers, markets or batches. Although historically we have not had any recall of our products, we cannot guarantee that circumstances or incidents will not occur that will require us to recall our products. We do not maintain recall insurance. In the event we experience product liability claims or a product recall, our business operations and financial condition could be materially adversely affected.

Our business and operations may be subject to disruption from work stoppages, terrorism or natural disasters.

Our operations may be subject to disruption for a variety of reasons, including work stoppages, acts of war, terrorism, pandemics, fire, earthquake, flooding or other natural disasters. If a major incident were to occur in either of the regions where our facilities or main offices are located, our facilities or offices or those of critical suppliers could be damaged or destroyed. Such a disruption could result in a reduction in available raw materials, the temporary or permanent loss of critical data, suspension of operations, delays in shipment of products and disruption of business generally, which would adversely affect our revenue and results of operations.

Our success depends substantially on the continued retention of certain key personnel and our ability to hire and retain qualified personnel in the future to support our growth.

If one or more of our senior executives or other key personnel are unable or unwilling to continue in their present positions, our business may be disrupted and our financial condition and results of operations may be materially and adversely affected. While we depend on the abilities and participation of our current management team generally, we rely particularly upon Mr. Yongke Xue, Chairman of the Company's Board of Directors (the "Board"), Mr. Hongke Xue, our chief executive officer ("CEO"); and Mr. Xin Ma, our chief financial officer ("CFO"). The loss of the services of Mr. Yongke Xue, Mr. Hongke Xue or Mr. Xin Ma for any reason could significantly adversely impact our business and results of operations. Competition for senior management and senior technology personnel in the PRC is intense and the pool of qualified candidates is very limited. Accordingly, we cannot guarantee that the services of our senior executives and other key personnel will continue to be available to us, or that we will be able to find a suitable replacement for them if they were to leave.

The relative lack of public company experience of our management team may put us at a competitive disadvantage.

Our management team lacks public company experience, which could impair our ability to comply with legal and regulatory requirements such as those imposed by the Sarbanes-Oxley Act of 2002, ("Sarbanes-Oxley"). Our senior management does not have experience managing a publicly traded company. Such responsibilities include complying with federal securities laws and making required disclosures on a timely basis. Our senior management may be unable to implement programs and policies in an effective and timely manner or that adequately respond to the increased legal, regulatory and reporting requirements associated with being a publicly traded company. Our failure to comply with all applicable requirements could lead to the imposition of fines and penalties, distract our management from attending to the management and growth of our business, result in a loss of investor confidence in our financial reports and have an adverse effect on our business and stock price.

As a public company, we are obligated to maintain effective internal controls over financial reporting. Our internal controls may be determined not to be effective, which may adversely affect investor confidence in us and, as a result, decrease the value of our Common Stock.

The PRC has not adopted management and financial reporting concepts and practices similar to those in the United States. We may have difficulty in hiring and retaining a sufficient number of qualified finance and management employees to work in the PRC. As a result of these factors, we may experience difficulty in establishing and maintaining accounting and financial controls, collecting financial data, budgeting, managing our funds and preparing financial statements, books of account and corporate records and instituting business practices that meet investors' expectations in the United States.

Rules adopted by the SEC, or the Commission, pursuant to Sarbanes-Oxley Section 404 require annual assessment of our internal controls over financial reporting. This requirement first applied to our annual report on Form 10-K for the fiscal year ended December 31, 2008. The standards that must be met for management to assess the internal controls over financial reporting as effective are relatively new and complex, and they require significant documentation, testing and possible remediation to meet the detailed standards. This assessment will need to include disclosure of any material weaknesses identified by our management in our internal control over financial reporting.

During the evaluation and testing process, if we identify one or more material weaknesses in our internal control over financial reporting, we will be unable to assert that our internal controls are effective. If we are unable to conclude that our internal control over financial reporting is effective, we could lose investor confidence in the accuracy and completeness of our financial reports, which could harm our business and cause the price of our Common Stock to decline.

We may have inadvertently violated Sarbanes-Oxley Section 402 and Section 13(k) of the Securities Exchange Act and may be subject to sanctions for such violations.

Section 13(k) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”) provides that it is unlawful for a company such as ours, which has a class of securities registered under Section 12(b) of the Exchange Act to, directly or indirectly, including through any subsidiary, extend or maintain credit in the form of a personal loan to or for any director or executive officer of the company. Issuers violating Section 13(k) of the Exchange Act may be subject to civil sanctions, including injunctive remedies and monetary penalties, as well as criminal sanctions. The imposition of any of such sanctions on the Company may have a material adverse effect on our business, financial position, results of operations or cash flows.

In February 2008, we purchased Pacific, which is the holding company for our operating subsidiary, SkyPeople (China). At the time, Hede, a PRC company owned by Yongke Xue, our chairman of the Board and our former chief executive officer, and Xiaoqin Yan, a former director on the Board, was indebted to SkyPeople (China) on account of previous loans and advances made by SkyPeople (China) to Hede. Such loans and advances totaled RMB 31,544,043 in the aggregate (or \$4,318,281 based on the exchange rate as of December 31, 2007) and were made during the period from June 6, 2007 to December 29, 2007 that were used by Hede to pay a portion of the purchase price for Hede’s acquisition of Huludao Wonder Fruit Co., Ltd., or Huludao Wonder. In May 2008, SkyPeople (China) also assumed Hede’s obligation of RMB 18,000,000 (or \$2,638,329 based on the exchange rate December 31, 2008) for the balance of the purchase price for Huludao Wonder.

On June 10, 2008, Hede sold Huludao Wonder to SkyPeople (China) for a total price of RMB 48,250,000 (or \$6,308,591 based on the exchange rate on June 1, 2007) the same price that Hede paid for Huludao Wonder. As of May 31, 2008, SkyPeople (China) had a related party receivable of RMB 48,929,272 (or \$7,171,751 based on the exchange rate December 31, 2008) from Hede, which was credited against the purchase price, so that SkyPeople (China) did not pay any cash to Hede for the purchase, and the remaining balance of the loans and advances of RMB 679,272 (or \$99,564 based on the exchange rate as of December 31, 2008) to Hede was repaid to us on June 11, 2008. Hede paid no interest or other consideration to us on account of the time value of money with respect to the loans and advances made by SkyPeople (China) to Hede.

Notwithstanding Hede’s repayment in full of loans made by SkyPeople (China) to Hede, the existence of indebtedness of Hede to SkyPeople (China) at the time we acquired Pacific and the continuation of such indebtedness thereafter until it was fully repaid in June 2008 may constitute a violation of Section 13(k) of the Exchange Act and Section 402(a) of Sarbanes-Oxley.

In addition, in May 2008, Pacific erroneously paid \$4,916,617 to its former shareholders, including Xiaoqing Yan and Yongke Xue, as the result of a dividend declared by Pacific in February 2008 prior to our acquisition of Pacific. Because the recipients of these funds were no longer shareholders of Pacific, the transaction was treated for accounting purposes as an interest free loan. In June 2008, the directors and other related parties returned the funds they received, without interest. Although the erroneously paid funds associated with Pacific’s dividend declaration have been repaid to us in full, Xiaoqing Yan and Yongke Xue’s receipt of the erroneous dividend may also be deemed to be a violation of the Exchange Act and Section 13(k) and Section 402(a) of Sarbanes-Oxley. See the section entitled “Certain Relationships and Related Transactions—Transactions with Related Persons, Promoters and Certain Control Persons.”

Partially in response to the matters set forth above, in September 2008, the Board adopted a policy regarding approval of related party transactions. Under the policy, the Board’s audit committee must approve any related party transaction involving an aggregate amount that is expected to exceed \$50,000, and no director may participate in any discussion or approval of a transaction that would be considered to be a related party transaction in which such person is interested. See the section entitled “Certain Relationships and Related Transactions—Review, Approval or Ratification of Transactions with Related Persons.”

We may need additional capital to fund our future operations and, if it is not available when needed, we may need to reduce our planned development and marketing efforts, which may reduce our sales revenue.

We believe that our existing working capital and cash available from operations will enable us to meet our working capital requirements for at least the next 12 months. However, if cash from future operations is insufficient, or if cash is used for acquisitions or other currently unanticipated uses, we may need additional capital. The development and marketing of new products and the expansion of distribution channels and associated support personnel require a significant commitment of resources. In addition, if the markets for our products develop more slowly than anticipated, or if we fail to establish significant market share and achieve sufficient net revenues, we may continue to consume significant amounts of capital. As a result, we could be required to raise additional capital. To the extent that we raise additional capital through the sale of equity or convertible debt securities, the issuance of such securities could result in dilution of the shares held by existing stockholders. If additional funds are raised through the issuance of debt securities, such securities may provide the holders certain rights, preferences, and privileges senior to those of common stockholders, and the terms of such debt could impose restrictions on our operations. We cannot guarantee that additional capital, if required, will be available on acceptable terms, or at all. If we are unable to obtain sufficient amounts of additional capital, we may be required to reduce the scope of our planned product development and marketing efforts, which could harm our business, financial condition and operating results.

We may not be able to prevent others from unauthorized use of our patents, which could harm our business and competitive position.

Our success depends, in part, on our ability to protect our proprietary technologies. We hold two patents in the PRC covering our fruit processing technology. The process of seeking patent protection can be lengthy and expensive and we cannot guarantee that our existing or future issued patents will be sufficient to provide us with meaningful protection or commercial advantages. We also cannot guarantee that our current or potential competitors do not have, and will not obtain, patents that will prevent, limit or interfere with our ability to make or sell our products in the PRC or other countries.

The implementation and enforcement of PRC intellectual property laws historically have not been vigorous or consistent. Accordingly, intellectual property rights and confidentiality protections in the PRC are not as effective as those in the United States and other countries. We may need to resort to litigation to enforce or defend patents issued to us or to determine the enforceability, scope and validity of our proprietary rights or those of others. Such litigation will require significant expenditures of cash and management efforts and could harm our business, financial condition and results of operations. An adverse determination in any such litigation will impair our intellectual property rights and may harm our business, competitive position, business prospects and reputation.

Intellectual property infringement claims may adversely impact our results of operations.

As we develop and introduce new products, we may be increasingly subject to claims of infringement of another party's intellectual property. If a claim for infringement is brought against us, such claim may require us to modify our products, cease selling certain products or engage in litigation to determine the validity and scope of such claims. Any of these events may harm our business and results of operations.

If our costs and demands upon management increase disproportionately to the growth of our business and revenue as a result of complying with the laws and regulations affecting public companies, our operating results could be harmed.

As a public company, we do and will continue to incur significant legal, accounting, investor relations and other expenses, including costs associated with public company reporting requirements. We also have incurred and will incur costs associated with current corporate governance requirements, including requirements under Section 404 and other provisions of Sarbanes-Oxley, as well as rules implemented by the SEC and the stock exchange on which our Common Stock is traded. The expenses incurred by public companies for reporting and corporate governance purposes have increased dramatically over the past several years. These rules and regulations have increased our legal and financial compliance costs substantially and make some activities more time consuming and costly. If our costs and demands upon management increase disproportionately to the growth of our business and revenue, our operating results could be harmed.

There are inherent uncertainties involved in estimates, judgments and assumptions used in the preparation of financial statements in accordance with generally accepted accounting principles in the United States, or U.S. GAAP. Any changes in estimates, judgments and assumptions could have a material adverse effect on our business, financial condition and operating results.

The preparation of financial statements in accordance with U.S. Generally Accepted Accounting Principles (“U.S. GAAP”) involves making estimates, judgments and assumptions that affect reported amounts of assets (including intangible assets), liabilities and related reserves, revenue, expenses and income. Estimates, judgments and assumptions are inherently subject to change in the future, and any such changes could result in corresponding changes to the amounts of assets, liabilities, revenue, expenses and income. Any such changes could have a material adverse effect on our business, financial condition and operating results.

We are subject to the risk of increased income taxes, which could harm our business, financial condition and operating results.

We base our tax position upon the anticipated nature and conduct of our business and upon our understanding of the tax laws of the various countries in which we have assets or conduct activities. However, our tax position is subject to review and possible challenge by tax authorities and to possible changes in law, which may have retroactive effect. We currently operate through Pacific, a wholly-owned subsidiary organized under the laws of Vanuatu and SkyPeople (China), a 99.78% owned subsidiary of Pacific organized under the laws of the PRC, and we maintain manufacturing operations in the PRC. Any of these jurisdictions could assert tax claims against us. We cannot determine in advance the extent to which some jurisdictions may require us to pay taxes or make payments in lieu of taxes. If we become subject to additional taxes in any jurisdiction, such tax treatment could materially and adversely affect our business, financial condition and operating results.

### **Risks Related to Doing Business in the PRC**

Inflation in the PRC could negatively affect our profitability and growth.

The rapid growth of China’s economy has been uneven among economic sectors and geographic regions of the country. China’s economy grew at an annual rate of 7.65% in 2012, as measured by the year-over-year change in gross domestic product, or GDP, according to the National Bureau of Statistics of China. Rapid economic growth can lead to growth in the money supply and rising inflation. The inflation rate in China was approximately 3.25% in 2012, as reported by National Bureau of Statistics, and is expected to increase. If prices for our products and services fail to rise at a rate sufficient to compensate for the increased costs of supplies, such as raw materials, due to inflation, it may have an adverse effect on our profitability.

Furthermore, in order to control inflation in the past, the PRC government has imposed controls on bank credits, limits on loans for property, plant and equipment and restrictions on state bank lending. The implementation of such policies may impede future economic growth. The People’s Bank of China has effected increases in interest rates in response to inflationary concerns in the China’s economy. If the central bank again raises interest rates from current levels, economic activity in China could further slow and, in turn, materially increase our costs and reduce demand for our products and services.

We face the risk that changes in the policies of the PRC government could have a significant impact upon the business we may be able to conduct in the PRC and the profitability of such business.

We conduct substantially all of our operations and generate most of our revenue in the PRC. Accordingly, economic, political and legal developments in the PRC will significantly affect our business, financial condition, results of operations and prospects. The PRC economy is in transition from a planned economy to a market oriented economy subject to plans adopted by the government that set national economic development goals. Policies of the PRC government can have significant effects on economic conditions in the PRC. While we believe that the PRC will continue to strengthen its economic and trading relationships with foreign countries and that business development in the PRC will continue to follow market forces, we cannot guarantee that this will be the case. Our interests may be adversely affected by changes in policies by the PRC government, including:

- changes in laws, regulations or their interpretation;
- confiscatory taxation;

- restrictions on currency conversion, imports or sources of supplies;
- expropriation or nationalization of private enterprises; and
- the allocation of resources.

Although the PRC government has been pursuing economic reform policies for more than two decades, the PRC government continues to exercise significant control over economic growth in the PRC through the allocation of resources, controlling payments of foreign currency, setting monetary policy and imposing policies that impact particular industries in different ways. We cannot guarantee that the PRC government will continue to pursue policies favoring a market oriented economy or that existing policies will not be significantly altered, especially in the event of a change in leadership, social or political disruption, or other circumstances affecting political, economic and social life in the PRC.

The original incorporation of SkyPeople (China) as a joint stock company in 2001 did not obtain all required approvals from the PRC government authorities pursuant to the relevant PRC law effective at the time, and we may be subject to various penalties under the law retroactively.

The original incorporation of SkyPeople (China) (under the original name of Xi'an Zhonglv Ecology Science and Technology Industry Co., Ltd.) as a joint stock company in 2001 was approved by the Xi'an Municipal People's Government. However, according to the applicable PRC Company Law that was in force in 2001, the incorporation of SkyPeople (China) as a joint stock company shall be subject to the approval by the government authority of Shaanxi Province. Pursuant to the PRC Company Law which was in force in 2001, if company stocks is arbitrarily issued without obtaining the approval of the relevant competent authorities stipulated under the law, the parties concerned may be ordered to cease the issuance of the stock, refund the raised capital and the interests accrued therefrom, and may be subject to a fine of no less than one percent but no more than five percent of the amount of the raised capital. As such, SkyPeople (China) may be subject to any or all of the foregoing penalties as provided under the PRC Company Law effective in 2001 should the relevant government authorities choose to enforce the law retroactively.

However, we believe that the regulatory authorities may consider the following factors as mitigating factors if such authorities choose to enforce the applicable laws:

(i) the incorporation of SkyPeople (China) obtained the approval by the Xi'an local government. As general practice in approval procedures, the applicants may only be able to first approach the Xi'an local government authority in order to acquire the approval by a higher level government authority, and would generally rely on the Xi'an local government to then submit the application to a higher level authority for its final approval; and

(ii) the trend of the PRC Company Law is to deregulate the approvals on the incorporation of joint stock companies in China. In particular, the current PRC Company Law, effective since January 1, 2006, has eliminated the relevant approval requirement relating to the incorporation of joint stock companies. Instead, the current PRC Company Law merely requires a registration with the competent Administration for Industry and Commerce in connection with the incorporation of joint stock companies in the PRC as long as the stock is not issued to the public.

In addition, if needed in the future, we may make efforts to seek a written confirmation from the Shaanxi Provincial People's Government regarding its ratification of the original incorporation of SkyPeople (China) as a joint stock company.

Our current manufacturing operations are subject to various environmental protection laws and regulations issued by the central and local governmental authorities, and we cannot guarantee that we have fully complied with all such laws and regulations. In addition, changes in the existing laws and regulations or additional or stricter laws and regulations on environmental protection in the PRC may cause us to incur significant capital expenditures, and we cannot guarantee that we will be able to comply with any such laws and regulations.

We carry out our business in an industry that is subject to PRC environmental protection laws and regulations. These laws and regulations require enterprises engaged in manufacturing and construction that may cause environmental waste to adopt effective measures to control and properly dispose of waste gases, waste water, industrial waste, dust and other environmental waste materials, as well as fee payments from producers discharging waste substances. Fines may be levied against producers causing pollution. Although we have made efforts to comply with such laws and regulations, we cannot guarantee that we have fully complied with all such laws and regulations. Currently the Pollution Emission Permit of SkyPeople (China) has expired and we are still in the process of applying for a new permit. Shaanxi Qiyiwanguo and Yingkou are undergoing similar processes to obtain their respective Pollution Emission Permit. The failure of complying with such laws or regulations may subject us to various administrative penalties such as fines. If the circumstances of the breach are serious, the central government of the PRC, including all governmental subdivisions, has the discretion to cease or close any operations

failing to comply with such laws or regulations. There can also be no assurance that the PRC government will not change the existing laws or regulations or impose additional or stricter laws or regulations, compliance with which may cause us to incur significant capital expenditure, which we may be unable to pass on to our customers through higher prices for our products. In addition, we cannot guarantee that we will be able to comply with any such laws and regulations.

Changes in existing PRC food hygiene and safety laws may cause us to incur additional costs to comply with the more stringent laws and regulations, which could have an adverse impact on our financial position.

Manufacturers within the PRC beverage industry are subject to compliance with PRC food hygiene laws and regulations. These food hygiene and safety laws require all enterprises engaged in the production of juice and other beverages to obtain a food production license for each of their production facilities. They also set out hygiene and safety standards with respect to food and food additives, packaging and containers, information to be disclosed on packaging as well as hygiene requirements for food production and sites, facilities and equipment used for the transportation and sale of food. Failure to comply with PRC food hygiene and safety laws may result in fines, suspension of operations, loss of business licenses and, in more extreme cases, criminal proceedings against an enterprise and its management. Although we comply with current food hygiene laws, in the event that the PRC government increases the stringency of such laws, our production and distribution costs may increase, which could adversely impact our financial position.

We benefit from various forms of government subsidies and grants, the withdrawal of which could affect our operations.

Certain of our subsidiaries have received government subsidies from local governments. We recognized \$1.9 million and \$0.9 million in government subsidies for fiscal years 2021 and 2011, respectively. Past government grants or subsidies are not indicative of what we will obtain in the future. We cannot guarantee that we will continue to be eligible for government grants or other forms of government support. In the event that we are no longer eligible for grants, subsidies or other government support, our business and financial condition could be adversely affected.

PRC laws and regulations governing our current business operations are sometimes vague and uncertain and any changes in such laws and regulations may harm our business.

There are substantial uncertainties regarding the interpretation and application of PRC laws and regulations including, but not limited to, the laws and regulations governing our business and the enforcement and performance of our arrangements with customers in certain circumstances. We are considered foreign persons or foreign funded enterprises under PRC laws and, as a result, we are required to comply with PRC laws and regulations related to foreign persons and foreign funded enterprises. These laws and regulations are sometimes vague and may be subject to future changes, and their official interpretation and enforcement may involve substantial uncertainty. The effectiveness of newly enacted laws, regulations or amendments may be delayed, resulting in detrimental reliance. New laws and regulations that affect existing and proposed future businesses may also be applied retroactively. We cannot predict what effect the interpretation of existing or new PRC laws or regulations may have on our business.

We could be restricted from paying dividends to shareholders due to PRC laws and other contractual requirements.

We are a holding company incorporated in the State of Florida and do not have any assets or conduct any business operations other than our investments in our subsidiaries and affiliates. As a result of our holding company structure, we rely entirely on dividend payments from SkyPeople (China). PRC accounting standards and regulations currently permit payment of dividends only out of accumulated profits, a portion of which is required to be set aside for certain reserve funds. Furthermore, if SkyPeople (China) incurs debt on its own in the future, the instruments governing the debt may restrict its ability to pay dividends or make other payments. Although we do not intend to pay dividends in the future, our inability to receive all of the revenue from SkyPeople (China)'s operations may provide an additional obstacle to our ability to pay dividends if we so decide in the future.

Governmental control of currency conversion may affect the value of shareholder investments.

The PRC government imposes controls on the convertibility of RMB into foreign currencies and, in certain cases, the remittance of currency out of the PRC. RMB is currently not a freely convertible currency. Shortages in the availability of foreign currency may restrict our ability to remit sufficient foreign currency to satisfy foreign currency obligations. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and expenditures from the transaction, can be made in foreign currencies without prior approval by complying with certain procedural requirements. Approval from appropriate governmental authorities, however, is required where RMB is to be converted into foreign currency and remitted out of the PRC to pay capital expenses such as the repayment of bank loans denominated in foreign currencies. In addition, the PRC government could restrict access to foreign currencies for current account transactions in the future. If the foreign exchange control system prevents us from obtaining sufficient foreign currency to satisfy our currency demands, we may not be able to pay certain of our expenses as they come due.

The fluctuation of the RMB may harm shareholder investments.

The value of the RMB against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in the PRC's political and economic conditions. Any significant revaluation of the RMB may materially and adversely affect our cash flows, revenue and financial condition. For example, to the extent that we need to convert U.S. dollars we receive from an offering of our securities into RMB for our operations, appreciation of the RMB against the U.S. dollar would diminish the value of the proceeds of the offering and could harm our business, financial condition and results of operations. Conversely, if we decide to convert our RMB into U.S. dollars for business purposes and the U.S. dollar appreciates against the RMB, the U.S. dollar equivalent of the RMB we convert would be reduced. In addition, the depreciation of significant U.S. dollar denominated assets could result in a charge to our income statement and a reduction in the value of these assets.

PRC regulations relating to mergers and the establishment of offshore special purpose companies by PRC residents, if applied to us, may limit our ability to operate our business as we see fit.

On August 8, 2006, six Chinese regulatory agencies, namely, MOFCOM, the State Assets Supervision and Administration Commission, the State Administration for Taxation ("SAT"), SAIC, the Securities Regulatory Commission ("CSRC") and the State Administration of Foreign Exchange ("SAFE"), jointly promulgated the Regulation on Mergers and Acquisitions of Domestic Companies by Foreign Investors, generally referred to as the 2006 M&A Rules, which became effective on September 8, 2006. The 2006 M&A Rules, among other things, govern the approval process by which an offshore investor may participate in an acquisition of assets or equity interests of a Chinese domestic company. Depending on the structure of the transaction, the 2006 M&A Rules require the transaction parties to make a series of applications to the government agencies. In some instances, the application process may require the presentation of economic data concerning a transaction, including appraisals of the target business and evaluations of the acquirer, which are designed to allow the government to assess the transaction. Under certain circumstances, government approvals will have expiration dates by which a transaction must be completed and reported to the government agencies. Compliance with the 2006 M&A Rules will be more time consuming and expensive than in the past, and the government can exert more control over the combination of two businesses under the 2006 M&A Rules. As a result of any potential application of the 2006 M&A Rules, our ability to engage in business combination transactions in the PRC has become significantly more complicated, time consuming and expensive, and we may not be able to negotiate a transaction that is acceptable to us or sufficiently protective of our interests in a transaction.

In October 2005, SAFE issued the Notice on Relevant Issues in the Foreign Exchange Control over Financing and Return Investment Through Special Purpose Companies by Residents Inside the PRC, generally referred to as Circular 75. Circular 75 requires Chinese residents to register with an applicable branch of SAFE before establishing or acquiring control over an offshore special purpose company for the purpose of engaging in an equity financing outside of the PRC that is supported by domestic Chinese assets originally held by those residents. Following the issuance of Circular 75, SAFE issued internal implementing guidelines for Circular 75 in June 2007. These implementing guidelines, known as Notice 106, effectively expanded the reach of Circular 75 by:

- purporting to regulate the establishment or acquisition of control by Chinese residents of offshore entities which merely acquire "control" over domestic companies or assets, even in the absence of legal ownership;
- adding requirements relating to the source of the Chinese resident's funds used to establish or acquire the offshore entity;
- regulating the use of existing offshore entities for offshore financings;
- purporting to regulate situations in which an offshore entity establishes a new subsidiary in the PRC or acquires an unrelated company or unrelated assets in the PRC;
- making the domestic affiliate of the offshore entity responsible for the accuracy of certain documents which must be filed in connection with any such registration, notably, the business plan which describes the overseas financing and the use of proceeds; and
- requiring that the registrant establish that all foreign exchange transactions undertaken by the offshore entity and its affiliates were in compliance with applicable laws and regulations.

No assurance can be given that our shareholders who are the residents as defined in Circular 75 and who own or owned our shares have fully complied with, and will continue to comply with, all applicable registration and approval requirements of Circular 75 in connection with their equity interests in us and our acquisition of equity interests in our PRC based subsidiaries by virtue of our acquisition of Pacific. Moreover, because of uncertainty over how Circular 75 will be interpreted and implemented, and how or whether SAFE will apply it to us following the Pacific acquisition, we cannot predict how it will affect our business operations or future strategies. For example, the ability of our present and prospective PRC subsidiaries to conduct foreign exchange activities, such as the remittance of dividends and foreign currency denominated borrowings, may be subject to compliance with Circular 75 by our Chinese resident beneficial holders. In addition, such Chinese residents may not always be able to complete the necessary registration procedures required by Circular 75. We have little control over our present or prospective direct or indirect shareholders /beneficial owners or the outcome of such registration procedures. If our Chinese shareholders/beneficial owners or the Chinese shareholders/beneficial owners of the target companies we acquired in the past or will acquire in the future fail to comply with Circular 75 and related regulations, and if SAFE requires it, they may be subject to fines or legal sanctions, and Chinese authorities could restrict our investment activities in the PRC, limit our subsidiaries' ability to make distributions or pay dividends, or affect the ownership structure, which could adversely affect business and prospects.

Our acquisition of SkyPeople (China) could constitute a Round-trip Investment under the 2006 M&A Rules.

Prior to obtaining the MofCom approval on September 3, 2007 and Xi'an AIC approval on October 18, 2007, and prior to the full payment of the purchase price by Pacific for 99% of SkyPeople (China)'s capital stock, SkyPeople (China) was a PRC business some of whose shareholders were PRC individuals including Hongke Xue, chairman of SkyPeople (China). When Pacific was incorporated on November 30, 2006 and when the SkyPeople (China) acquisition was approved, none of the shareholders of Pacific were PRC citizens. Immediately after the consummation of the share exchange, shareholders of Pacific became our shareholders, including Fancylight, our controlling shareholder. To incentivize Mr. Hongke Xue in connection with the continuous development of SkyPeople (China)'s business, a call option agreement was entered into between Fancylight and Mr. Hongke Xue on February 25, 2008 pursuant to which Mr. Xue had the opportunity to acquire a majority of our Common Stock held by Fancylight. Mr. Xue and Fancylight also entered into a voting trust agreement pursuant to which Mr. Xue has the right to vote such shares on Fancylight's behalf.

The PRC regulatory authorities may take the view that the SkyPeople (China) acquisition, the share exchange transaction and the call option and voting trust arrangements are part of an overall series of arrangements which constitute a round-trip investment regulated by the 2006 M&A Rules, because at the end of these transactions the same PRC individual who controlled SkyPeople (China) became the effective controlling party of a foreign entity that acquired ownership of SkyPeople (China). The PRC regulatory authorities may also take the view that the approval of the SkyPeople (China) acquisition by the MofCom and the registration of such acquisition with the AIC in Xi'an AIC may not be evidence that the SkyPeople (China) acquisition has been properly approved because the relevant parties did not fully disclose to the MofCom or AIC the overall restructuring arrangements. If the PRC regulatory authorities take the view that the SkyPeople (China) acquisition constitutes a round-trip investment under the 2006 M&A Rules, we cannot guarantee that we will be able to obtain the required MofCom approval.

If the PRC regulatory authorities take the view that the SkyPeople (China) acquisition constitutes a round-trip investment without MofCom approval on such round-trip investment, they could invalidate our acquisition and ownership of SkyPeople (China).

Additionally, the 2006 M&A Rules also purport to require that an offshore special purpose vehicle ("SPV") formed for listing purposes and controlled directly or indirectly by PRC companies or individuals shall obtain the approval of the CSRC prior to the listing and trading of such SPV's securities on an overseas stock exchange. On September 21, 2006, the CSRC published on its official website procedures specifying documents and materials required to be submitted to it by SPVs seeking CSRC approval of their overseas listings. However, the application of this PRC regulation remains unclear, with no consensus currently existing regarding the scope and applicability of the CSRC approval requirement. Given that we established our PRC subsidiaries by means of direct investments, we believe that these regulations do not require an application to be submitted to the CSRC for the approval of the listing and trading of our stock on the NASDAQ Global Equities, unless we are clearly required to do so by subsequently promulgated rules of the CSRC. If the CSRC or another PRC regulatory agency subsequently determines that CSRC approval was required for the offerings, we may need to apply for a remedial approval from the CSRC and may be subject to certain administrative punishments or other sanctions from these regulatory agencies. The regulatory agencies may take actions that could have a material adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as the trading price of our stock.

We believe that if this takes place, we may be able to find a way to reestablish control of SkyPeople (China)'s business operations through a series of contractual arrangements rather than an outright purchase of SkyPeople (China). But we cannot guarantee that such contractual arrangements will be protected by PRC law or that we can receive as complete or effective economic benefit and overall control of SkyPeople (China)'s business than if we had direct ownership of SkyPeople (China). In addition, we cannot guarantee that such contractual arrangements can be successfully implemented under PRC law. If we cannot obtain approval from MofCom and/or CSRC if required by the PRC regulatory authorities to do so, and if we cannot put in place or enforce relevant contractual arrangements as an alternative and equivalent means of control of SkyPeople (China), our business and financial performance will be materially adversely affected.

Because our principal assets are located outside of the United States, it may be difficult for investors to use U.S. securities laws to enforce their rights against us, our officers and some of our directors in the United States or to enforce judgments of United States courts against us or them in the PRC.

All of our present officers and directors except directors Norman Ko and John W. Smagula reside outside of the United States. In addition, SkyPeople (China) is located in the PRC and substantially all of its assets are located outside of the United States. Therefore, it may be difficult for investors in the United States to enforce their legal rights based on the civil liability provisions of the U.S. securities laws against us in the courts of either the United States or the PRC and, even if civil judgments are obtained in courts of the United States, to enforce such judgments in the PRC courts. Further, it is unclear if extradition treaties now in effect between the United States and the PRC would permit effective enforcement against us or our officers and directors of criminal penalties under the U.S. Federal securities laws or otherwise.

### **Risks Related to Our Common Stock**

We are authorized to issue blank check preferred stock, which may be issued without shareholder approval and which may adversely affect the rights of holders of our Common Stock.

We are authorized to issue 10,000,000 shares of preferred stock. The Board is authorized under our articles of incorporation, as amended, to provide for the issuance of shares of preferred stock by resolution and by filing a certificate of designations under Florida law, to fix the designation, powers, preferences and rights of the shares of each such series of preferred stock and the qualifications, limitations or restrictions thereof without any further vote or action by the shareholders. The Board previously designated and issued 1,000,000 shares of Series A preferred stock which were automatically converted into our Common Stock upon the effective date of our two-for-three reverse split and returned to the status of authorized and unissued shares of preferred stock following the reverse split. As of March 25, 2014 there were no shares of Series A preferred stock issued and outstanding. Any shares of preferred stock that are issued are likely to have priority over our Common Stock with respect to dividend or liquidation rights. In the event of issuance, the preferred stock could be utilized under certain circumstances as a method of discouraging, delaying or preventing a change in control, which could have the effect of discouraging bids to acquire us and thereby prevent shareholders from receiving the maximum value for their shares. We have no present intention to issue any additional shares of preferred stock in order to discourage or delay a change of control or for any other reason. However, there can be no assurance that preferred stock will not be issued at some time in the future.

Our Chairman has control over key decision making as a result of his control of a majority of our voting stock.

Yongke Xue, the Chairman of the Board of Directors of the Company, indirectly and beneficially owns 80% equity interest in SkyPeople International Holdings Group Limited ("SP International"), and also serves as the sole director of SP International. In turn, SP International indirectly owns 13,375,639 shares, or 50.2%, of our outstanding common stock. Mr. Yongke Xue, will be able to exercise voting rights with respect to these shares of common stock, and has the ability to control the outcome of matters submitted to our stockholders for approval, including the election of directors and any merger, consolidation, or sale of all or substantially all of our assets. This concentrated control could delay, defer, or prevent a change of control, merger, consolidation, or sale of all or substantially all of our assets that our other stockholders support, or conversely this concentrated control could result in the consummation of such a transaction that our other stockholders do not support. This concentrated control could also discourage a potential investor from acquiring our common stock due to the limited voting power of such stock. As a board member, Mr. Yongke Xue owes a fiduciary duty to our stockholders and must act in good faith in a manner he reasonably believes to be in the best interests of our stockholders. As a stockholder, even a controlling stockholder, Mr. Yongke Xue is entitled to vote his shares, and shares over which he has voting control, in his own interests, which may not always be in the interests of our stockholders generally.

Anti-takeover provisions in our charter documents and under Florida law could discourage, delay or prevent a change in control of our Company and may affect the trading price of our Common Stock.

We are a Florida corporation and the anti-takeover provisions of the Florida Business Corporation Act may discourage, delay or prevent certain changes in control unless such change in control is approved by a majority of our disinterested shareholders. In addition, the terms of our articles of incorporation and bylaws may discourage, delay or prevent a change in our management or control over us that shareholders may consider favorable. Our articles of incorporation and bylaws:

- authorize the issuance of “blank check” preferred stock that could be issued by the Board to thwart a takeover attempt, in addition to the shares of Series A and Series B preferred stock that have been issued to date;
- require that directors only be removed from office upon a majority shareholder vote;
- provide that vacancies on the board of directors, including newly created directorships, may be filled only by a majority vote of directors then in office;
- limit who may call special meetings of shareholders; and
- prohibit shareholder action by written consent, requiring all actions to be taken at a meeting of the shareholders.

For more information regarding these and other provisions, see the section titled “Description of Our Securities — Anti-Takeover Effects of Florida Law and Provisions of Our Articles of Incorporation and Bylaws.”

#### ITEM 1B – UNRESOLVED STAFF COMMENTS

Not applicable.

#### ITEM 2 – PROPERTIES

Our principal executive offices are located at 16/F, China Development Bank Tower, No. 2 Gaoxin 1st Road, Hi-Tech Industrial Zone, Xi’an, Shaanxi Province, PRC 710065, and our telephone number is 86-29-88377161. The area of our office is approximately 1,400 square meters.

We operate four factories through a branch office of SkyPeople (China) and three subsidiaries of SkyPeople (China). In each of these factories, we own all the factory facilities except for land with regard to which we own land use rights. There is no private ownership of land in the PRC. All land ownership is held by the government of the PRC. The government of the PRC, its agencies and collectives hold all land ownership. Land use rights can be transferred upon approval by the land administrative authorities of the PRC (State Land Administration Bureau) upon payment of the required land transfer fee. The chart summarizes the information of the facilities and the four factories that we operate:

Location	Products	Operator	Size	Land Use Rights Expiration Date
16th Floor, China Development Bank Tower, No. 2 Gaoxin 1st Road, Hi-Tech Industrial Zone, Xi’an, Shaanxi Province	Headquarters	N/A	1,425.96 square meters	*
Sanqu Town, Jingyang County, Xianyang City, Shaanxi Province	Concentrated apple and pear juice and concentrated kiwifruit juice	SkyPeople (China)	34,476.04 square meters	December 27, 2056

We believe that our current offices and facilities are adequate to meet our needs, and that additional facilities will be available for lease, if necessary, to meet our future needs.

### ITEM 3 – LEGAL PROCEEDINGS

On April 20, 2011, plaintiff Paul Kubala (on behalf of his minor child N.K.) filed a securities fraud class action lawsuit in the United States District Court, Southern District of New York against the Company, certain of its individual officers and/or directors, and Rodman & Renshaw, LLC, the underwriter of the Company's follow-on public offering consummated in August 2010, alleging violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 10b-5 promulgated thereunder. On June 20, 2011, plaintiff Benjamin Padnos filed a securities fraud class action lawsuit in the United States District Court, Southern District of New York against the Company, certain of its current and former officers and/or directors, the Company's former independent auditors Child Van Wagner & Bradshaw, PLLC and BDO Limited, and Rodman & Renshaw, LLC, the underwriter of the Company's follow-on public offering consummated in August 2010, alleging violations of Sections 10(b) and 20(a) of the Exchange Act and Rule 10b-5 promulgated thereunder. On August 30, 2011, the Court consolidated the foregoing two actions and appointed Zachary Lewy as lead plaintiff. On September 30, 2011, pursuant to the Court's order, Lead Plaintiff filed a consolidated complaint, which names the Company, Rodman & Renshaw, LLC, BDO Limited, Child Van Wagoner & Bradshaw PLLC and certain of the Company's current and former directors and/or officers and majority shareholders as defendants, and alleges violations of Sections 11, 12 and 15 of the Securities Act of 1933 and Sections 10(b) and 20(a) of the Exchange Act, and the rules promulgated thereunder. The Consolidated Complaint seeks, among other things, compensatory damages, and reasonable costs and expenses incurred in the action. On December 21, 2011, the Company and certain of the individual defendants filed a motion to dismiss the Consolidated Complaint. On May 3, 2012, Lead Plaintiff voluntarily dismissed the claims against BDO Limited and Child Van Wagoner & Bradshaw PLLC. On September 10, 2012, the Court granted in part and denied in part the Company's motion to dismiss the Consolidated Complaint. On January 11, 2013, defendant Rodman & Renshaw LLC filed for Chapter 11 bankruptcy protection, and, on January 18, 2013 the court imposed an automatic stay on Plaintiffs claims against Rodman pursuant to Section 326(a) of the Bankruptcy Code. The parties settled this matter by the Company agreeing to contribute \$2,200,000 into a settlement fund to pay class members (the "Settlement"). On January 27, 2014, the Court entered an order approving the Settlement, certifying the class for settlement purposes and dismissing the suit with prejudice.

On August 5, 2011, we received a shareholder demand letter from counsel for a purported shareholder. The letter was addressed to the Company's Board of Directors and requested the Board of Directors to take a number of actions in order to repair the alleged "harm" caused to the Company by certain of its directors and officers, as well as its current and former auditors. The Board of Directors has been reviewing this shareholder demand letter and considering appropriate action that the Company should undertake. On November 7, 2011, Baosheng Lu and Tao Wang were appointed to serve as directors of the board and the independent directors of the board appointed them to serve as the members of the evaluation committee. The evaluation committee is in the process of evaluating the actions demanded by the shareholder and retaining counsel to respond to the shareholder inquiry. No formal shareholder derivative complaint has been filed to date on behalf of the Company. The Company believes any such suit would be without merit and would vigorously defend its position in this regard.

On July 8, 2011, the Company brought suit against Absaroka Capital Management, LLC (“Absaroka”) and its principal Kevin Barnes in the U.S. District Court of Wyoming under the caption SkyPeople, Inc. v. Absaroka Capital Management, LLC, et al., No. 11-cv-238. Absaroka is a purported independent investment analyst who, while holding a short position in our stock, issued a so-called research report (the “Report”) asserting, inter alia, that the Company had inflated revenues. We brought suit alleging three causes of action for libel per se, libel per quod and intentional interference with a prospective business relationship. In or around November, 2011, Absaroka and Barnes brought counter claims against us for defamation per se, defamation per quod and abuse of process. On June 22, 2012, the Company and Absaroka reached an out-of-court settlement of litigation in the U.S. District Court for the District of Wyoming. The settlement includes a dismissal of all claims and counterclaims filed by the Parties, with neither party admitting any wrongdoing or liability. As part of the settlement agreement, Absaroka has agreed to remove the Report from its website, undertake best efforts to remove the Report from third-party sites, and refrain from issuing any further articles, public statements, or research reports concerning the Company.

Other than the above, from time to time we may be a party to various litigation proceedings arising in the ordinary course of our business, none of which, in the opinion of management, is likely to have a material adverse effect on our financial condition or results of operations.

#### ITEM 4 – RESERVED

### PART II

#### Item 5 – MARKET FOR REGISTRANT’S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Our Common Stock has been listed on the Nasdaq Global market since April 20, 2010. Immediately prior to that, our Common Stock was traded on the NYSE Amex. The following table sets forth the high and low inter-dealer prices, without mark-up, mark-down or commission, involving our Common Stock during each calendar quarter, and may not represent actual transactions.

2013	High	Low
First quarter	\$ 2.9	\$ 2.00
Second quarter	\$ 2.52	\$ 1.95
Third quarter	\$ 2.49	\$ 1.76
Fourth quarter	\$ 2.25	\$ 1.70
2012	High	Low
First quarter	\$ 1.85	\$ 1.46
Second quarter	\$ 1.88	\$ 1.45
Third quarter	\$ 1.75	\$ 1.33
Fourth quarter	\$ 2.17	\$ 1.55

#### Reports to Stockholders

We plan on furnishing stockholders with an annual report for each fiscal year ending December 31 containing financial statements audited by its independent certified public accountants. Additionally, the Company may, in its sole discretion, issue unaudited quarterly or other interim reports to its stockholders when it deems appropriate. The Company intends to maintain compliance with the periodic reporting requirements of the Exchange Act.

#### Stockholders

As of December 31, 2013, there were 26,661,499 shares of our Common Stock issued and outstanding, and we had approximately 71 record holders of our Common Stock, not including holders who hold their shares under street name.

## Dividend Policy

We have not declared or paid any cash dividends on our Common Stock during our last four fiscal years. The payment of dividends is at the discretion of the Board and is contingent on our revenues and earnings, capital requirements, financial condition and the ability of our operating subsidiary, SkyPeople (China), to obtain approval from SAFE to send funds out of the PRC. We currently intend to retain all earnings, if any, for use in business operations. Accordingly, we do not anticipate declaring any dividends in the near future.

The PRC's national currency, the RMB or yuan, is not a freely convertible currency. Please refer to the risk factors "Governmental control of currency conversion may affect the value of shareholder investment," "The fluctuation of the RMB may harm shareholder investments" and "PRC regulations relating to mergers and the establishment of offshore special purpose companies by PRC residents, if applied to us, may limit our ability to operate our business as we see fit.

## Recent Sales of Unregistered Securities; use of proceeds from registered securities

The Company has not made any sale of unregistered securities during the fiscal year ended December 31, 2013 that were not previously disclosed in a quarterly report on Form 10-Q or a current report on Form 8-K.

On August 30, 2010, we closed the public offering of 5,181,285 shares of our Common Stock at a price of \$5.00 per share for approximately \$25.9 million. We received an aggregate of approximately \$24 million as net proceeds after deducting underwriting discounts and commissions and offering expenses. As of December 31, 2011, we had spent approximately \$18.6 million on various capital projects in Huludao Wonder. For more details related to the use of proceeds from the public offering in 2010, please see the section entitled "Capital Projects" under "Item 7, Management Discussion and Analysis of Financial Conditions and Results of Operations".

## Securities Authorized for Issuance Under Equity Compensation Plans

The following table sets forth information as of December 31, 2013, with respect to our equity compensation plans previously approved by stockholders and equity compensation plans not previously approved by stockholders.

Plan Category	Equity Compensation Plan Information		
	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by stockholders (1)	-	\$ N/A(2)	1,000,000
Equity compensation plans not approved by stockholders (3)	175,000	\$ 4.50	-
<b>Total</b>	175,000	\$ N/A	1,000,000

(1) Consists of Stock Incentive Plan, which was approved by the Company's annual meeting of shareholders on August 18, 2011.

(2) The exercise price of options granted and stock appreciation rights under the Plan may be no less than the fair market value of the Company's Stock on the date of grant. Since no options have been granted under the plan, the weighted-average exercise price is not available.

(3) Consists of a warrant held by our former CFO, Ms. Spring Liu exercisable for up to 100,000 shares of the Company's Common Stock at an exercise price of \$4.50 per share. These warrants will expire on December 9, 2014, and warrants to purchase 75,000 shares of the Company's common stock at the exercise price of \$4.50 during the period from July 25, 2011 to July 25, 2014 as partial compensation to HCI on July 25, 2011, pursuant to Investor Relations Consulting Agreement with Hayden Communications International, Inc. ("HCI") dated December 1, 2009.

## Item 6 – SELECTED FINANCIAL DATA

Not Applicable.

## ITEM 7 – MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes appearing elsewhere in this report. This discussion and analysis contains forward-looking statements that involve risks, uncertainties and assumptions. Our actual results could differ materially from the results described in or implied by these forward-looking statements as a result of various factors, including those discussed below and elsewhere in this Annual Report on Form 10-K, particularly under the heading "Risk Factors."

### Overview

We are engaged in the production and sales of fruit juice concentrates (including fruit purees, concentrated fruit purees and concentrated fruit juices), fruit beverages (including fruit juice beverages and fruit cider beverages), and other fruit related products (including organic and non-organic fresh fruits) in and from the PRC. Our fruit juice concentrates, which include apple, pear and kiwifruit concentrates, are sold to domestic customers and exported directly or via distributors. We sell our Hedetang branded bottled fruit beverages domestically primarily to supermarkets in the PRC. In 2013, sales of our fruit concentrates, fruit beverages, fresh fruits and other fruit related products represented approximately 48%, 50%, 1% and 1% of our revenue, respectively, compared to 60%, 27%, 7% and 6%, respectively, in 2012.

We export our products as well as sell them domestically. We sell our products either through distributors with good credit or to end users directly. We believe that our main export markets are the Asia, North America, Europe, Russia and the Middle East. We sell our Hedetang brand bottled fruit beverages domestically, primarily to supermarkets in the PRC. We sell our other fruit related products to domestic customers.

We currently market our Hedetang brand fruit beverages in only certain regions of the PRC. We plan to expand the market presence of Hedetang over a broader geographic area in the PRC. In particular, we plan to expand our glass bottle production line to produce higher margin portable fruit juice beverages targeting consumers in more populated Chinese cities. Currently we produce six flavors of fruit beverages in 280 ml glass bottles and 500 ml glass bottles, including apple juice, pear juice, kiwifruit juice, mulberry juice, kiwifruit cider and mulberry cider. We currently sell our fruit beverages to over 100 distributors and more than 20,000 retail stores in approximately 20 provinces. Our products are sold through distributors in stores such as Hualian Supermarket in Beijing, RT-Mart in Shenyang, Carrefour in Chongqing and Shenyang and Lianhua Supermarket in Shanghai, etc.

We plan to continue to focus on creating new products with high margins to supplement our current product offering.

We believe that continuous investment in research and development is a key component to being a leader in fruit juice concentrate and fruit beverage quality. In 2013 and 2012, our research and development expenses were \$20,183 and \$570,278, respectively. In 2013, the Company suspended four research and development agreements with research institutions and currently intends to concentrate on building up an internal research and development team.

Our business is highly seasonal and can be greatly affected by weather because of the seasonal nature in the growing and harvesting of fruits and vegetables. Our core products are apple, pear and kiwifruit juice concentrates, which are produced from July or August to April of the following year. The squeezing season for (i) apples is from August to January or February; (ii) pears is from July or August until April of next year; and (iii) kiwifruit is from September through December. Typically, a substantial portion of our revenues is earned during our first and fourth quarters. To minimize the seasonality of our business, we make continued efforts in identifying new products with harvesting seasons complementary to our current product mix. Our goal is to lengthen our squeezing season, thus increasing our annual production of fruit juice concentrates and fruit beverages. In the first quarter of 2009, we introduced mulberry and kiwifruit cider beverages in the Chinese market. Unlike fruit juice concentrates, which can only be produced during the squeezing season, such fruit beverages are made out of fruit juice concentrates and can be produced and sold in all seasons. With continuous efforts in marketing of our beverages in domestic market, we believe that our seasonality will be reduced.

Fresh fruits are the primary raw materials needed for the production of our products. Our raw materials mainly consist of apples, pears and kiwifruits. Other raw materials used in our business include pectic enzyme, amylase, auxiliary power fuels and other power sources such as coal, electricity and water.

We purchase raw materials from local markets and fruit growers that deliver directly to our plants. We have implemented a fruit-purchasing program in areas surrounding our factories. In addition, we organize purchasing centers in rich fruit production areas, helping farmers deliver fruit to our purchasing agents easily and in a timely manner. We are then able to deliver the fruit directly to our factory for production. We have assisted local farmers in their development of kiwifruit fields to help ensure a high quality product throughout the production channel. Our raw material supply chain is highly fragmented and raw fruit prices are highly volatile in China. Fruit concentrate and fruit juice beverage companies generally do not enter into purchasing agreements. In addition to raw materials, we purchase various ingredients and packaging materials such as sweeteners, glass and plastic bottles, cans and packing barrels. We generally purchase our materials or supplies from multiple suppliers. We are not dependent on any one supplier or group of suppliers.

Shaanxi and Liaoning Provinces, where our manufacturing facilities are located, are large fruit producing provinces. We own and operate four manufacturing facilities in the PRC, all of which are strategically located near fruit growing centers so that we can better preserve the freshness of the fruits and lower our transportation costs. To take advantage of economies of scale and to enhance our production efficiency, generally, each of our manufacturing facilities has a focus on products made from one particular fruit according to the proximity of such manufacturing to the sources of supply for that fruit. Our kiwifruit processing facilities are located in Zhouzhi County of Shaanxi Province, which has the largest planting area of apples and kiwifruit in the PRC. Our pear processing facilities are located in Shaanxi Province, which is the main pear-producing province in the PRC. Our apple processing facilities are located in Liaoning Province, a region that abounds with high acidity apples. As we use the same production line for concentrated apple juice and concentrated pear juice and both Shaanxi Province and Liaoning Province are rich in fresh apple and pear production, our Liaoning facilities also produced concentrated apple juice and our Shaanxi Province facilities also produced concentrated apple juice based on customer need. We believe that these regions provide adequate supply of raw materials for our production needs in the foreseeable future.

On August 30, 2010, we closed the public offering of 5,181,285 shares of our Common Stock at a price of \$5.00 per share for approximately \$25.9 million. We received an aggregate of approximately \$24 million as net proceeds after deducting underwriting discounts and commissions and offering expenses. As of December 31, 2011, we had spent approximately \$18.6 million on various capital projects in Huludao Wonder as described in projects (4) and (5) below. The following table presents the capital projects on which we currently plan to use the proceeds from this offering. We review these projects and capital expenditures on a quarterly basis based on the market conditions and associated costs of these projects.

**Capital Projects**

Subsidiary	No.	Priority Projects	Progress	Estimated capital expenditure (in Millions)
SkyPeople Suizhong	(1)	Construction of a refrigeration storage unit for the storage of concentrated fruit juices and fresh fruits and vegetables	The design of the facility has been completed. Construction has started during the third quarter of 2012. The Company suspended the construction of the refrigeration storage unit to apply land use right certificate from local government. It is expected that the certificate of land use right will be granted to the Company in 2014.	\$ 2.7
Huludao Wonder	(2)	Construction of concentrated fruit juice mixing center	The design of the facility has been completed. The first stage of construction has started. During the fourth quarter of 2012, the civil work has been completed. The Company is currently in the process of purchasing equipment. The project was completed in 2013.	1.9
Huludao Wonder	(3)	Construction of a 30 ton/hour comprehensive fruits and vegetables processing line	The construction of this 30 ton/hour comprehensive fruits and vegetables processing line was delayed. The installation and adjustment of machinery has been completed during the fourth quarter of 2012. The project was completed in 2013.	3
Huludao Wonder	(4)	Construction of a fruit juice beverage production line of 6,000 bottles/hour	The construction of the production line was completed and the production line commenced operation in the second quarter of 2012.	3
Huludao Wonder	(5)	Environmental project (waste water treatment facility for concentrated apple juice production line)	The construction of the environmental project was completed in the third quarter of 2012.	8
Total Capital Expenditure				\$ 18.6

- (1) Our initial plan was to construct both the refrigeration storage (see Project (1) above) and fruit juice mixing center (see Project (2) above) in Huludao, Liaoning Province, for which the original estimated total capital expenditure was \$4.4 million. We initially planned to start the construction of the refrigeration storage unit and a concentrated fruit juice-mixing center in the fourth quarter of 2011. However, the construction of the refrigeration storage unit has been delayed due to a change of plan. Management concluded that it is in the best interest of the Company to build the refrigeration storage unit in Suizhong, Liaoning Province, which is in close geographic proximity of Huludao Wonder in Liaoning Province. The total estimated capital expenditure for Projects (1) and (2) based on the changed plan is expected to be \$4.6 million. The Company is now in the process of evaluating the new plan and in negotiation with the local government to acquire land use right for approximately 7.8 acres for consideration of approximately \$290,000 per acre. In April 2012, the Company paid partial consideration of approximately \$1,200,000. As of the date of this report, the certificate of land use right has not been granted to the Company. The Company suspended the construction of the refrigeration storage unit to apply land use right certificate from local government. It is expected that the certificate of land use right will be granted to the Company in the second quarter of 2014.
- (2) The fruit juice-mixing center will be built in Huludao Wonder. The design of the fruit juice-mixing center has been completed. The first stage of construction has started. During the fourth quarter of 2012, the civil work has been completed. The project was completed in 2013.
- (3) Our initial plan was to construct a 50 ton/hour concentrated apple juice production line in Huludao Wonder. We later decided to cancel the plan due to certain amendment to the Catalogue of Industry Structure Adjustment effective in June 2011, which classified concentrated apple juice business in the category of Restricted Industry. To avoid exposure to potential government restrictions on the expansion of this industry by, among other things, putting limitations on the increase in production capacity, increasing the product quality standard, reducing government financial support, we decided to change our existing 30 ton/hour concentrated apple juice line into a 30 ton/hour comprehensive fruits and vegetables processing line by adding additional equipment and machinery. The 30 ton/hour comprehensive fruits and vegetables processing line is expected to process a variety of fruits and vegetables (including apple,

pear, and other fruits and vegetables) into juices. The estimated investment for this project is \$3.0 million. We believe that this project could provide us more flexibility. The project was completed in 2013.

- (4) We started the construction of infrastructure for the fruit juice beverage production line on September 28, 2010. The construction of a fruit juice beverage production line with a maximum production capacity of 6,000 bottles per hour has been completed. On April 25, 2012, Huludao Wonder was granted a beverage production license (including fruit juice and vegetable juice) by Liaoning Bureau of Quality and Technical Supervision. Huludao Wonder commenced operation of the new production line on April 28, 2012.
- (5) The environmental project mainly consists of a wastewater processing facility that is required in our production of fruit and vegetable juice concentrates. The construction of the environmental project (waste water treatment facility for concentrated apple juice production line) has been completed in the third quarter of 2012.

## Shaanxi Qiyiwangguo Projects

We previously identified several projects for our Shaanxi Qiyiwangguo factory, which we expect to finance using our operating cash flow. These projects including a 24,000 PET bottle/hour fruit juice beverage aseptic cold-filling line, and a PET bottle blowing machine system. Based on the current market conditions and other potential opportunities, management has decided to delay these projects to a future date when appropriate.

## Other Projects

### **Investment/Service Agreement with Yidu Municipal People's Government**

On October 29, 2012, SkyPeople (China) entered into an investment/service agreement (the "Investment Agreement") with Yidu Municipal People's Government in Hubei Province of China.

Under the Investment Agreement, the parties agree to invest and establish an orange comprehensive deep processing zone in Yidu.

The Company will be responsible for the establishment, construction and financing of the project with a total investment of RMB 300 million (approximately \$48 million), in fixed assets and the purchase of land use rights, while Yidu government agrees to provide a parcel of land for the project that is approximately 280 mu in size located at Gaobazhou Town of Yidu for a fee payable by the Company. The consideration for transferring the land use right for the project land shall be RMB 0.3 million per mu.

The main scope of the Yidu project includes the establishment of:

1. one modern orange distribution and sales center (the "distribution center");
2. one orange comprehensive utilization deep processing zone (the "deep processing zone"), including:
  - a) one 45 ton/hour concentrated orange juice and byproduct deep processing production line;
  - b) one bottled juice drink production line with a capacity to produce 6,000 glass bottles per hour;
  - c) one storage freezer facility with a capacity to store 20,000 tons of concentrated orange juice; and
  - d) general purpose facilities within the zone, office space, general research and development facilities, service area, living quarters and other ancillary support areas
3. one research and development center for orange varietal improvement and engineering technology (the "R&D center"); and
4. one standardized orange plantation (the "orange plantation").

The total amount of RMB 300 million (approximately \$48 million) will mainly be used to establish the distribution center and the deep processing zone on the project land of approximately 280 mu. SkyPeople and Yidu Municipal People's Government agreed to discuss the investment amount and location for establishing the R&D center and the orange plantation in the future.

Yidu Municipal People's Government is in the process of demolition buildings on project land. During 2013, the Company has made partial payment of RMB 77 million (approximately \$12.4 million) the consideration to acquire the land use right. The Company is actively working with various bodies of Yidu Municipal People's Government making preparations for the start of the project.

### **Investment/Service Agreement with Mei County National Kiwi Fruit Wholesale Trading Center**

On April 3, 2013, SkyPeople (China) entered into an Investment Agreement with the Managing Committee of Mei County National Kiwi Fruit Wholesale Trading Center (the "Committee"). The Committee has been authorized by the People's Government of Mei County to be in charge of the construction and administration of the Mei County National Kiwi Fruit Wholesale Trading Center (the "Trading Center").

Under the Investment Agreement, the parties agreed to invest and establish a kiwi fruit comprehensive deep processing zone and kiwi fruit and fruit-related materials trading zone in Yangjia Village, Changxing Town of Mei County with a total planned area of total planned area of 286 mu (approximately 47 acres) (the "Project").

Pursuant to the Investment Agreement, the Company will be responsible for the construction and financing of the Project with a total investment of RMB 445.6 million (approximately \$ 71.9 million) in buildings and equipment. In addition, the Company agreed to pay for the land use rights for the Project land a fee of RMB 0.3 million per mu. The Committee is responsible for financing and constructing the basic infrastructure surrounding the Project, such as the main water supply, main water drainage, natural gas, electricity, sewage, access roads to the Project, natural gas and communications networks.

During 2013, the Company has made partial payment of RMB 200 million (approximately \$32 million) the consideration to acquire the land use right and purchase equipment and build facilities. The Company is actively working with the Committee making preparations for the start of the project

### **Suizhong Project**

On July 15, 2011, SkyPeople entered into a Letter of Intent with the People's Government of Suizhong County, Liaoning Province, to establish a fruit and vegetable industry chain and further processing demonstration zone in Suizhong County, Liaoning Province (the "Suizhong project").

The Suizhong project may include one or more of the following: the construction and operation of fruit juice production lines, vegetable and fruit flash freeze facility, refrigeration storage facility and warehouse, a world class food safety testing center, fruit and vegetable modern supply chain and e-commerce platform, fruit and vegetable finished products processing center and exhibition center, etc. The implementation of the project is subject to government approval of the project.

During 2013, the Company finished the feasibility study and submitted detailed project proposal to local government. Both parties decided to continue the project. The Company paid RMB 78 million (approximately \$13 million) as partial payment to acquire land use right from local government, purchase equipment and build facilities.

### **Key Components of Operating Results**

#### Sources of Revenue

We derive our revenue primarily from the sales of fruit juice concentrates, fruit beverages and other fruit related products in and from the PRC.

Our fruit juice concentrates, which include apple, pear and kiwifruit, are sold directly or indirectly to domestic juice manufacturers and exported primarily via distributors to Asia, North America, Europe and the Middle East. Our general sales agreement with distributors requires that the distributors pay us after we deliver our products to them, which is not contingent on resale to end users. Our credit terms for distributors with good credit history are from 30 days to 90 days. Distributors have no contractual right to return our products and we are not required to rebate or credit any amounts paid if we subsequently reduce the price of our products.

We sell our Hedetang branded bottled fruit juice beverages and fruit cider beverages domestically primarily to supermarkets in the PRC through distributors, we also export our Hedetang branded bottled fruit juice beverages outside of China directly or indirectly through distributors.

In addition to concentrated juice products and juice beverages, we generate other revenue from sales of apple spice, kiwifruit seeds and fresh kiwifruit. These products are mainly sold to Chinese customers.

#### Cost of Sales

Our cost of sales consists primarily of the cost for raw materials, including various fresh fruit, packing barrels, pectic enzyme, amylase, auxiliary power fuels and other power sources such as coal, electricity and water, bottles, packaging materials, and expenses associated with the operations of our manufacturing facilities.

We determine cost of sales on the basis of the average cost of inventory methods.

The shipping and handling expenses of \$1,591,749 and \$1,642,317 for fiscal years 2013 and 2012, respectively, are reported in the Consolidated Statement of Comprehensive Income as a component of selling expenses.

The largest component of our cost of sales is the cost for fresh fruit. We purchase fresh fruit and other raw materials from local markets and fruit growers that deliver directly to our plants. Our raw material supply chain is highly fragmented and raw fruit prices are highly volatile. We generally do not enter into long term purchase agreements for fresh fruit.

#### Operating Expenses

We classify our operating expenses into three categories: general and administrative, selling and research and development. Our operating expenses consist primarily of personnel costs, which include salaries, bonuses, payroll taxes and employee benefit costs. Other expenses include advertising and promotional costs, shipping and handling costs not billed to customers, facilities costs and legal, audit, tax, consulting and other professional service fees.

The government owns all of the land in the PRC. Companies or individuals are authorized to possess and use the land only through land use rights granted by the PRC government. Accordingly, we paid for land use rights in advance and such prepayments are being amortized and recorded as expenses using the straight-line method over the use terms of the lease, which are 40 to 50 years. The amortization expenses were \$184,403 and \$180,920 for 2013 and 2012, respectively.

#### General and Administrative

General and administrative expenses consist primarily of personnel costs for our executive, finance, human resources and administrative personnel, legal, audit, tax and other professional fees, depreciation expenses, insurance and other corporate expenses.

#### Selling Expenses

Selling expenses consist primarily of freight and transportation expenses, advertising and promotional costs and personnel costs for our sales team.

#### Research and Development

We believe that continuous investment in research and development is a key component to being a leader in fruit juice concentrate and fruit beverages. Our Research and Development Center of SkyPeople (China) was certified as the Provincial Industrial Research & Development Center jointly by six provincial institutions of Shaanxi Provincial People's Government, including the Department of Communications, the Department of Science and Technology, the Department of Finance, the Bureau of National Taxation, the Bureau of Local Taxation and Xi'an Customs in December 2009. Our research and development effort emphasizes the design and development of our processing technology with the goal of decreasing processing costs, optimizing our production capabilities and maintaining product quality. We intend to continue to invest in research and development to respond to and anticipate customer needs. Our research and development costs were \$20,183 in fiscal 2013, as compared to \$570,278 in fiscal year 2012. In 2013, the Company suspended four research and development agreements with research institutions and currently intends to concentrate on building up an internal research and development team. As of December 31, 2013, the Company is in the process of recruiting research and development team personnel.

### Other Income (Expense)

Other income (expense) consists of interest we earn on our cash and cash equivalents, interest expenses on our short-term bank loans from Chinese local banks, government subsidies and other miscellaneous income or expenses.

### Provision for Income Taxes

Our provision for income taxes primarily consists of corporate income taxes related to profits earned in the PRC from sales of our products. All our Chinese subsidiaries were subject to a tax rate of 25%. Our consolidated income tax rates were effectively 26% in both 2013 and 2012.

Our income tax expenses are comprised of U.S. and China tax accrual as computed using the tax rules and regulations for such jurisdictions. In accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”), Topic 740, we evaluate material tax positions asserted on every income tax return for the technical merits as to the tax supportability under examination or tax litigation. When we determine that a tax position is uncertain, our policy is to record a liability based on whether the tax position’s facts and circumstances on a “more likely than not” basis are supportable under tax laws and regulations. We have had no material adjustments to the unrecognized income tax benefits since our adoption of FASB ASC 740.

### Critical Accounting Policies

Management’s discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with U.S. GAAP. Our financial statements reflect the selection and application of accounting policies, which require management to make significant estimates and judgments. Management bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe that the following reflects the more critical accounting policies that currently affect our financial condition and results of operations.

### Use of Estimates

The Company’s consolidated financial statements have been prepared in accordance with U.S. GAAP and this requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure at contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenue and expenses during the reporting period. The significant areas requiring the use of management estimates include the allowance for doubtful accounts receivable, estimated useful life and residual value of property, plant and equipment, provision for staff benefit, valuation of change in fair value of warrant liability, recognition and measurement of deferred income taxes and valuation allowance for deferred tax assets. Although these estimates are based on management’s knowledge of current events and actions management may undertake in the future, actual results may ultimately differ from those estimates.

### Principles of Consolidation

Our consolidated financial statements include the accounts of the Company and its subsidiaries. All material intercompany accounts and transactions have been eliminated in consolidation.

The consolidated financial statements are prepared in accordance with U.S. GAAP. This basis differs from that used in the statutory accounts of SkyPeople (China), Shaanxi Qiyiwangguo, Huludao Wonder, Yingkou, Hedetang Juice Beverages, Orange Products, SkyPeople Suizhong, Kiwi Fruit & Farm Products and Guo Wei Mei, which were prepared in accordance with the accounting principles and relevant financial regulations applicable to enterprises in the PRC. All necessary adjustments have been made to present the financial statements in accordance with U.S. GAAP.

## Fair Value of Financial Instruments

On January 1, 2009, the Company adopted FASB Accounting Standard Codification Topic on Fair Value Measurements and Disclosures ("ASC 820"), which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. ASC 820 does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. In February 2008, FASB deferred the effective date of ASC 820 by one year for certain non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company adopted the provisions of ASC 820, except as it applies to those non-financial assets and non-financial liabilities for which the effective date has been delayed by one year.

ASC 820 establishes a three-level valuation hierarchy of valuation techniques based on observable and unobservable input, which may be used to measure fair value and include the following:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Input other than Level 1 that is observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other input that is observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable input that is supported by little or no market activity and that is significant to the fair value of the assets or liabilities.

Classification within the hierarchy is determined based on the lowest level of input that is significant to the fair value measurement.

## Revenue Recognition

The Company recognizes revenue in accordance with ASC 605, Revenue Recognition. Revenue from sales of products is recognized upon shipment or delivery to customers, provided that persuasive evidence of sales arrangements exist, title and risk of loss have been transferred to the customers, the sales amounts are fixed and determinable and collection of the revenue is reasonably assured. Customers have no contractual right to return products. Historically, the Company has not had any returned products. Accordingly, no provision has been made for returnable goods. The Company is not required to rebate or credit a portion of the original fee if it subsequently reduces the price of its product and the distributor still has rights with respect to that product.

## Foreign Currency and Other Comprehensive Income

The financial statements of the Company's foreign subsidiaries are measured using the local currency as the functional currency; however, the functional currency and the reporting currency of the Company are the United States dollar ("USD"). Assets and liabilities of the Company's foreign subsidiaries have been translated into USD using the exchange rate at the balance sheet date, while equity accounts are translated using historical exchange rate. The average exchange rate for the period has been used to translate revenues and expenses. Translation adjustments are reported separately and accumulated in a separate component of equity (cumulative translation adjustment).

Other comprehensive income for the year ended December 31, 2013 and 2012 represented foreign currency translation adjustments and were included in the consolidated statements of comprehensive income.

There is no guarantee the RMB amounts could have been, or could be, converted into USD at rates used in translation.

## Income Taxes

Income taxes are provided on an asset and liability approach for financial accounting and reporting of income taxes. Any tax paid by subsidiaries during the year is recorded. Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purpose and is calculated using tax rates that have been enacted at the balance sheet date. Deferred income tax liabilities or assets are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and the financial reporting amounts at each period end. A valuation allowance is recognized if it is more likely than not that some portion, or all, of a deferred tax asset will not be realized.

ASC 740 provides guidance for recognizing and measuring uncertain tax positions, and it prescribes a threshold condition that a tax position must meet for any of the benefits of the uncertain tax position to be recognized in the financial statements. ASC 740 also provides accounting guidance on derecognizing, classification and disclosure of these uncertain tax positions. The adoption of ASC 740 did not have a material impact on the Company's consolidated financial statements.

#### Impairment of Long-Lived Assets

In accordance with the FASB ASC 360-10, Accounting for the Impairment or Disposal of Long-Lived Assets, long-lived assets, such as property, plant and equipment and purchased intangibles subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable. It is reasonably possible that these assets could become impaired as a result of technological or other industrial changes. Determination of recoverability of assets to be held and used is by comparing the carrying amount of an asset to future net undiscounted cash flows to be generated by the assets.

If such assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. During the reporting period there was no impairment loss.

During 2013, due to unexpected weather conditions, the amount of apple output in Northeast China was lower than usual, which in turn resulted higher purchasing prices for apple. As a consequence, our Yingkou factory did not produce concentrated apple juice during the year, which is one of the reasons for the decreased amount of revenue.

#### Accounts Receivable

Accounts receivable are recognized and carried at the original invoice amount less an allowance for any uncollectible amount. We have a policy of reserving for uncollectible accounts based on our best estimate of the amount of probable credit losses in our existing accounts receivable. We extend credit to our customers based on an evaluation of their financial condition and other factors. We generally do not require collateral or other security to support accounts receivable. We perform ongoing credit evaluations of our customers and maintain an allowance for potential bad debts if required.

We determine whether an allowance for doubtful accounts is required by evaluating specific accounts where information indicates the customers may have an inability to meet financial obligations. In these cases, we use assumptions and judgment, based on the best available facts and circumstances, to record a specific allowance for those customers against amounts due to reduce the receivable to the amount expected to be collected. These specific allowances are re-evaluated and adjusted as additional information is received. The amounts calculated are analyzed to determine the total amount of the allowance. We may also record a general allowance as necessary.

Direct write-offs are taken in the period when we have exhausted our efforts to collect overdue and unpaid receivables or otherwise evaluate other circumstances that indicate that we should abandon such efforts.

The Company has not experienced any significant difficulty in collecting its accounts receivable in the past and is not aware of any financial difficulties being experienced by its major customers. Bad debt expense was \$160,418 and zero during the years ended December 31, 2013 and 2012, respectively. Our credit term for distributors with good credit history is from 30 days to 120 days. As of December 31, 2013 and 2012, accounts receivables of \$522,591 and zero have been outstanding for over 120 days.

#### Government Subsidies

A government subsidy is recognized only when the Company complies with any conditions attached to the grant and there is reasonable assurance that the grant will be received.

The government subsidies recognized were \$1,295,949 and \$1,908,802 for the years ended December 31, 2013 and 2012, respectively, and are included in other income.

### Recent Accounting Pronouncements

In March 2013, the FASB issued Accounting Standards Update No. 2013-05, Foreign Currency Matters, (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (ASU 2013-05), to resolve a diversity in accounting for the cumulative translation adjustment of foreign currency upon derecognition of a foreign subsidiary or group of assets. ASU 2013-05 requires the parent to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets within a foreign entity. Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. Further, ASU 2013-05 clarified that the parent should apply the guidance in subtopic 810-10 if there is a sale of an investment in a foreign entity, including both (1) events that result in the loss of a controlling financial interest in a foreign entity and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date. Accordingly, the cumulative translation adjustment should be released into net income upon the occurrence of those events. ASU 2013-05 is effective prospectively for the Company in its first quarter of fiscal 2014, with early adoption permitted. The Company does not expect ASU 2013-05 to have a significant impact on its consolidated results of operations and financial condition.

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, Income Taxes (Topic 740)(ASU 2013-11). The amendments in this update provide guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, similar tax loss, or tax credit carryforward exists. These amendments provide that an unrecognized tax benefit, or a portion thereof, should be presented in the financial statements as a reduction of a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent that a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date to settle any additional income taxes that would result from disallowance of a tax position, or the tax law does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, then the unrecognized tax benefit should be presented as a liability. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption is permitted. The Company does not expect ASU 2013-11 to have a significant impact on its consolidated results of operations and financial condition.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's consolidated financial statements upon adoption.

### Comparison of Operation Results of years ended December 31, 2013 and 2012

#### Revenue

The following table presents our consolidated revenues for our main products for the fiscal years 2013 and 2012, respectively, (in thousands):

	Year ended December 31,		% of change
	2013	2012	
Concentrated apple juice and apple aroma	7,531	22,887	(67%)
Concentrated kiwifruit juice and kiwifruit puree	9,808	9,152	7%
Concentrated pear juice	20,396	28,925	(29%)
Fruit juice beverages	39,548	27,137	46%
Fresh fruits and vegetables	814	8,417	(90%)
Other	889	5,838	(85%)
Total	<u>78,986</u>	<u>102,356</u>	<u>(23%)</u>

Revenue decreased to \$79.0 million in 2013, a decrease of \$23.4 million or 23% from \$102.4 million for 2012. This decrease was primarily due to a decrease in sales of concentrated apple juice, concentrated pear juice, fresh fruits and vegetables and other products, which was partially offset by an increase in sales of concentrated kiwifruit juice and kiwi puree and fruit juice beverages.

Sales from apple related products decreased to \$7.5 million, a decrease of \$15.4 million or 67%, compared to 22.9 million in 2012. In 2013 due to unexpected weather conditions, purchasing price of apples in northeast China was higher than normal. As a result, the Company did not operate its concentrated apple juice production facilities in Yingkon in 2013. During 2013, we sold 4,254 tons of concentrated apple juice and apple aroma, compared to 11,940 tons of concentrated apple juice and apple aroma were sold during 2012. In 2013, the Company sold fewer amounts of apple related products as compared to 2012, combined with lower average selling price.

Sales from concentrated kiwifruit juice and kiwifruit puree increased from \$9.2 million in 2012 to \$9.8 million in 2013, an increase of \$0.6 million or 7%. During 2013 and 2012, we sold 7,226 and 7,683 tons of concentrated kiwifruit juice and kiwifruit puree. The average selling price of kiwifruit juice and kiwifruit puree also increased.

Sales of concentrated pear juice decreased from \$28.9 million in 2012 to \$20.4 million in 2013, representing a decrease of \$8.5 million or 29% primarily due to a decrease in demand for concentrated pear juice in the international market coupled with a decrease in the unit price in 2013. During 2013, we sold 13,533 tons of concentrated pear juice, as compared to 16,796 tons of concentrated pear juice were sold during 2012.

Sales from our fruit juice beverages were \$39.5 million in 2013, an increase of \$12.4 million or 46% compared to \$27.1 million for 2012. The increase was primarily due to bigger market share gained from our continuous efforts of expanding sales channel.

Sales from our fresh fruits and vegetables were \$0.8 million in 2013, a decrease of \$7.6 million or 90%, compared to \$8.4 million for 2012. The decrease was primarily due to a decrease in the sales volume of the fresh fruits as well as an overall decrease in the selling prices of fresh fruits in 2013 as compared to those in 2012.

Sales from our other products were \$5.8 million in 2012; comparably sales generated from other products were \$0.9 million for 2013. The amount of sales of other products is expected to be unstable.

#### Gross Margin

The table below presents the consolidated gross profit of our main products and the consolidated gross margin for 2013 and 2012, respectively: (in thousand dollars)

	2013		2012	
	Gross profit	Gross margin	Gross profit	Gross margin
Concentrated apple juice and apple aroma	\$ 1,535	20%	\$ 4,640	20%
Concentrated kiwifruit juice and kiwifruit puree	4,313	44%	4,535	50%
Concentrated pear juice	6,500	32%	8,507	29%
Fruit juice beverages	14,646	37%	9,288	34%
Fresh fruits and vegetables	395	49%	4,663	55%
Others	164	18%	1,440	25%
Total	<u>\$ 27,553</u>	<u>35%</u>	<u>\$ 33,073</u>	<u>32%</u>

Gross profit decreased from \$33,072,991 in 2012 to \$27,552,973 in 2013. Partially offset by decreased revenue, the gross profit margin was 35% and 32% for 2013 and 2012, respectively.

Gross margin for concentrated apple juice and apple aroma remains stable of 20% in both 2013 and 2012.

Gross margin for concentrated kiwifruit juice and kiwifruit puree decreased from 50% in 2012 to 44% in 2013 primarily due to higher cost of fresh kiwi purchased in 2013 as compared to 2012.

Gross margin for concentrated pear juice increased from 29% in 2012 to 32% in 2013. The increase was mainly due to lower cost of raw materials for the current year than that of 2012.

Gross margin of fruit juice beverages increased from 34% in 2012 to 37% of 2013, primarily due to lower cost of packaging materials and auxiliary materials purchased in 2013 as compared to 2012.

Gross margin for fruits and vegetables was 55% and 49% for 2012 and 2013, respectively. The decrease was primarily due to lower selling price of fresh fruits and vegetables.

Gross margin for other products was 25% for 2012 and was 18% for 2013, respectively. Given the relatively low amount of production and sales of other products, their gross margin is expected to be unstable.

### Operating Expenses

The following table presents consolidated operating expenses and operating expenses as a percentage of revenue for 2013 and 2012, respectively:

	2013		2012	
	Amount	% of revenue	Amount	% of revenue
General and administrative	\$ 5,296,910	7%	\$ 4,409,055	4%
Selling expenses	4,058,784	5%	2,899,141	3%
Research and development	20,183	<1%	570,278	1%
Total operating expenses	<u>\$ 9,375,877</u>	<u>12%</u>	<u>\$ 7,878,474</u>	<u>8%</u>

Operating expenses increased to \$9.38 million for 2013 as compared to \$7.88 million for 2012.

General and administrative expenses increased \$0.9 million or 20% to \$5.3 million in 2013 from \$4.4 million in 2012. The general and administrative expense includes legal fees related to our litigation, payroll and our directors' and officers' insurance premium. The increase in general and administrative expenses was mainly due to depreciation for property, plant and equipment in Yingkou that has not been used during the current year charged into general and administrative expenses for approximately \$792,400.

Selling expenses increased to \$4.1 million in 2013 as compared to \$2.9 million for 2012, an increase of 41% or \$1.2 million. The increase in selling expenses mainly due to an increase in the payroll and related expenses as a result of an increase in our headcount to the handle the increased sales of fruit juice beverages.

During 2013 and 2012, the Company incurred \$20,183 and \$570,278 research and development expense. In 2013, the Company suspended four research and development agreements with research institutions and currently intends to concentrate on building up an internal research and development team.

### Income from Operations

Income from operations decreased from \$25.2 million for 2012 to \$18.2 million in 2013, representing a decrease of \$7.0 million or 28%. The decrease of income from operations was mainly due to 23% decrease in revenue, 26% decrease in cost of goods sold combined with 19% increase in total operating expenses.

### Other Income (Expense), Net

Other expense, net was \$0.4 million for 2013, compared to other income of \$0.9 million for 2012. A government subsidy is recognized only when the Company complies with any conditions attached to the grant and there is reasonable assurance that the grant will be received. Subsidy income decreased to \$1,295,949 in 2013 from \$1,908,802 in 2012. Subsidy income received as a result of the value-added tax rebates provided on our exports was approximately \$888,000 and \$1,289,000 for the years ended December 31, 2013 and 2012. The Company also received other miscellaneous government subsidies, such as energy saving, export, technology, intellectual property and others, of approximately \$408,000 and \$620,000 during the years ended December 31, 2013 and 2012.

Interest expenses increased from \$888,574 in 2012 to \$1,983,831 in 2013, mainly due to increased amount of short-term bank loans, notes payable to banks and long-term loan from related party.

Pursuant to an agreement between the Company and Shaanxi Xirui Co., Ltd., the former owner of Shaanxi Qiyiwangguo Modern Organic Food., Co., Ltd., the Company agreed to pay RMB 3 million (approximately \$481,000) as additional consideration relating to the acquisition of 21.05% in Shaanxi Qiyiwangguo Modern Organic Food., Co., Ltd. Since the agreement was entered into subsequent to the measurement date to record the fair value of the acquisition, this payment has been recorded as an expense in the accompanying consolidated statement of comprehensive income for the year ended December 31, 2012. There was no transaction in similar nature during 2013.

#### Income Taxes

Our provision for income taxes decreased from \$6.9 million for 2012 to \$4.6 million in 2013. The decrease resulted from in income before taxes generated in 2013 as compared to that in 2012. Our consolidated income tax rate was 26% and 26% for the year ended December 31, 2013 and 2012, respectively.

#### Noncontrolling Interests

As of December 31, 2013, SkyPeople (China) held a 91.15% interest in Shaanxi Qiyiwangguo and Pacific held a 99.78% interest in SkyPeople (China). Net income attributable to noncontrolling interests, which is deducted from our net income, was \$1.0 million for both 2013 and 2012.

#### Net Income

Net income decreased to \$12.2 million for fiscal 2013 from \$18.2 million for fiscal 2012. The reasons for the decrease are described elsewhere in this report.

#### Liquidity and Capital Resources

As of December 31, 2013, we had cash, cash equivalents and restricted cash of \$74.1 million, a decrease of \$3.5 million, or 4.5%, from \$77.6 million as of December 31, 2012. We believe that projected cash flows from operations, anticipated cash receipts, cash on hand, and trade credit will provide the necessary capital to meet our projected operating cash requirements for at least the next 12 months, which does not take into account any potential expenditures related to the potential expansion of our current production capacity. Our restricted cash of \$7,216,782 as of December 31, 2013 was used as collateral to obtain a short-term note payable.

Our working capital has historically been generated from our operating cash flows, advances from our customers and loans from bank facilities. Our working capital was \$71.9 million as of December 31, 2013, a decrease of \$31 million or 30% as compared to \$102.9 million as of December 31, 2012, mainly due to a decrease in cash, accounts receivable and inventories, which was coupled by increased amount short-term bank loans and note payables to banks.

During 2013, our operating activities generated net cash inflow of \$24.9 million, an increase of \$5.2 million or 26% as compared to \$19.7 million net cash inflow of 2012. The increase was mainly due to \$16,203,666 or 31% decrease in accounts receivable and \$2,829,649 or 40% decrease in inventory. During 2013, the Company used \$11,096,289 to repay its accounts payables, comparably during 2012, the increasing of accounts payables contributed \$11,370,240 to the Company's operating activities.

Net cash used in investing activities were \$60,008,684 and \$8,751,032 for fiscal 2013 and 2012, respectively. Historically, we financed our capital expenditures and other operating expenses through operating cash flows and bank loans. As of December 31, 2013, the balance of short-term bank loans totaled \$22.6 million, with interest rates ranging from 3.2% to 9.225% per annum. Of this amount, approximately \$15.4 million was secured by the certain accounts receivable, building, machinery and land usage rights of SkyPeople (China), Huludao Wonder and Yingkou.

On February 18, 2013, SkyPeople (China) entered into a loan agreement with SkyPeople International Holdings Group Limited (the "Lender"). The Lender indirectly holds 50.2% interest in the Company. Mr. Yongke Xue ("Y. K. Xue"), the Chairman of the board of directors of the Company (the "Board"), and Mr. Hongke Xue, the Chief Executive Officer of the Company and director of the Board, indirectly and beneficially own 80.0% and 9.4% of equity interest in the Lender, respectively. Pursuant to the Agreement, the Lender agrees to extend to the Company a one-year unsecured term loan with a principal amount of \$8.0 million at an interest rate of 6% per annum. During 2013, the Company received \$8.0 million from the Lender.

On August 30, 2010, we closed the public offering of 5,181,285 shares of our common stock at a price of \$5.00 per share for approximately \$25.9 million. We received an aggregate of approximately \$24 million in net proceeds after deducting underwriting discounts and commissions and offering expenses. We plan to use the proceeds of the offering on various capital project. As of December 31, 2012, we had spent approximately \$15.7 million from the net proceeds of the offering on these projects. For more details related to our capital projects please see the section entitled “Capital Projects” under “Item 7, Management Discussion and Analysis of Financial Conditions and Results of Operations.”

#### **ITEM 7A – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not applicable.

#### **ITEM 8 – FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA**

The information called for by this item is included in the Company's consolidated financial statements beginning on page F-1 of this Annual Report on Form 10-K.

#### **ITEM 9 – CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE**

##### **Changes in Registrant’s Certifying Accountant**

None.

## ITEM 9A – CONTROLS AND PROCEDURES

### Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our CEO and CFO, has evaluated the effectiveness of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) and 15d-15(e) of the Exchange Act, as of December 31, 2013.

The term "disclosure controls and procedures" as defined in Rules 13a-15(e) and 15d-15(e) means controls and other procedures of the Company that are designed to ensure that information required to be disclosed by a company in reports, such as this report, that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by a company in the reports that it files or submits under the Exchange Act is accumulated and communicated to the company's management, including its principal executive and principal financial officers, as appropriate to allow timely decisions regarding required disclosure. Management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving their objectives, and management necessarily applies its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

During fiscal year 2013, we adopted various procedures to improve our disclosure controls and procedures as well as our internal controls over financial reporting. Such procedures include procedures related to sales, purchase, inventory, fixed assets purchase, monthly closing procedures as well as transparency enhancing procedures governing related party transactions. Pursuant to our policy and procedures, related parties to a transaction with the Company are required to disclose and confirm any affiliation at the end of the relevant quarter end.

Based on that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of December 31, 2013.

### Management's Report on Internal Controls Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is designed to provide reasonable assurances regarding the reliability of financial reporting and the preparation of our consolidated financial statements in accordance with U.S. GAAP. Our accounting policies and internal controls over financial reporting, established and maintained by management, are under the general oversight of the Board's audit committee.

Our internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP, and that receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree or compliance with the policies or procedures may deteriorate.

Management assessed our internal control over financial reporting as of December 31, 2013. The standard measures adopted by management in making its evaluation are the measures in the Internal-Control Integrated Framework published by the Committee of Sponsoring Organizations of the Treadway Commission.

Based on that assessment, our CEO and CFO concluded that our internal control over financial reporting as of December 31, 2013 were effective.

The Company has been constantly making efforts in implementing our existing and newly adopted procedures to improve our disclosure controls and internal controls over financing reporting.

#### Changes to Internal Control over Financial Reporting

There has been no change to our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

### ITEM 9B – OTHER INFORMATION

None.

## PART III

### ITEM 10 – DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

#### Directors and Executive Officers

The following table sets forth as of March 25, 2014 the names, positions and ages of our current executive officers and directors. Our directors serve until the next annual meeting of shareholders or until their successors are elected and qualified. Our officers are elected by the Board and their terms of office are, except to the extent governed by an employment contract, at the discretion of the Board.

Name of Current Director and/or Executive Officer	Age	Position(s)
Yongke Xue	47	Chairman of Board of Directors
Hongke Xue (1)	41	Chief Executive Officer, Director
Xin Ma (2)	37	Chief financial officer
Guolin Wang (3) (4)	50	Director
John W. Smagula (3) (4)	43	Director
Norman Ko (3) (4)	49	Director
Baosheng Lu (5)	51	Director
Tao Wang (5)	38	Director

(1) Hongke Xue was appointed chief executive officer and elected as director on February 18, 2013

(2) Xin Ma was appointed chief financial officer on April 30, 2012

(3) Member of the audit committee

(4) Member of the compensation committee

(5) Member of the evaluation committee

Yongke Xue, Chairman of Board of Directors

Mr. Xue served as our chief executive officer from February 26, 2008 to February 18, 2013. Mr. Yongke Xue has served as the director of SkyPeople (China) since December 2005. Mr. Xue served as the general manager of Hede from December 2005 to June 2007. Prior to that, he served as the business director of the investment banking division of Hualong Securities Co., Ltd. from April 2001 to December 2005. He also acted as the vice general manager of Shaanxi Huaye Foods Co., Ltd. from July 1998 to March 2001. Mr. Xue graduated from Xi'an Jiaotong University with an MBA in 2000. Mr. Xue graduated with a Bachelor's degree in Metal Material & Heat Treatment from National University of Defense Technology in July 1989. The Board believes that Mr. Xue's vision, leadership and extensive knowledge of the Company is essential to the development of its strategic vision.

### Hongke Xue

Mr. Xue Hongke is a brother of Mr. Xue Yongke, and has been serving as our chief executive officer since February 18, 2013 and the chairman of the Board of Directors and the Chief Executive Officer of SkyPeople Juice Group Co., Ltd., a 99.78% indirectly owned operating subsidiary of the Company ("SkyPeople (China)"), since 2003. The Company is a holding company and conducts its business substantially through SkyPeople (China) and its subsidiaries and branch officers in China. Prior to that, Mr. H. K. Xue served as the Chief Executive Officer of Tangshan Fengyuan Metal Products, a sino-foreign joint venture, from March 2002 to March 2003. Prior to that, he served as the general manager of Baoji Industrial Products Co., Ltd., a wholly foreign owned enterprise, from April 2001 to March 2002, and deputy general manager of Shaanxi DePu Industry and Trade Co., Ltd. from October 1997 to April 2001. H. K. Xue received a bachelor degree in business management from Lanzhou University of Finance and Economics in July 1995. H. K. Xue's experience in management and corporate development and his experience with fruit juice industry, the development and sale of products will enable him to provide effective leadership to continue to grow the Company's business. The Board believes that Mr. Hongke Xue's experience in the Company's business operations are crucial to the success of the Company.

### Xin Ma

Mr. Ma has been serving as our Chief Financial Officer since April 30, 2012. Before that he served as the Company's Vice President, Finance, responsible for the financial and accounting management of the Company reporting to the Company's Chief Financial Officer. From March 28, 2011 to December 29, 2011, Mr. Ma served as the Chief Financial Officer of Universal Solar Technology, Inc., a U.S. reporting company based in China. From January 2006 to March 2011, Mr. Ma served as the Vice President of Kiwa Bio-Tech Products Group Corporation, a U.S. reporting company based in China. Mr. Ma received a MSc. in Management in 2005 and a MSc. in Finance in 2006 from the University of Leicester in England. There is no family relationship between Mr. Ma and any of the Company's directors and officers. The Board believes that Mr. Ma's strong experience in accounting and financial reporting is important to the Company since the Company is listed in the U.S.

### Guolin Wang, Director

Mr. Wang has been serving as one of our directors since April 7, 2008. Mr. Wang has served as a director of SkyPeople (China) since October 2005. Since 1996 he has been a professor in the Finance Department of the Management School and in the Economics and Finance School of Xi'an Jiaotong University. He previously served as the director and chairman of Xi'an Changtian Environmental Protection Engineering Co., Ltd. from February 2006 to June 2007. Mr. Wang graduated with a Bachelor of Science in Electronics & Telecommunication from Xi'an Jiaotong University in July 1983. In July 1983, he attained a Master's degree in Management Science and Engineering. He graduated with a Doctorate degree in Management and Science and Engineering from Xi'an Jiaotong University's School of Economics & Finance in 2006. The Board believes that Mr. Wang's strong experience in engineering is important to the Company's business operations.

### John W. Smagula, Director

Mr. Smagula has been serving as one of our directors since June 28, 2010. Since June 2003, Mr. Smagula has served as Director of Asian Programs at Temple University Beasley School of Law in Philadelphia. From 2000 to 2003 he taught law at Zhongshan, Tsinghua and Sichuan Universities in China through fellowships from the Yale-China Association and the Ford Foundation. Prior to that, from March 1997 to May 2000, he was a corporate attorney at Paul, Weiss, Rifkind, Wharton & Garrison in New York and Hong Kong. He is also the owner and founder of Crossings Tea Company. Mr. Smagula earned his B.A. in International Relations from Pomona College in 1992, his J.D. from Washington University School of Law in St. Louis in 1995, and his M.S. in Education from Temple University in 2007. The Board believes that Mr. Smagula's strong U.S. capital market experience is important to the Company's risk assessment and capital market decisions.

#### Norman Ko, Director

Mr. Ko has been serving as one of our directors and chairman of the audit committee and compensation committee since April 25, 2008. Mr. Ko has been a partner of Smith Mandel & Associates, LLP, a certified public accounting firm in Los Angeles, since July 2007. Mr. Ko earned a Master of Business Administration from the University of San Francisco in 1989 and a Bachelor of Science from York University in Canada in 1987. He is a member of the American Institute of Certified Public Accountants and a member of the California Society of Certified Public Accountants. The Board believes that Mr. Ko's accounting experience is important to the Company's internal controls and decision-making process.

#### Baosheng Lu, Director

Mr. Lu has been serving as one of our directors since November 7, 2011. He has been serving as Director of Jiangsu Office of Beijing Huashen (Zhongshen) Accounting Co., Ltd. since November 2011. Mr. Lu served as a Manager of Shanghai Donghua (Dongshen) Accounting Co., Ltd. from 2000 through 2010. Mr. Lu earned a Master of Law from Chinese Academy of Social Science in 2003 specializing in Civil and Commercial Law, and a Bachelor of Accounting from South Western University of Finance and Economics in 1989. Mr. Lu is a licensed CPA in China with 20 years of experience. He has assisted around 20 companies in going public in China and participated in the financial auditing and project auditing for a couple of large state-owned enterprises. He is also a Deputy Secretary of Shaanxi Western Development Fund and holds an independent director certificate granted jointly by China Securities Association and Shanghai National Accounting Institute. The Board believes that Mr. Lu's extensive knowledge and experience in accounting is important to the Company's internal controls and financial reporting.

#### Tao Wang

Mr. Wang has been serving as one of our directors since November 7, 2011. Tao Wang has been a senior legal counsel at Shaanxi Silkroad Law Firm since October 2011. He was an associate attorney of Shaanxi Dongrui Law Firm from July 2007 to September 2011. He worked as a Human Resources supervisor for Shaanxi Tianju Investment Group Ltd. from August 2004 to July 2007. Mr. Wang obtained his LL.B. degree from the Xi'an University of Finance and Economics in July 2000 and is a licensed attorney in China. Mr. Wang has litigated a large number of cases in China. He has also advised a number of merger and acquisition as well as private equity transactions in recent years. The Board believes that Mr. Wang's knowledge and experience in Chinese laws is important to the Company's risk assessment and capital market decisions.

### **Section 16(a) Beneficial Ownership Reporting Compliance**

Section 16(a) of the Exchange Act, requires that directors, certain officers of the Company and ten percent shareholders file reports of ownership and changes in ownership with the Commission as to the Company's securities beneficially owned by them. Such persons are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file.

Mr. John Smagula was elected a director to the Company's board of directors on June 28, 2010, and a Form 3 was filed to report the event on October 6, 2010.

Messrs. Tao Wang and Baosheng Lu were elected directors to the Company's board of directors on November 7, 2011, a Form 3 was filed by each of them on December 19, 2011 to report the event.

Mr. Hongke Xue was elected a director to the Company's board of directors on February 18, 2013, and a Form 3 was filed to report the event on February 22, 2013.

On May 4, 2011, Spring Liu, our former chief financial officer, filed a Form 4 to report various transactions of the Company's common stock held by her spouse occurred between January 2010 through August 2010. On February 28, 2012, Ms. Liu returned the profit from such trades in the aggregate amount of \$8,452 to the Company. Ms. Liu resigned from her position as the Company's chief financial officer on September 21, 2011. A Form 4 has not been filed to report Ms. Liu's exit from Section 16 obligations.

Based solely on its review of copies of such forms received by the Company, or on written representations from certain reporting persons, the Company believes that, other than as described above, all Section 16(a) filing requirements applicable to its officers, directors and greater than ten percent shareholders were complied with during the fiscal year ended December 31, 2013.

### **Code of Ethics**

We have adopted a code of business conduct and ethics that applies to all of our employees, officers and directors, including those officers responsible for financial reporting. Our code of business conduct and ethics is available on our website at [www.skypeoplefruitjuice.com](http://www.skypeoplefruitjuice.com) and may be found by first clicking on “Investors,” then “Corporate Governance” and then “Governance Documents.” We intend to disclose any amendments to the code, or any waivers of its requirements, on our website.

### **Committees of the Company’s Board of Directors**

The Board held four regularly scheduled and special meetings during fiscal year 2013. All of the directors attended (in person or by telephone) all of the Board meetings and any committees of the Board on which they served during the fiscal year. Directors are expected to use their best efforts to be present at the shareholders annual meeting. All of our directors attended the September 30, 2013 shareholders annual meeting.

#### **Audit Committee**

On April 25, 2008, the Board formed an audit committee. Messrs. Ko, Smagula and Wang currently serve on the audit committee, which is chaired by Mr. Ko. Each member of the audit committee is “independent” as that term is defined in the rules of the SEC and within the meaning of such term as defined under the rules of the NASDAQ Global Market. The Board has determined that each audit committee member has sufficient knowledge in financial and auditing matters to serve on the audit committee. The audit committee held four meetings during fiscal year 2013. Our Board has determined that Mr. Ko is an “audit committee financial expert,” as defined under the applicable SEC rules.

#### **Compensation Committee**

On April 25, 2008, the Board formed a compensation committee. During fiscal year 2010, Messrs. Ko, Wang and Fields served on the compensation committee, which was chaired by Mr. Ko. Each member of the compensation committee is “independent” as that term is defined in the SEC rules and within the meaning of such term as defined under the rules of the NASDAQ Global Market, a “nonemployee director” for purposes of Section 16 of the Exchange Act and an “outside director” for purposes of Section 162(m) of the Internal Revenue Code of 1986, as amended. Effective at our 2010 shareholders annual meeting held on June 28, 2010, Mr. Fields retired from his position on the Board. Mr. Smagula served on the compensation committee after that date. No interlocking relationship exists between the Board or the compensation committee and the Board or compensation committee of any other company, nor has any interlocking relationship existed during the last fiscal year. The compensation committee held one meeting during fiscal year 2013.

#### **Other Committees**

The Board may on occasion establish other committees, as it deems necessary or required. We do not currently have a standing nominating committee, or a committee performing similar functions. The full Board currently serves this function. Our directors believe that it is not necessary to have such committees, at this time, because the functions of such committees can be adequately performed by the Board. The Board will assess all candidates, whether submitted by management or shareholders, and make recommendations for election or appointment. There have been no material changes to the procedures by which security holders may recommend nominees to the Board.

## Compensation Committee Interlocks and Insider Participation

None of the Company's executive officers has served as a member of a compensation committee, or other committee serving an equivalent function, of any other entity whose executive officers serve as a director of the Company or member of the Company's compensation committee.

## Family Relationships

Mr. Yongke Xue, our chairman of board of directors, is the brother of Mr. Hongke Xue, our chief executive officer.

## ITEM 11 – EXECUTIVE COMPENSATION

### Compensation Discussion and Analysis

#### Compensation Objectives

We operate in a highly competitive and rapidly changing industry. The key objectives of our executive compensation programs are to:

- attract, motivate and retain executives who drive our success and industry leadership; and
- provide each executive, from vice president to CEO, with a base salary on the market value of that role, and the individual's demonstrated ability to perform that role.

#### 2011 Stock Incentive Plan

On August 18, 2011, upon board recommendation, at the annual meeting our the shareholders, our shareholder approved a Stock Incentive Plan (the "Plan"). The purpose of the Plan is to provide an additional inducement for selected employees, consultants and non-employee directors who provide services to the Company, to reward such selected individuals by providing an opportunity to acquire incentive awards, and to provide a means through which we may attract able persons to enter the employment of or engagement with the Company. Up to 1,000,000 shares of Stock (subject to adjustment in the event of Stock splits and other similar events) may be issued pursuant to awards granted under the Plan.

The Plan provides for the grant of stock options, restricted stock, restricted stock units, stock appreciation rights and incentive compensation awards paid in cash or Stock to selected employees, consultants and non-employee directors of the Company. Options granted under the Plan may be "incentive stock options" as defined in Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), or nonqualified options, and will be designated as such. At present, there are approximately 400 employees and consultants and three non-employee directors eligible to participate in the Plan. The Plan will be administered by the Board of Directors or a committee of the Board. The administrator will have complete discretion to select the optionees and to establish the terms and conditions of each option, subject to the provisions of the Plan.

We believe that the future success of the Company depends, in large part, upon the ability of the Company to maintain a competitive position in attracting, retaining and motivating key personnel. As of the date of this report, no decisions have been made regarding future awards under the Plan.

#### What Our Compensation Program is Designed to Reward

Our compensation program m is designed to reward each individually named executive officer's contribution to the advancement of our overall performance and execution of our goals, ideas and objectives. It is designed to reward and encourage exceptional performance at the individual level in the areas of organization, creativity and responsibility while supporting our core values and ambitions. This in turn aligns the interest of our executive officers with the interests of our shareholders, and thus with our interests.

## Determining Executive Compensation

The Board's compensation committee reviews and approves the compensation program for executive officers annually after the close of each year. Reviewing the compensation program at such time allows the compensation committee to consider the overall performance of the past year and the financial and operating plans for the upcoming year in determining the compensation program for the upcoming year.

Our compensation program only contains base annual salary in 2013 and 2012.

A named executive officer's base salary is determined by an assessment of his sustained performance against individual job responsibilities, including, where appropriate, the impact of his performance on our business results, current salary in relation to the salary range designated for the job, experience and mastery, and potential for advancement. The compensation committee also annually reviews market compensation levels with comparable jobs in the industry to determine whether the total compensation for our officers remains in the targeted median pay range.

## Role of Executive Officers in Determining Executive Compensation

The compensation committee determines the compensation for the CEO, which is based on various factors, such as level of responsibility and contributions to our performance. The CFO recommends the compensation for our executive officers (other than the compensation of the CEO) to the compensation committee. The compensation committee reviews the recommendations made by the CEO and determines the compensation of the CFO and the other executive officers.

## Employment Agreements

We do not currently have an employment agreement with any of our executive officers.

## Summary Compensation of Named Executive Officers

Our executive officers do not receive any compensation for serving as executive officers of Pacific or us. However, except for our former CEO, the remaining executive officers are compensated by and through SkyPeople (China). Our former CEO, Yongke Xue, has not received any compensation from us or any of our subsidiaries for his services in the past three years. The following table sets forth information concerning cash and non-cash compensation paid by SkyPeople (China) to our named executive officers for 2013 and 2012, respectively.

<b>Name and Principal Position</b>	<b>Year Ended</b>	<b>Salary (\$)</b>	<b>Bonus (\$)</b>	<b>Stock Awards</b>	<b>Option Awards</b>	<b>Non-Equity Incentive Plan Compensation (\$)</b>	<b>Non-Qualified Deferred Compensation Earnings (\$)</b>	<b>All Other Compensation (\$)</b>	<b>Total (\$)</b>
Hongke Xue (1)	12/31/2013	-	-	-	-	-	-	-	-
Hongke Xue	12/31/2012	-	-	-	-	-	-	-	-
Yongke Xue	12/31/2013	-	-	-	-	-	-	-	-
Yongke Xue	12/31/2012	\$ 200,000	-	-	-	-	-	-	\$ 200,000
Xin Ma (2)	12/31/2013	\$ 58,000	-	-	-	-	-	-	\$ 58,000
Xin Ma	12/31/2012	\$ 58,000	-	-	-	-	-	-	\$ 58,000

(1) Mr. Yongke Xue resigned as CEO of the Company on February 18, 2013 and Mr. Hongke Xue was appointed the CEO of the Company at the same time.

### Outstanding equity awards at December 31, 2013

The following table presents certain information concerning outstanding equity awards held by each of our named executive officers at December 31, 2013.

Name	Option Awards				
	Number of securities underlying unexercised options (#) exercisable	Number of securities underlying unexercised options (#) unexercisable	Equity incentive plan awards: number of securities underlying unexercised unearned options (#)	Option exercise price (\$)	Option expiration date
Yongke Xue	-	-	-		
Hongke Xue	-	-	-		
Xin Ma	-	-	-		
Cunxia Xie (1)	-	-	-		
Spring Liu (2)	100,000	-	-	4.50	December 9, 2014

(1) Ms. Cunxia Xie was the CFO of the Company from September 21, 2011 to April 30, 2012.

(2) Ms. Spring Liu resigned from her position as the CFO of the Company on September 21, 2011.

### Compensation of Directors

Our directors did not receive compensation for their service on the board of directors for 2006 and 2007.

Starting in 2008, we began (i) paying each of our nonemployee directors residing in the United States an annual fee of \$25,000, (ii) reimbursing our directors for actual, reasonable and customary expenses incurred in connection with the performance of their duties as board members and (iii) paying the chairman of our audit committee a fee of \$25,000 for his or her service as chairman.

In February 2014, the Board of Directors adopted that there would be no change to the compensation to each of our directors in 2014 as compared to 2013. The following table sets forth information concerning cash and non-cash compensation paid by us to our directors during 2013.

Name	Fees Paid in Cash (\$)	Stock Awards	Option Awards	Non-Equity Incentive Plan Compensation (\$)	Non-Qualified Deferred Compensation Earnings (\$)	All Other Compensation (\$)	Total (\$)
Yongke Xue	—	—	—	—	—	—	—
Hongke Xue	—	—	—	—	—	—	—
Guolin Wang	—	—	—	—	—	—	—
Norman Ko	\$ 39,600	—	—	—	—	—	\$ 36,000
John Smagula	\$ 39,600	—	—	—	—	—	\$ 36,000
Tao Wang	\$ 8,850	—	—	—	—	—	\$ 8,030
Baosheng Lu	\$ 8,850	—	—	—	—	—	\$ 8,030

## ITEM 12 – SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

Set forth below is our equity compensation plan information:

Plan category	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
	(a)	(b)	(c)
Equity compensation plans approved by security holders (1)	-	N/A(2)	1,000,000
Equity compensation plans not approved by security holders (3)	175,000	\$ 4.50	-
Total	175,000	N/A	1,000,000

- (1) Consists of Stock Incentive Plan, which was approved by the Company's annual meeting of shareholders on August 18, 2011.
- (2) The exercise price of options granted and stock appreciation rights under the Plan may be no less than the fair market value of the Company's Stock on the date of grant. Since no options have been granted under the plan, the weighted-average exercise price is not available.
- (3) Consists of a warrant held by our former CFO, Ms. Spring Liu exercisable for up to 100,000 shares of the Company's Common Stock at an exercise price of \$4.50 per share. These warrants will expire on December 9, 2014; and warrants to purchase 75,000 shares of the Company's common stock at the exercise price of \$4.50 during the period from July 25, 2011 to July 25, 2014 as partial compensation to HCI on July 25, 2011, pursuant to Investor Relations Consulting Agreement with Hayden Communications International, Inc. ("HCI") dated December 1, 2009.

### Security Ownership of Certain Beneficial Owners and Management

The following table provides information concerning beneficial ownership of our capital stock as of March 28, 2014 by:

- each shareholder or group of affiliated shareholders who owns more than 5% of our outstanding capital stock;
- each of our named executive officers;
- each of our directors; and
- all of our directors and executive officers as a group.

The following table lists the number of shares and percentage of shares beneficially owned based on 26,661,499 shares of our Common Stock outstanding as of March 28, 2014.

Beneficial ownership is determined in accordance with the SEC rules, and generally includes voting power and/or investment power with respect to the securities held. Shares of Common Stock subject to options and warrants currently exercisable or exercisable within 60 days of March 28, 2014 or issuable upon conversion of convertible securities which are currently convertible or convertible within 60 days of March 28, 2014 are deemed outstanding and beneficially owned by the person holding those options, warrants or convertible securities for purposes of computing the number of shares and percentage of shares beneficially owned by that person, but are not deemed outstanding for purposes of computing the percentage beneficially owned by any other person. Except as indicated in the footnotes to this table, and subject to applicable community property laws, the persons or entities named have sole voting and investment power with respect to all shares of our Common Stock shown as beneficially owned by them.

Unless otherwise indicated in the footnotes, the principal address of each of the shareholders below is c/o SkyPeople Fruit Juice, Inc., 16/F, China Development Bank Tower, No. 2 Gaoxin 1st Road, Xi'an, Shaanxi Province, PRC 710075.

Name of Beneficial Owner	Shares Beneficially Owned	
	Number	Percent
Directors, Named Executive Officers and 5% Shareholders		
<b>Yongke Xue (1)</b>	13,375,639(2)	50.2%
<b>Hongke Xue (1)</b>	—	—
<b>Morgan Stanley (3)</b>	2,340,747	8.8%
<b>Xin Ma</b>	—	—
<b>Guolin Wang</b>	—	—
<b>Norman Ko</b>	2,820	*
<b>John Smagula</b>	—	—
<b>Tao Wang</b>	—	—
<b>Baosheng Lu</b>	—	—
<b>All current directors and executive officers as a group (8 persons)</b>	13,378,459	50.2%

- (1) Consists of 13,375,639 owned by Golden Dawn International Limited and Everlasting Rich Limited, both wholly-owned subsidiaries of SkyPeople International Holdings Group Limited (“SP International”), a Cayman Islands company. Yongke Xue and Hongke Xue indirectly own 80.0% and 9.4% equity interests in SP International, respectively. SP International is controlled by Yongke Xue, the Chairman of the Board of Directors of the Company, who indirectly and beneficially owns 80% equity interest in SP International and also serves as the sole director of SP International.
- (2) Includes 1,467,078 shares owned by China Tianren Organic Food Holding, an indirect wholly-owned subsidiary of SP International. Lin Bai is the sole director of China Tianren Organic Food Holding and joined a Schedule 13D filed with SEC on January 4, 2013 in which Lin Bai claimed beneficial ownership of such shares. However, due to its 100% indirect ownership of China Tianren Organic Food Holding, the Company believes that SP International and not Lin Bai is the beneficial owner of such shares.
- (3) Information based solely on Amendment No. 2 to Schedule 13G filed with the SEC on January 28, 2014. The address of Morgan Stanley is 1585 Broadway, New York, New York, 10036, (212) 761-4000

\* Less than one percent.

### ITEM 13 – CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

Details of related party transactions, see Note 9 “Related Party Transaction” in notes to consolidated financial statements.

#### Director Independence

We currently have seven directors. Five of our current directors, Messrs. Guolin Wang, Norman Ko, John Smagula, Tao Wang and Baosheng Lu are determined by our board as “independent directors” as defined under the rules of the NASDAQ Global Market, constituting a majority of independent directors of the Board as required by the rules of the NASDAQ Global Market.

### ITEM 14 – PRINCIPAL ACCOUNTING FEES AND SERVICES

The following table shows the fees that we paid or accrued for audit and other services for fiscal years 2013 and 2012. All of the services described in the following fee table were approved in conformity with the audit committee’s pre-approval process.

	2013	2012
Audit Fees	\$ 144,000	\$ 124,000
Tax Fees	6,500	4,500
Audit-Related Fees	-	-
Total	\$ 150,500	\$ 128,500

**Audit Fees**

The amounts set forth opposite “Audit Fees” above reflect the aggregate fees billed or billable by Paritz & Company, P.A. (“Paritz”) for professional services rendered for the audit of our fiscal 2013 and 2012 annual financial statements and for the review of the financial statements included in our quarterly reports.

**Tax Fees**

The amounts set forth opposite “Tax Fees” above reflect the aggregate fees billed for fiscal 2013 and 2012 for professional services rendered for tax compliance and return preparation. The compliance and return preparation services consisted of the preparation of original and amended tax returns and support during the income tax audit or inquiries.

**Audit-Related Fees**

Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company’s consolidated financial statements and are not reported under “Audit Fees”.

The Board audit committee’s policy is to pre-approve all audit services and all non-audit services that our independent accountants are permitted to perform for us under applicable federal securities regulations. The audit committee’s policy utilizes an annual review and general pre-approval of certain categories of specified services that may be provided by the independent accountant, up to pre-determined fee levels. Any proposed services not qualifying as a pre-approved specified service, and pre-approved services exceeding the pre-determined fee levels, require further specific pre-approval by the audit committee. The audit committee has delegated to the Chairman of the audit committee the authority to pre-approve audit and non-audit services proposed to be performed by the independent accountants. Our audit committee was established in April 2008. Therefore, all the services provided by Paritz in fiscal 2013 and 2012 were pre-approved by the audit committee.

**PART IV****ITEM 15 – EXHIBITS AND FINANCIAL STATEMENT SCHEDULES****(a) (1) FINANCIAL STATEMENTS:**

**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the Board of Directors and Shareholders of  
SkyPeople Fruit Juice, Inc.

We have audited the accompanying consolidated balance sheets of SkyPeople Fruit Juice, Inc. as of December 31, 2013 and 2012 and the related consolidated statement of comprehensive income, stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SkyPeople Fruit Juice, Inc. as of December 31, 2013 and 2012 and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

/s/ Paritz & Company, P.A.

Hackensack, New Jersey

Transferred from other assets to property, plant and equipment and construction in process	\$ 355,836	\$ 5,221,925

The accompanying notes are an integral part of these consolidated financial statements.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**1. CORPORATE INFORMATION**

SkyPeople Fruit Juice, Inc. (“SkyPeople” or the “Company”), formerly known as Entech Environmental Technologies, Inc. (“Entech”) and Cyber Public Relations, Inc. (“Cyber Public Relations”), was initially incorporated on June 29, 1998 under the laws of the State of Florida.

The Company, through its wholly owned subsidiary Pacific Industry Holding Group Co., Ltd. (“Pacific”) and SkyPeople Juice International Holding (HK) Ltd. (“SkyPeople International”) is a holding company for SkyPeople Juice Group Co., Ltd. (“SkyPeople (China)”), a company organized under the laws of the People’s Republic of China (“PRC”), in which SkyPeople International holds a 99.78% ownership interest (which was increased from 99% on December 7, 2010), SkyPeople (China) is engaged in the business of producing and selling a wide variety of fruit products, including fruit juice concentrates, fruit juice beverages, and fruit-related products in the PRC and overseas market.

All activities of the Company are principally conducted by subsidiaries operating in the PRC.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Preparation**

These financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America.

The Company’s functional currency is the Chinese Renminbi (RMB); however, the accompanying consolidated financial statements have been translated and presented in United States Dollars (USD).

The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant inter-company accounts and transactions have been eliminated.

Certain amounts of prior year were reclassified to conform with current year presentation.

**Use of Estimates**

The Company’s consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and this requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenue and expenses during the reporting period. The significant areas requiring the use of management estimates include, but not limited to, the allowance for doubtful accounts receivable, estimated useful life and residual value of property, plant and equipment, provision for staff benefit, valuation of change in fair value of warrant liability, recognition and measurement of deferred income taxes and valuation allowance for deferred tax assets. Although these estimates are based on management’s knowledge of current events and actions management may undertake in the future, actual results may ultimately differ from those estimates.

**Impairment of Long-Lived Assets**

In accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 360-10, Accounting for the Impairment or Disposal of Long-Lived Assets, long-lived assets, such as property, plant and equipment and purchased intangibles subject to amortization are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value of an asset may not be recoverable, or it is reasonably possible that these assets could become impaired as a result of technological or other industrial changes. The determination of recoverability of assets to be held and used is made by comparing the carrying amount of an asset to future undiscounted cash flows to be generated by the assets.

If such assets are considered to be impaired, the impairment to be recognized is measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less cost to sell. During the reporting periods there was no impairment loss of long-lived assets recognized.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**Fair Value of Financial Instruments**

On January 1, 2009, the Company adopted FASB Accounting Standard Codification Topic on Fair Value Measurements and Disclosures (“ASC 820”), which defines fair value, establishes a framework for measuring fair value in GAAP, and expands disclosures about fair value measurements. ASC 820 does not require any new fair value measurements, but provides guidance on how to measure fair value by providing a fair value hierarchy used to classify the source of the information. In February 2008, FASB deferred the effective date of ASC 820 by one year for certain non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). The Company adopted the provisions of ASC 820, except as it applies to those non-financial assets and non-financial liabilities for which the effective date has been delayed by one year.

ASC 820 establishes a three-level valuation hierarchy of valuation techniques based on observable and unobservable input, which may be used to measure fair value and include the following:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Input other than Level 1 that is observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other input that is observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable input that is supported by little or no market activity and that is significant to the fair value of the assets or liabilities.

Classification within the hierarchy is determined based on the lowest level of input that is significant to the fair value measurement.

The Company has no assets or liabilities measured at fair value or recurring basis.

**Earnings Per Share**

Under ASC 260-10, Earnings Per Share, basic EPS excludes dilution for Common Stock equivalents and is calculated by dividing net income available to common stockholders by the weighted-average number of Common Stock outstanding for the period. Our Series B Convertible Preferred Stock is a participating security. Consequently, the two-class method of income allocation is used in determining net income available to common stockholders.

Diluted EPS is calculated by using the treasury stock method, assuming conversion of all potentially dilutive securities, such as stock options and warrants. Under this method, (i) exercise of options and warrants is assumed at the beginning of the period and shares of Common Stock are assumed to be issued, (ii) the proceeds from exercise are assumed to be used to purchase Common Stock at the average market price during the period, and (iii) the incremental shares (the difference between the number of shares assumed issued and the number of shares assumed purchased) are included in the denominator of the diluted EPS computation. The numerators and denominators used in the computations of basic and diluted EPS are presented in the following table.

	<b>Year Ended December 31,</b>	
	<b>2013</b>	<b>2012</b>
NUMERATOR FOR BASIC AND DILUTED EPS		
Net income (numerator for Diluted EPS)	\$ 12,168,714	\$ 18,170,132
Net income allocated to Preferred Stock holders	-	(377,718)
Net income allocated to Common Stock holders	<u>12,168,714</u>	<u>17,792,414</u>
DENOMINATORS FOR BASIC AND DILUTED EPS		
Weighted average Common Stock outstanding	<u>26,661,499</u>	<u>26,107,264</u>
DENOMINATOR FOR BASIC EPS	<u>26,661,499</u>	<u>26,107,264</u>
Add: Weighted average Preferred Stock, as if converted	-	554,235
Add: Weighted average stock warrants outstanding	-	-
DENOMINATOR FOR DILUTED EPS	<u><u>26,661,499</u></u>	<u><u>26,661,499</u></u>

EPS - Basic	\$	<b>0.46</b>	\$	0.68
EPS - Diluted	\$	<b>0.46</b>	\$	0.68

F-7

---

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

The diluted earnings per share calculation for the year ended December 31, 2013 and 2012 did not include the warrants to purchase up to 175,000 shares of common stock, because their effect was anti-dilutive.

**Cash and Cash Equivalents**

Cash and cash equivalents included cash on hand and demand deposits placed with banks or other financial institutions, which are unrestricted as to withdrawal and use and with an original maturity of three months or less.

Deposits in banks in the PRC are not insured by any government entity or agency, and are consequently exposed to risk of loss. The Company believes the probability of a bank failure, causing loss to the Company, is remote.

**Restricted Cash**

Restricted cash consists of cash equivalents used as collateral to secure short-term notes payable.

**Accounts Receivable**

Accounts receivable are recognized and carried at the original invoice amount less an allowance for any uncollectible amount. We have a policy of reserving for uncollectible accounts based on our best estimate of the amount of probable credit losses in our existing accounts receivable. We extend credit to our customers based on an evaluation of their financial condition and other factors. We generally do not require collateral or other security to support accounts receivable. We perform ongoing credit evaluations of our customers and maintain an allowance for potential bad debts if required.

We determine whether an allowance for doubtful accounts is required by evaluating specific accounts where information indicates the customers may have an inability to meet financial obligations. In these cases, we use assumptions and judgment, based on the best available facts and circumstances, to record a specific allowance for those customers against amounts due to reduce the receivable to the amount expected to be collected. These specific allowances are re-evaluated and adjusted as additional information is received. The amounts calculated are analyzed to determine the total amount of the allowance. We may also record a general allowance as necessary.

Direct write-offs are taken in the period when we have exhausted our efforts to collect overdue and unpaid receivables or otherwise evaluate other circumstances that indicate that we should abandon such efforts.

The Company has not experienced any significant difficulty in collecting its accounts receivable in the past and is not aware of any financial difficulties being experienced by its major customers. Bad debt expense was \$160,418 and zero during the years ended December 31, 2013 and 2012, respectively. Our credit term for distributors with good credit history is from 30 days to 120 days. As of December 31, 2013 and 2012, accounts receivables of \$522,591 and zero have been outstanding for over 120 days.

**Inventories**

Inventories consist of raw materials, packaging materials (which include ingredients and supplies) and finished goods (which include finished juice in the bottling and canning operations). Inventories are valued at the lower of cost or market. We determine cost on the basis of the weighted average method. The Company periodically reviews inventories for obsolescence and any inventories identified as obsolete are reserved or written off. The Company recorded inventory markdown allowance of \$243,198 and zero for the year ended December 31, 2013 and 2012, respectively.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**Revenue Recognition**

The Company recognizes revenue in accordance with ASC 605, Revenue Recognition. Revenue from sales of products is recognized upon shipment or delivery to customers, provided that persuasive evidence of sales arrangements exist, title and risk of loss have been transferred to the customers, the sales amounts are fixed and determinable and collection of the revenue is reasonably assured. Customers have no contractual right to return products. Historically, the Company has not had any returned products. Accordingly, no provision has been made for returnable goods. The Company is not required to rebate or credit a portion of the original fee if it subsequently reduces the price of its product and the distributor still has rights with respect to that product.

**Shipping and Handling Costs**

Shipping and handling amounts billed to customers in related sales transactions are included in sales revenues and shipping expenses incurred by the Company are reported as a component of selling expenses. The shipping and handling expenses of \$1,591,749 and \$1,642,317 for 2013 and 2012, respectively, are reported in the Consolidated Statements of Income and Comprehensive Income as a component of selling expenses.

**Government Subsidies**

A government subsidy is recognized only when the Company complies with any conditions attached to the grant and there is reasonable assurance that the grant will be received.

The government subsidies recognized were \$1,295,949 and \$1,908,802 for the years ended December 31, 2013 and 2012, respectively, and are included in other income of the consolidated statements of comprehensive income.

**Common Stock Purchase Warrants and Other Derivative Financial Instruments**

The Company classifies as equity any contracts that require physical settlement or net-share settlement or provide a choice of net-cash settlement or settlement in the Company's own shares (physical settlement or net-share settlement) provided that such contracts are indexed to the Company's stock as defined in ASC 815-40 ("Contracts in Entity's Own Equity"). The Company classifies as assets or liabilities any contracts that require net-cash settlement (including a requirement to net cash settle the contract if an event occurs and if that event is outside the Company's control) or give the counterparty a choice of net-cash settlement or settlement in shares (physical settlement or net-share settlement). The Company assesses classification of common stock purchase warrants and other free standing derivatives at each reporting date to determine whether a change in classification between assets and liabilities is required.

**Stock-Based Compensation**

The Company recognizes compensation expense for stock-based compensation in accordance with ASC Topic 718. For employee stock-based awards, the Company calculates the fair value of the award on the date of grant using the Black-Scholes method for stock options and the quoted price of common stock for unrestricted shares; the expense is recognized over the service period for awards expected to vest. For non-employee stock-based awards, the fair value of the award on the date of grant is calculated in the same manner as employee awards, however, the awards are revalued at the end of each reporting period and the pro rata compensation expense is adjusted accordingly until such time the nonemployee award is fully vested, at which time the total compensation recognized to date equals the fair value of the stock-based award as calculated on the measurement date, which is the date at which the award recipient's performance is complete. The estimation of stock-based awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from original estimates, such amounts are recorded as a cumulative adjustment in the period estimates are revised. The Company considers many factors when estimating expected forfeitures, including types of awards, employee class, and historical experience.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**Advertising and Promotional Expense**

Advertising and promotional costs are expensed as incurred and are included in selling expenses. The Company incurred \$104,156 and \$135,817 in advertising and promotional costs for the years ended December 31, 2013 and 2012, respectively.

**Property, Plant and Equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. Depreciation is computed using the straight-line method over the useful lives of the assets. Major renewals and betterments are capitalized and depreciated; maintenance and repairs that do not extend the life of the respective assets are expensed as incurred. Upon disposal of assets, the cost and related accumulated depreciation are removed from the accounts and any gain or loss is included in the consolidated statements of income and comprehensive income.

Construction in progress primarily represents the construction or the renovation costs of plant, machinery and equipment stated at cost less any accumulated impairment loss, which is not depreciated. Costs and interest on borrowings incurred are capitalized and transferred to property and equipment upon completion, at which time depreciation commences. Cost of repairs and maintenance is expensed as incurred.

Depreciation related to property, plant and equipment used in production is reported in cost of sales. We estimated that the residual value of the Company's property and equipment ranges from 3% to 5%. Property, plant and equipment are depreciated over their estimated useful lives as follows:

Buildings	20-30 years
Machinery and equipment	5-10 years
Furniture and office equipment	3-5 years
Motor vehicles	5 years

**Foreign Currency and Other Comprehensive Income**

The financial statements of the Company's foreign subsidiaries are measured using the local currency as the functional currency; however, the functional currency and the reporting currency of the Company are the United States dollar ("USD"). Assets and liabilities of the Company's foreign subsidiaries have been translated into USD using the exchange rate at the balance sheet date, while equity accounts are translated using historical exchange rate. The average exchange rate for the period has been used to translate revenues and expenses. Translation adjustments are reported separately and accumulated in a separate component of equity (cumulative translation adjustment).

Other comprehensive income for the year ended December 31, 2013 and 2012 represented foreign currency translation adjustments and were included in the consolidated statements of income and comprehensive income.

**Income Taxes**

We use the asset and liability method of accounting for income taxes in accordance with ASC Topic 740, "Income Taxes." Under this method, income tax expense is recognized for the amount of: (i) taxes payable or refundable for the current year and (ii) deferred tax consequences of temporary differences resulting from matters that have been recognized in an entity's financial statements or tax returns. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the results of operations in the period that includes the enactment date. A valuation allowance is provided to reduce the deferred tax assets reported if based on the weight of the available positive and negative evidence, it is more likely than not some portion or all of the deferred tax assets will not be realized.

ASC Topic 740.10.30 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. ASC Topic 740.10.40 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. We have no material uncertain tax positions for any of the reporting periods presented.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**Leases**

Leases are reviewed and classified as capital or operating at their inception in accordance with ASC Topic 840, Accounting for Leases. For leases that contain rent escalations, the Company records monthly rent expense equal to the total amount of the payments due in the reporting period over the lease term. The difference between rent expense recorded and the amount paid is credited or charged to deferred rent account.

**Land Use Right**

The Company paid in advance for land use rights according to Chinese law. Prepaid land use rights are being amortized and recorded as lease expenses using the straight-line method over the use terms of the lease, which are 40 to 50 years.

**Reportable Segments**

We have six operating segments for financial reporting purposes for all periods presented in our consolidated financial statements in accordance with FASB ASC 280 "Segment Reporting."

**Research and Development**

Research and development costs are expensed when incurred and are included in operating expenses.

**Retirement Costs**

Retirement cost contributions relating to defined contribution plans are made based on a percentage of the relevant employees' salaries and are included in the consolidated Statement of Comprehensive Income as they become payable. The assumptions used in calculating the obligation for retirement cost contributions depend on the local economic environment, interpretations and practices in respect thereof. The Company recorded zero retirement costs during the year ended December 31, 2013 and 2012, respectively.

**New Accounting Pronouncements**

In March 2013, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2013-05, Foreign Currency Matters, (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (ASU 2013-05), to resolve a diversity in accounting for the cumulative translation adjustment of foreign currency upon derecognition of a foreign subsidiary or group of assets. ASU 2013-05 requires the parent to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets within a foreign entity. Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. Further, ASU 2013-05 clarified that the parent should apply the guidance in subtopic 810-10 if there is a sale of an investment in a foreign entity, including both (1) events that result in the loss of a controlling financial interest in a foreign entity and (2) events that result in an acquirer obtaining control of an acquiree in which it held an equity interest immediately before the acquisition date. Accordingly, the cumulative translation adjustment should be released into net income upon the occurrence of those events. ASU 2013-05 is effective prospectively for the Company in its first quarter of fiscal 2014, with early adoption permitted. The Company does not expect ASU 2013-05 to have a significant impact on its consolidated results of operations and financial condition.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, Income Taxes (Topic 740)(ASU 2013-11). The amendments in this update provide guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, similar tax loss, or tax credit carryforward exists. These amendments provide that an unrecognized tax benefit, or a portion thereof, should be presented in the financial statements as a reduction of a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except to the extent that a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date to settle any additional income taxes that would result from disallowance of a tax position, or the tax law does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, then the unrecognized tax benefit should be presented as a liability. The amendments in this update are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption is permitted. The Company does not expect ASU 2013-11 to have a significant impact on its consolidated results of operations and financial condition.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's consolidated financial statements upon adoption.

### 3. INVENTORIES

Inventories by major categories are summarized as follows:

	<b>December 31,</b>	
	<b>2012</b>	2011
Raw materials and packaging	\$ 1,030,866	\$ 973,139
Finished goods	<b>3,351,034</b>	6,305,052
Inventories	<b>\$ 4,381,900</b>	<b>\$ 7,278,191</b>

### 4. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following:

	<b>December 31,</b>	
	<b>2013</b>	2012
Machinery and equipment	\$ 35,285,220	\$ 33,393,352
Furniture and office equipment	372,618	278,853
Motor vehicles	564,017	528,137
Buildings	37,994,690	32,346,098
Construction in progress	10,738,946	3,192,672
Subtotal	<b>84,955,491</b>	69,739,112
Less: accumulated depreciation	<b>(23,048,316)</b>	(17,444,857)
Net property and equipment	<b>\$ 61,907,175</b>	<b>\$ 52,294,255</b>

During 2013, due to weather condition, purchasing price of apples in Northeastern China was unexpectedly high. As a result, our production facilities in Yingkou have not been used during entire 2013. Management believes that purchasing price of apples will decrease in 2014 to its normal level and our production facilities in Yingkou will be used in 2014 and beyond. Thus the Company charged no impairment of long-lived assets during 2013.

There were no impairment provisions made for the year ended December 31, 2013 and 2012.

Depreciation expense included in general and administration expenses for the year ended December 31, 2013 and 2012 was \$1,141,997 and \$391,532, respectively. Depreciation expense included in cost of sales for the year ended December 31, 2013 and 2012 was \$3,843,197 and \$4,023,824, respectively.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**5. LAND USAGE RIGHTS**

According to the laws of the PRC, the government owns all of the land in the PRC. The government of the PRC, its agencies and collectives hold all land ownership. Companies or individuals are authorized to use the land only through land usage rights granted by the PRC government. Land usage rights can be transferred upon approval by the land administrative authorities of the PRC (State Land Administration Bureau) upon payment of the required land transfer fee. Accordingly, the Company paid in advance for land usage rights. Prepaid land usage rights are being amortized and recorded as lease expenses using the straight-line method over the terms of the leases, which range from 40 to 50 years. The amortization expense was \$184,403 and \$180,920 for fiscal years 2013 and 2012, respectively. The following table sets forth land usage rights of the Company as of December 31, 2013 and 2012, respectively.

	December 31	
	2013	2012
Cost	\$ 8,038,175	\$ 7,796,985
Less: Accumulated amortisation	(1,516,023)	(1,288,836)
	\$ 6,522,152	\$ 6,508,149

**6. OTHER ASSETS**

Other assets mainly include deposits to acquire land use right and purchase property, plant and equipment. Payments for acquiring land use right were recorded as long term deposits in other assets before the land use right certificate received. The amount will be transferred to Land Use Right once the official certificate received from the government. Payments to purchase property, plant and equipment were recorded as long term deposits in other assets. The amount will be transferred to property, plant and equipment once the equipment is delivered or installed.

	December 31	
	2013	2012
Deposits for land use rights	\$ 38,561,975	\$ 1,210,214
Deposits to purchase property, plant and equipment	10,979,221	497,620
Other long-term deposit	73,004	70,814
	\$ 49,614,200	\$ 1,778,648

	<u>\$ 22,626,679</u>	<u>\$ 11,661,761</u>

**8. NOTES PAYABLE – BANK**

During the year ended December 31, 2013, the Company obtained a series of bank notes from various banks. Bank notes are collateralized by restricted cash and assets of the Company. The following table sets forth the outstanding bank notes as of December 31, 2013:

	December 31, 2013	Restricted Cash	Due date
Bank of Xi'an (1)	\$ 1,640,178	\$ 820,089	January 9, 2014
Shanghai Pudong Development Bank	3,608,391	3,608,391	April 9, 2014
China Merchants Bank	656,071	328,036	May 8, 2014
Bank of Ningxia	4,920,533	2,460,266	June 12, 2014
	<u>\$ 10,825,173</u>	<u>\$ 7,216,782</u>	

(1) Bank notes has been paid off on January 9, 2014.

## 9. RELATED PARTY TRANSACTION

### Sales to related party

The company's subsidiary sold fruit beverages to a related entity, Shaanxi Fullmart Convenient Chain Supermarket Co., Ltd. ("Fullmart") for approximately \$2,600,000 and \$2,176,000 for the year ended December 31, 2013 and 2012, respectively. The accounts receivable balances were approximately \$731,000 and \$624,000 as of December 31, 2013 and 2012, respectively. Fullmart is a company indirectly owned by our Chairman, Mr. Yongke Xue.

### Short-term loan – related party

The Company borrowed \$24,970 from Skypeople International Holdings Group Limited. The loan is non-interest bearing and due on demand.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**Long-term loan – related party**

On February 18, 2013, SkyPeople (China) entered into a loan agreement with SkyPeople International Holdings Group Limited (the "Lender"). The Lender indirectly holds 50.2% interest in the Company. Mr. Yongke Xue ("Y. K. Xue"), the Chairman of the board of directors of the Company (the "Board"), and Mr. Hongke Xue, the newly elected Chief Executive Officer of the Company and director of the Board, indirectly and beneficially own 80.0% and 9.4% of equity interest in the Lender, respectively. Pursuant to the Agreement, the Lender agrees to extend to the Company a one-year unsecured term loan with a principal amount of \$8.0 million at an interest rate of 6% per annum. During 2013, the Company received \$8.0 million from the Lender. In February 2014, both parties extended this loan for another two years.

The Company recorded interest expense of \$325,954 and zero for the year ended December 31, 2013 and 2012, respectively.

**10. INCOME TAX**

The Company is incorporated in the United States of America and is subject to United States federal taxation. No provisions for income taxes have been made, as the Company had no U.S. taxable income for the year ended December 31, 2013 and 2012. The effective income tax rate for the Company for both of the years ended December 31, 2013 and 2012 was 26%. The amount of unrecognized deferred tax liabilities for temporary differences related to the dividend from foreign subsidiaries is not determined because such determination is not practical.

The Company has not provided deferred taxes on undistributed earnings attributable to its PRC subsidiaries as they are to be permanently reinvested. On February 22, 2008, MOF, and SAT, jointly issued Cai Shui 2008 Circular 1, "Circular 1." According to Article 4 of Circular 1, distributions of accumulated profits earned by foreign investment enterprises, ("FIE") prior to January 1, 2008 to their foreign investors will be exempt from withholding tax, ("WHT") while distribution of the profits earned by a FIE after January 1, 2008 to its foreign investors shall be subject to WHT.

Dividend payments by PRC subsidiaries are limited by certain statutory regulations in the PRC. No dividends may be paid by PRC subsidiaries without first receiving prior approval from SAFE. Dividend payments are restricted to 90% of after tax profits.

Should the Company's PRC subsidiaries distribute all their profits generated after December 31, 2007, the aggregate withholding tax amount will be \$10,135,412 and \$8,726,331 as of December 31, 2013 and 2012, respectively.

The Company had no material adjustments to its liabilities for unrecognized income tax benefits according to the provisions of ASC Topic 740, Income Taxes. Since SkyPeople (China) intends to reinvest its earnings to further expand its businesses in mainland China, its PRC subsidiaries do not intend to declare dividends to their immediate foreign holding companies in the foreseeable future. Accordingly, the Company has not recorded any deferred taxes in relation to US tax on the cumulative amount of undistributed retained earnings since January 1, 2008.

Effective on January 1, 2008, the PRC Enterprise Income Tax Law, EIT Law, and Implementing Rules imposed a unified enterprise income tax rate of 25% on all domestic-invested enterprises and foreign-invested enterprises in the PRC, unless they qualify under certain limited exceptions. All of the Companies' Chinese subsidiaries were subject to an enterprise income tax rate of 25%.

The reconciliation of income tax expense at the U.S. statutory rate of 35% in 2013 and 2012, to the Company's effective tax rate is as follows:

	Year ended December 31,	
	2013	2012
U.S. Statutory rate	\$ 6,233,094	\$ 9,118,943
Tax rate difference between China and U.S.	(1,849,640)	(2,703,421)
Change in Valuation Allowance	240,682	322,510
Permanent difference	15,123	133,206
Effective tax rate	<u>\$ 4,639,259</u>	<u>\$ 6,871,238</u>

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

The provisions for income taxes are summarized as follows:

	Year ended December 31,	
	2013	2012
Current	\$ 5,084,396	\$ 6,787,529
Deferred	(445,137)	83,709
Total	<u>\$ 4,639,259</u>	<u>\$ 6,871,238</u>

The tax effects of temporary differences that give rise to the Company's net deferred tax asset as of December 31, 2013 and 2012 are as follows:

	December 31, 2013	December 31, 2012
Net operating loss carryforward	\$ 1,189,075	\$ 748,750
Inventory markdown	60,799	-
Bad debt provision	40,104	-
Accrued expenses	27,691	46,527
Startup costs	97,918	31,885
Others	89,038	(8,356)
	<u>1,504,625</u>	<u>818,806</u>
Less valuation allowance	(968,912)	(728,230)
Deferred tax assets	<u>\$ 535,713</u>	<u>\$ 90,576</u>

## 11. CONCENTRATIONS

The Company did not have concentrations of customers constituting more than 10% of our sales in 2013 and 2012 to any one customer, respectively.

Sales to our five largest customers accounted for approximately 24% and 29% of our net sales during the years ended December 31, 2013 and 2012, respectively.

The Company changed its packing glass bottle supplier in 2011. The largest packing glass bottle supplier for our fruit beverages accounted for 23% and 14% of our total purchases in 2013 and 2012, respectively. Except the packing glass bottle supplier, we did not have concentrations of business with other vendors constituting more than 10% of the Company's total purchases in 2013 and 2012.

## 12. SEGMENT REPORTING

The Company operates in six segments: concentrated apple juice and apple aroma, concentrated kiwifruit juice and kiwifruit puree, concentrated pear juice, fruit juice beverages and fresh fruits and vegetables, and others. Our concentrated apple juice and apple aroma is primarily produced by the Company's Huludao Wonder factory; concentrated pear juice is primarily produced by the Company's Jiangyang factory. However, the Company use the same production line to manufacture concentrated apple juice and concentrated pear juice, in addition, both Shaanxi Province, where the factory of Jiangyang factory is located, and Liaoning Province, where the factory of Huludao Wonder is located, are rich in fresh apple and pear supplies, Jinagyang factory also produces concentrated apple juice and Huludao Wonder factory also produces concentrated pear juice when necessary. Concentrated kiwifruit juice and kiwifruit puree is primarily produced by the Company's Qiyiwanguo factory, and fruit juice beverages is primarily produced by the Company's Qiyiwanguo factory. The Company's other products include fructose, concentrated turnjube juice, and other by products, such as kiwifruit seeds.

Concentrated fruit juice is used as a basic ingredient for manufacturing juice drinks and as an additive to fruit wine and fruit jam, cosmetics and medicines. The Company sells its concentrated fruit juice to domestic customers and exported directly or via distributors. The Company believes that its main export markets are the United States, the European Union, South Korea, Russia and the Middle East to North America, Europe, Russia, South Korea and the Middle East. The Company sells its Hedetang branded bottled fruit beverages

domestically primarily to supermarkets in the PRC. The Company sells its fresh fruit and vegetables to supermarkets and whole sellers in the PRC,

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

Some of these product segments might never individually meet the quantitative thresholds for determining reportable segments and we determine the reportable segments based on the discrete financial information provided to the chief operating decision maker. The chief operating decision maker evaluates the results of each segment in assessing performance and allocating resources among the segments. Since there is an overlap of services provided and products manufactured between different subsidiaries of the Company, the Company does not allocate operating expenses and assets based on the product segments. Therefore, operating expenses and assets information by segment are not presented. Segment profit represents the gross profit of each reportable segment.

(In Thousand) For the Year Ended December 31, 2013	Concentrated apple juice and apple aroma	Concentrated kiwifruit juice and kiwifruit puree	Concentrated pear juice	Fruit juice beverages	Fresh fruits and vegetables	Others	Total
Reportable segment revenue	\$ 8,679	\$ 10,100	\$ 21,008	\$ 39,938	\$ 815	\$ 1,190	\$ 81,730
Inter-segment revenue	(1,148)	(292)	(612)	(390)	(1)	(301)	(2,744)
Revenue from external customers	7,531	9,808	20,396	39,548	814	889	78,986
Segment gross profit	<u>\$ 1,535</u>	<u>\$ 4,313</u>	<u>\$ 6,500</u>	<u>\$ 14,646</u>	<u>\$ 395</u>	<u>\$ 164</u>	<u>\$ 27,553</u>

(In Thousand) For the Year Ended December 31, 2012	Concentrated apple juice and apple aroma	Concentrated kiwifruit juice and kiwifruit puree	Concentrated pear juice	Fruit juice beverages	Fresh fruits and vegetables	Others	Total
Reportable segment revenue	26,629	\$ 10,668	\$ 29,087	\$ 27,276	\$ 8,417	\$ 5,853	\$ 107,930
Inter-segment revenue	(3,742)	(1,516)	(162)	(139)	-	(15)	(5,574)
Revenue from external customers	22,887	9,152	28,925	27,137	8,417	5,838	102,356
Segment gross profit	<u>\$ 4,640</u>	<u>\$ 4,535</u>	<u>\$ 8,507</u>	<u>\$ 9,288</u>	<u>\$ 4,663</u>	<u>\$ 1,440</u>	<u>\$ 33,073</u>

The following table reconciles reportable segment profit to the Company's consolidated income before income tax provision for the years ended December 31, 2013 and 2012:

	<u>2013</u>	<u>2012</u>
Segment profit	\$ 27,552,973	\$ 33,072,991
Unallocated amounts:		
Operating expenses	(9,375,877)	(7,878,474)
Other income/(expenses)	(368,259)	859,608
Income before tax provision	<u>\$ 17,808,837</u>	<u>\$ 26,054,125</u>

The Company's export business is primarily comprised of fruit juice concentrates. As most of the export sales are through distributors and therefore we are not certain exactly where the Company's products are ultimately sold, revenue by geographical location is not presented. However, the Company estimates that our main export markets are the United States, the European Union, South Korea, Russia and the Middle East.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**13. COMMITMENTS AND CONTINGENCIES**

**Litigation**

On April 20, 2011, plaintiff Paul Kubala (on behalf of his minor child N.K.) filed a securities fraud class action lawsuit in the United States District Court, Southern District of New York against the Company, certain of its individual officers and/or directors, and Rodman & Renshaw, LLC, the underwriter of the Company's follow-on public offering consummated in August 2010, alleging violations of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 10b-5 promulgated thereunder. On June 20, 2011, plaintiff Benjamin Padnos filed a securities fraud class action lawsuit in the United States District Court, Southern District of New York against the Company, certain of its current and former officers and/or directors, the Company's former independent auditors Child Van Wagner & Bradshaw, PLLC and BDO Limited, and Rodman & Renshaw, LLC, the underwriter of the Company's follow-on public offering consummated in August 2010, alleging violations of Sections 10(b) and 20(a) of the Exchange Act and Rule 10b-5 promulgated thereunder. On August 30, 2011, the Court consolidated the foregoing two actions and appointed Zachary Lewy as lead plaintiff. On September 30, 2011, pursuant to the Court's order, Lead Plaintiff filed a consolidated complaint, which names the Company, Rodman & Renshaw, LLC, BDO Limited, Child Van Wagoner & Bradshaw PLLC and certain of the Company's current and former directors and/or officers and majority shareholders as defendants, and alleges violations of Sections 11, 12 and 15 of the Securities Act of 1933 and Sections 10(b) and 20(a) of the Exchange Act, and the rules promulgated thereunder. The Consolidated Complaint seeks, among other things, compensatory damages, and reasonable costs and expenses incurred in the action. On December 21, 2011, the Company and certain of the individual defendants filed a motion to dismiss the Consolidated Complaint. On May 3, 2012, Lead Plaintiff voluntarily dismissed the claims against BDO Limited and Child Van Wagoner & Bradshaw PLLC. On September 10, 2012, the Court granted in part and denied in part the Company's motion to dismiss the Consolidated Complaint. On January 11, 2013, defendant Rodman & Renshaw LLC filed for Chapter 11 bankruptcy protection, and, on January 18, 2013, the court imposed an automatic stay on Plaintiffs claims against Rodman pursuant to Section 326(a) of the Bankruptcy Code. The parties settled this matter by the Company agreeing to contribute \$2,200,000 into a settlement fund to pay class members (the "Settlement"). On January 27, 2014, the Court entered an order approving the Settlement, certifying the class for settlement purposes and dismissing the suit with prejudice.

On August 5, 2011, we received a shareholder demand letter from counsel for a purported shareholder. The letter was addressed to the Company's Board of Directors and requested the Board of Directors to take a number of actions in order to repair the alleged "harm" caused to the Company by certain of its directors and officers, as well as its current and former auditors. The Board of Directors has been reviewing this shareholder demand letter and considering appropriate action that the Company should undertake. On November 7, 2011, Baosheng Lu and Tao Wang were appointed to serve as directors of the board and the independent directors of the board appointed them to serve as the members of the evaluation committee. The evaluation committee is in the process of evaluating the actions demanded by the shareholder and retaining counsel to respond to the shareholder inquiry. No formal shareholder derivative complaint has been filed to date on behalf of the Company. The Company believes any such suit would be without merit and would vigorously defend its position in this regard.

On July 8, 2011, the Company brought suit against Absaroka Capital Management, LLC ("Absaroka") and its principal Kevin Barnes in the U.S. District Court of Wyoming under the caption SkyPeople, Inc. v. Absaroka Capital Management, LLC, et al., No. 11-cv-238. Absaroka is a purported independent investment analyst who, while holding a short position in our stock, issued a so-called research report (the "Report") asserting, inter alia, that the Company had inflated revenues. We brought suit alleging three causes of action for libel per se, libel per quod and intentional interference with a prospective business relationship. In or around November, 2011, Absaroka and Barnes brought counter claims against us for defamation per se, defamation per quod and abuse of process. On June 22, 2012, the Company and Absaroka reached an out-of-court settlement of litigation in the U.S. District Court for the District of Wyoming. The settlement includes a dismissal of all claims and counterclaims filed by the Parties, with neither party admitting any wrongdoing or liability. As part of the settlement agreement, Absaroka has agreed to remove the Report from its website, undertake best efforts to remove the Report from third-party sites, and refrain from issuing any further articles, public statements, or research reports concerning the Company.

Other than the above, from time to time we may be a party to various litigation proceedings arising in the ordinary course of our business, none of which, in the opinion of management, is likely to have a material adverse effect on our financial condition or results of operations.

**SKYPEOPLE FRUIT JUICE, INC.**  
**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR YEARS ENDED DECEMBER 31, 2013 AND 2012**

**14. SUBSEQUENT EVENT**

In January 2014, the SkyPeople (China), Xinda Financial Leasing Co., Ltd. (“Xinda”) entered into equipment leasing agreements with three suppliers, pursuant to which considerations of machinery and equipment will be paid by Xinda, SkyPeople (China) will lease these machinery and equipment from Xinda for five years. The total cost of equipment under this lease agreement is RMB129 million (approximately \$21 million). Estimated lease payment will be approximately RMB 8 million per quarter (approximately \$1.3 million). The Company will classify the leases as capital leases in accordance with ASC 840 “Leases”.

In accordance with ASC 855, “Subsequent Events,” the Company has evaluated subsequent events that have occurred after the date of the balance sheet through the date of issuance of these financial statements and has determined that there was no material event need to be disclosed, other than discussed above.
